

LOOK AT CHILD'S TONGUE IF SICK, CROSS, FEVERISH

Hurry, Mother! Remove poisons from
little stomach, liver,
bowels.

Give "California Syrup of Figs" at once
if bilious or constipated.

Look at the tongue, mother! If coated,
it is a sure sign that your little one's
stomach, liver and bowels need a gentle,
thorough cleansing at once.

When feverish, cross, listless, pale,
doesn't sleep, doesn't eat or act natural-
ly is feverish, stomach sour, breath bad,
has stomach-ache, sore throat, diarrhoea,
full of colds, give a teaspoonful of "Cal-
ifornia Syrup of Figs," and in a few
hours all the food, constipated waste, un-
digested food and sour bile gently move
out of the little bowels without griping,
and you have a well, playful child again.

You needn't coax sick children to take
this harmless "Fruit Laxative," they love
its delicious taste, and it always makes
them feel splendid.

Ask your druggist for a bottle of
"California Syrup of Figs," which has
directions for babies, children of all ages
and for grown-ups plainly on the bottle.

Beware of counterfeits sold here. To be
sure you get the genuine, ask to see that
it is made by the "California Fig Syrup
Company." Refuse any other kind with
completeness.

RETREAT CONCLUDED.
The retreat which started in the
Cathedral on Sunday night last was
brought to a successful conclusion to-
day by Rev. John Sox, S. J. Splendid
results have been attained throughout
the week's exercises. The retreat was
exceptionally well attended by the unmarried
ladies of the parish for whom the re-
treat was given. Father Sox will leave
for Nelson (N. B.), today on religious
duties. Returning he will conduct a re-
treat for the men of the Cathedral par-
ish which will open on Ash Wednesday.

Is Found Guilty
Welland, Ont., Feb. 28.—Constantine
Gurnamer was yesterday found guilty
of the murder of Willie Viaw at Niagara
Falls on January 23.

HAIR COMING OUT MEANS DANDRUFF

Dandrin[®] Will Save Your
Hair and Double Its
Beauty at Once

Try This! Your Hair Gets Soft, Wavy,
Abundant and Glossy at Once.

Save your hair! Beautify it! It is
only a matter of using a little Dandrin
occasionally to have a head of heavy,
beautiful hair; soft, lustrous, wavy and
free from dandruff. It is easy and real-
surprise will be after about two weeks' use,
when you will see new hair—fine and
downy at first—growing out from the old
hair—sprouting out all over your scalp.
Dandrin is, we believe, the only sure
hair grower, destroyer of dandruff and
cure for itchy scalp, and it never fails
to stop falling hair at once.
You want to prove how pretty and
soft your hair really is, moisten a cloth
with a little Dandrin and carefully
draw it through your hair—taking one
small strand at a time. Your hair will
be soft, glossy and beautiful in just a
few moments—a beautiful surprise
awaits everyone who tries this.

PLEA FOR WOMAN'S SUFFRAGE MADE AT WOMEN'S COUNCIL

A meeting of the St. John Local Council
of Women was held yesterday afternoon
in the King's Daughters Guild, with
the president, Mrs. E. Altherton
Smith, in the chair. The newly affili-
ated Women's Institute of St. John was
received into the council and the chief
business of the meeting was the read-
ing of the minutes of the National
Council executive meeting held in King-
ston in January, by Miss Amelia Haley,
the local corresponding secretary. These
minutes contained the resolutions which
were before the annual meeting of the
National Council. The St. John Council
has been asked to send a report of
the housing conditions for girls in this
city to the National Council and the
following committee was appointed to
collect the information required: Mrs.
Flahar, Mrs. Niece, Mrs. Canard, Mrs.
MacNeil.

Mrs. David McLean, the provincial
vice-president, reported that a local
council had been organized in Saskatoon
and that Moncton was intending to form
one.

Mrs. W. F. Hatheway, for the Women's
Suffrage Society, read a most ex-
cellent account of the progress of wom-
en's suffrage. In the course of her ad-
dress she outlined the progress of wom-
en's suffrage in different parts of the
world according to dates from 1841 when
political equality was first given to the
women of Bohemia, and in succession to
the women of the following places: Wy-
oming, Isle of Man, New Zealand, Colo-
rado, Australia, New South Wales, Tas-
mania, Finland, Norway, Washing-
ton state, California and Iowa.

Women's suffrage in Canada, she
sketched in the same way, beginning by
mentioning that pioneer of suffrage, Dr.
Emily Stowe, who from the time of her
graduation as a physician during the
time of her life had stood firm for
equal suffrage principles though steadily
opposed.

Canadian women, she said, had pos-
sessed the school franchise for several
years in the more important towns and
cities and for the last ten years had
been entitled to the municipal franchise
in the larger cities. She pointed out
that Western Canada had been more
prompt than Eastern Canada to confer
the right of equal parliamentary suf-
frage upon its women and since 1915
the country had seen British Columbia,
Alberta, Saskatchewan and Manitoba
coming in quick succession to the
port of equal rights and at the present
time four or five women are sitting as
representatives in the legislature of these
western provinces. Mrs. Hatheway re-
ferred to the fact that lately Nova Scot-
ia and Ontario had followed suit and
that now Quebec, New Brunswick and
Prince Edward Island are the only prov-
inces which regard their women as po-
litically inferior to their men.

British women, she said, are tremen-
dously enterprising and at the recent elec-
tions really elected the representatives,
twice as many women as men having
cast the vote. English women are now
insisting upon a steady readjustment of
the present unjust laws.

Mrs. Hatheway told how Toronto has
organized a women's party and she
asked the St. John Local Council of
Women to take some action towards in-
fluencing the New Brunswick legislature
at its coming session to place its women
on the same political basis as the other
Canadian provinces had done, so that
the province may be saved the disgrace
of having to be forced to follow suit.

British Planning 1,050-Foot Airship

To Travel 95 Miles an Hour With
20,000 Miles' Range—Roof Gar-
den on Top

London, Feb. 28.—The giant airship is
coming into its own. This summer will
probably see it crossing the Atlantic on
business and pleasure. Sir Woodman
Hawley is one of the first to book a
passage. Messrs. Vickers have under
construction what may prove to be the
first airship to do the passage.

During the war a chain of airship sta-
tions was set up, with mooring out-
stations and camps around the coasts of
Great Britain. We had seven airships
when war began. On October 31 last
the number was 100. During the war a
British airship made a cruise lasting
fifty and a half hours. Since the armis-
tice another has made the record sixty-
one hours.

I learn that an airship capable of
making 90 hours has now been plan-
ned, with a gas capacity of 10,000,000
feet. Her length will be 1,050 feet, the
speed ninety-five miles an hour and the
cruising range 20,000 miles.

The giant airship will carry crew, pas-
sengers, provisions, luggage and car-
riage up to twenty tons, and will
include drawing-rooms, smoking rooms,
salons and a roof garden.

In the near future afternoon concerts,
piano recitals, band recitals over the
banks of Newfoundland, in mid-Atlant-
ic, or over the top of the Andes, are
well within the range of possibility.

But the airship we shall be watching

HAD HACKING COUGH COULDN'T SLEEP NIGHTS

Hacking coughs are very wearing on
the system. The constant coughing dis-
turbs the rest, and keeps the lungs and
bronchial tubes in an irritated and in-
flamed condition.

Don't neglect the hacking cough. You
can get rid of it with a few doses of Dr.
Wood's Norway Pine Syrup; the most
prompt, pleasant and perfect cough re-
medy known.

Miss Catherine M. McLean, Crick,
Sask., writes:—"Last winter I caught a
heavy cold and was laid up for some
time. I had such a hacking cough I
couldn't sleep at night. I didn't think
I would get over it until I was forced
to see how bad my cough was. She ad-
vised me to try Dr. Wood's Norway
Pine Syrup. The next day I sent for a
bottle, and I soon got relief, and by the
time I had taken two bottles, my cough
was all gone, and now I am able to do
my work again. I don't think there is
anything to equal it."

There are plenty of "pine" prepara-
tions on the market trying to live on the
reputation of "Dr. Wood's."
For a year I suffered with Rheumatism,
being forced to stay in bed for five
months. I tried all kinds of medicine
but without getting better, until I found
"One day while lying in bed, I read
about 'Fruit-A-Tives,' the great fruit
medicine, and it seemed just what I
needed. I decided to try it.

"The first box helped me, and I took
the tablets regularly until every trace of
the Rheumatism left me."

"I have every confidence in 'Fruit-A-
tives' and strongly recommend them to
every sufferer from Rheumatism."

LORENZO LEDUC.

At all dealers or sent postpaid on re-
ceipt of price by Fruit-A-Tives Limited,
Ottawa, Ont.

**THE QUICK WAY TO
STOP A COUGH**
This home-made syrup does the
work in a hurry.
Put up only by FRUIT-A-TIVES LIMITED,
Ottawa, Ont.

You might be surprised to know that
the best thing you can use for a severe
cough, is a remedy which is easily pre-
pared at home in a few minutes. It is
cheap, but for prompt results it beats
anything else you ever tried. Usually
the ordinary cough or chest cold is in
24 hours. Tastes pleasant, too—children
love it.

Four 2 1/2 ounces of Pinex (50 cents
worth) in a 16-oz. bottle then fill it up
with the granulated sugar syrup. Or
use clarified molasses, honey, or corn
syrup. Stir well and bottle. This makes
16 ounces—a family supply—but costing no more
than a bottle of ready-made cough syrup.
And as a cough medicine, there is
nothing better in the world.

It goes right to the spot and
gives quick, lasting relief. It
heals the inflamed membranes that line
the throat and air passages, stops the
annoying cough, loosens the phlegm,
and soon your cough stops en-
tirely. Splendid for bronchitis, croup,
whooping cough and bronchial asthma.
Pinex is a highly concentrated com-
pound of the essential oils of the
sage, eucalyptus, and other medicinal
plants, and does not accept anything
else. It is a pure, natural product, of
no harm or money prompt relief. The
Pinex Co., Toronto, Ont.

This summer, the one being built, will
only have a gas capacity of 2,750,000
cubic feet. Its length is about 700 feet,
full speed seventy miles an hour, cruising
range about 20,000 miles, and cruising
endurance ten days. It will
carry about fifty-four tons dead weight.
I understand that its long distance trips
will be made at from 1,000 to 1,500 feet
to avoid extreme cold.

Conversing with an officer of one of
our biggest aircraft, he told me that the
difference between the Zeppelin and the
new airship was hardly
comparable. The airship "banks," de-
scends and climbs steeply, and is con-
trolled with "noise," and the wind whistles
on the wires and is very annoying to the
non-expert.

But in the airship sleeping is a thing
of calm joy, no "banks," no wires to
whistle, engines very quiet and easily
throttled back, with no fear that engine
failure is a life and death affair.

It will be recalled that a Zeppelin has
made a journey from East Africa and
back, lasting four days. The largest
"Zepp" has a gas capacity above
sixty tons.

These figures within a few months
will be far outdistanced by British air-
ships. These will be able to take very
long trips and return to their bases with-
out landing at intermediate stations. As
showing the risk of the airship I observe
by the way, that the Zeppelin was lost
on British shores during the war for
every 42,548 miles flown. That should
give confidence. The record of
airships, of course, does not approach
that.

In the monster which may go to
Buenos Ayres this summer more than
once, with prominent men and women
aboard, will be found embodied many
points picked from our "friends the en-
emy."

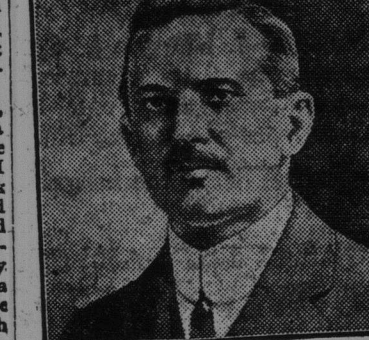

FROHMANN LEFT DEBTS TO EAT UP ESTATE

New York, Feb. 28.—Charles Frohman,
the theatrical producer, who lost his life
when the Lusitania was sunk by a sub-
marine in 1915, left a net estate of only
\$452, according to a transfer tax ap-
praisal of his estate filed here today.

The total estate was \$918,283. From
which deductions of \$918,931 were made,
the largest item being debts.

Al Hayman, theatrical manager, who
died February 10, 1917, and the appraisal
of whose property also was filed to-
day left a net estate of \$1,692,215. His
wife, Minnie Hayman, is the principal
beneficiary.

BED-RIDDEN WITH RHEUMATISM

MR. LORENZO LEDUC.

"Fruit-A-Tives" is certainly a wonder
for a year I suffered with Rheumatism,
being forced to stay in bed for five
months. I tried all kinds of medicine
but without getting better, until I found
"One day while lying in bed, I read
about 'Fruit-A-Tives,' the great fruit
medicine, and it seemed just what I
needed. I decided to try it.

"The first box helped me, and I took
the tablets regularly until every trace of

**SAY FAREWELL TO
CHALMERS CHURCH**
(Continued from page 9)
In the year 1857 Mr. Donald was suc-
ceeded in the valley group of stations
by Rev. James Gray, M. A., also a
graduate of the University of Toronto,
and Campbell Settlement church, where
he ministered until 1875. Mr. Gray at
once turned his attention to the Sussex
end of his field. Here in the year 1847
a church had been erected at Fox Hill
by Messrs. John Murray and John
King. Services were held here for
some time, first by Rev. Mr. Ste-
vens, and later by Rev. A. C. Stewart,
who, in 1840, was living in the old In-
dian College, Sussex. Later—about the
year 1850—the church was sold for
dwelling and the Presbyterian and Free-
will Baptist united and built a place of
worship at Roschville. In this church
the two denominations worshipped as one
congregation, all having assisted in the
erection of the building. But as time
passed the Presbyterians felt the neces-
sity for an organization of their own.

This was effected on May 1, 1857. It
is from this day forward that the Sus-
sex congregation of the Presbyterian
Church in the present time of history can be
most closely given by an appeal to the full
and excellent records of the church.
In the year 1857—Congregation orga-
nized in Rosch meeting house and re-
quest forwarded to Presbytery asking
recognition of James Gray, lately ar-
rived from Scotland. Some of the names
appearing in connection with this meet-
ing were: Mr. McCarty, Donald Fraser,
Thomas Murray, John King, John
Walker, Mr. Andrew Aitton, John Rob-
ertson, David Aitton, John Aitton,
James Marshall, William McCain, James
Milburn.

**MILBURN'S
LAXA-LIVER
PILLS**

Act as a stimulant to the sluggish
liver, clear the furred tongue, sweeten
the foul, obnoxious breath, and clear
away all the poisonous accumulations
from the system by causing the bowels
to move regularly and naturally every
day, thus preventing as well as curing
constipation, sick headaches, bilious head-
aches, water brash, heartburn, and all
diseases arising from a lazy, slow or
torpid liver.

They are purely vegetable, small and
easy to take, and there is nothing of the
gripping, weakening and spasm effects
of the old-fashioned purgatives.

These figures within a few months
will be far outdistanced by British air-
ships. These will be able to take very
long trips and return to their bases with-
out landing at intermediate stations. As
showing the risk of the airship I observe
by the way, that the Zeppelin was lost
on British shores during the war for
every 42,548 miles flown. That should

Quigley, Solomon Patterson, Andrew
Mackie. The sum of £33 10s. was guar-
anteed by meeting.

March 6, 1857—Rev. James Gray or-
dained in Hammond River church and
inducted into charge of Hampton, Lower
Norton, Upper Norton and Studholm
(Sussex).

July 19, 1857—First Communion
(Sussex) held at Mr. Gray's house, being
assisted by Rev. Lewis Jack of Spring-
field. The elders who served were
Messrs. Robert Wooten and Thomas
Purves of Hammond River.

April 8, 1861—Meeting held in Roach
meeting house resolves to leave union
building to Free Baptists and build new
church.

November 18, 1861—Authority given
committee to buy fifty pounds, one
acre on the side of the hill back of
Isaac Bunnell's house, on which to build
a church and form a burying ground.

June 21, 1863—Church dedicated and
opened for worship with \$700 debt stand-
ing. Total cost, including site, \$2,096.
For several years the debt pressed heav-
ily on the congregation and more than
once threatened its life.

July 25, 1868—Presbytery meeting in
Sussex church, at which Rev. Mr. Gray
resigns his charge—resignation not ac-
cepted. Hampton and Hammond River
dropped. Sussex to be given weekly
services and Norton, New Line and
Dutch Valley to be supplied alternately.

July 1875—Sussex Sabbath school
founded by Wm. Morrison.
August 31, 1875—First session ordain-
ed, consisting of Wm. Morrison, Donald
Fraser, John Walker, Wm. McAuley.

July 31, 1887—Resignation of Rev.
James Gray, M. A., after thirty-one
years of service.

November 18, 1887—Induction of Rev.
Thomas Stewart, B. D.
May 24, 1888—Norton dropped and
evening service begun at Sussex.

August, 1891—Resignation of Rev. T.
Stewart.
June 28, 1892—Induction of Rev. J.
S. Sutherland, B. A.

September 4, 1892—Messrs. H. A.
White and John Thompson elected el-
ders.

November 29, 1898—Congregation
votes to move church from Kirk Hill to
site in town.

December 27, 1898—Session adopts
resolution favoring place of worship at
Millstream.

April 21, 1898—Millstream Sabbath
school organized by H. A. White.
April 8, 1898—Proposal made to build
a Sabbath school building at Millstream.
November 22, 1898—First Communion
at Millstream.

January 27, 1897—Congregation votes
to become self-supporting.

Is Your Blood Starving for Want of Iron?
Modern Methods of Cooking and Living Have Made an Alarming Increase in Iron Defi-
ciency in Blood of American Men and Women

Why Nuxated Iron so Quickly Builds
Up Weak Nervous, Run-Down People
Taking it in This Country Alone to In-
crease Their Strength, Power, Energy
and Endurance.

"Is your blood starving for want of iron?
Iron is red blood food. If you want
it without eating until you become
weak, thin and emaciated, you could not
do so more serious harm to yourself than
when you let your blood literally starve
for want of iron—iron that gives it
strength and power to change food into
living tissue," says Dr. James Francis
Sullivan, formerly physician of Bellevue
Hospital (Outdoor Dept.), New York
and the Westchester County Hospital.

"Modern methods of cooking and the
rapid pace at which people of this coun-
try live has made such an alarming in-
crease in iron deficiency in the blood of
American men and women that I have
often marvelled at the large number of
people who lack iron in the blood, and
who never suspect the cause of their
weak, nervous, run-down condition."

Lack of iron in the blood not only makes
a man a physical and mental weakling,
nervous, irritable, easily fatigued, but it
literally robs him of that virile force,
that stamina and strength of will which
are so necessary to success and power in
every walk of life. It may also trans-
form a beautiful, sweet-tempered woman
into one who is cross, nervous and ir-
ritable. I have strongly emphasized the
great necessity of physicians making
blood examinations of their weak, ana-
emic, run-down patients. Thousands of
persons go on year after year suffering
from physical weakness and a highly
nervous condition due to lack of iron in
their red blood corpuscles without ever
realizing the real and true cause of
their trouble.

Nuxated Iron appears on the package:
If you have taken preparations such as
Nux and Iron and other similar iron
products and failed to get results, re-
member that such products are an en-
tirely different thing from Nuxated
Iron." In commenting upon the value of
iron to those who feel the need of re-
newed energy and the regularity of bod-
ily functions.

"But in my opinion you can't make
iron-rich women by feeding them iron-
rich food. The old forms of iron medi-
cine must go through a digestive pro-
cess to transform them into organic
iron—Nuxated Iron—before they are
ready to be taken up and assimilated
by the human system. Notwithstanding
all that has been said and written on this
subject by well known physicians, thou-
sands of people still insist in dosing them-
selves with metallic iron simply, I sup-
pose, because it costs a few cents less.
I strongly advise readers in all cases to
get a physician's prescription for organic
iron just as we use salt when our food and
all other druggists.

Manufacturers' Note: Nuxated Iron
is strong, potent, and does not contain
any harmful ingredients, and when
used in accordance with the directions
it is a safe and reliable remedy for
all cases of iron deficiency. It is not a
secret remedy but a well known drug
which is well known to druggists
everywhere. Unlike the older inorganic
iron, it is easily assimilated
by the human system and modern cook-
ing methods remove the iron of Mother
Nature's guarantee successful and
of our most com- truly satisfactory results to every
man foods this iron deficiency should be chased or they will refund your mon-
supplied by using some form of organic It is dispensed by Watsons Drug Store
iron just as we use salt when our food and all other druggists.

iron—Nuxated Iron—or if you don't
want to go to this trouble, then purchase
only Nuxated Iron in its original pack-
ages and see that this particular name
(Nuxated Iron) appears on the package.
If you have taken preparations such
