Name of J. K. Flemming Signed To That Loan Note For \$15,000

That is Recollection by E. R. Teed When Questioned Today

More About the Stock Transactions and J. D. Seely Adds Some Interesting Information About Prices—Acting Premier to Answer Questions About Berry and, So Far as Known, He is The Last Witness

Further details of the handling of the timber lands grant were revealed this morning by E. R. Teed of Woodstock, in his evidence before the royal commission to inquire into the Dugal charges.

Mr. Teed tells of investments which he made with these funds, of converting some of the securities into cash when the charges were laid, and he submitted an account of the entire fund, to Mr. Brankley the sum of \$200 was paid for his expenses and \$1,000 to the witness himself for his own expenses.

The disposition of this fund, he naively remarked, when asked, "is up to some one else."

James D. Seely, secretary of the Maine and New Brunswick Power Company, was called to confirm Mr. Teed's evidence regarding his investments in the stock of that company.

J. K. Flemming and to E. R. Teed, showing that, according to the books, eighty-three shares still stand in the names of each of them.

There was one interesting detail in Mr. Seely's evidence. It related to the cost of the stock which Mr. Teed said he purchased from Mr. Flemming.

Mr. Teed said that he had taken over the shares held by the premier and the new shares to which he was entitled at \$10, while Mr. Seely says that they cost the premier only the par value.

At the conclusion of the morning session Mr. Carvell announced that the acting premier, Hon. George J. Clark, had promised to be present this afternoon to answer some questions regarding W. H. Berry, and this would bring the evidence for Mr. Dugal to a close.

Teed Again on Stand
E. R. Teed again took the stand and Mr. Stevens resumed his examination when the court resumed this morning.

FLEMMING GOVERNMENT UTTERLY DISCREDITED

(Ottawa World, Conservative). Premier Flemming was again denounced by the opposition as "come back" as soon as the enquiries are over, should he do so, no matter what the result of the enquiries is, his return to active participation in the control of affairs would unquestionably result in his government being swept out of power at the next election.

It is an old saying, and a very true one, that pride will have its fall. The Hon. government in Manitoba, like the Flemming government in this province, had a tremendously large majority in the legislature, and they thought they owned the province and could do as they liked. They were under the impression, so sure were they of their position, that public opinion could be controlled with impunity, so they went on their way with reckless disregard to the properties of public life.

The Hon. government in Manitoba, like the Flemming government in this province, had a tremendously large majority in the legislature, and they thought they owned the province and could do as they liked.

It was at different times, but after the Dugal charges were made.

The greater amount of it was cash from the conversion of securities after the charges were laid.

It was the last session at St. John that you made some of these charges.

The only change is that at that time I had the M. & N. B. stock where I now have the same.

Mr. Seely has stated that you went to him personally for a contribution.

It was not that I knew of it, but I did not want to have the existence of the fund known but afterwards I did not care and as the money came in I put it on special deposit.

It was the last session at St. John that you made some of these charges.

James D. Seely was next called and questioned by Mr. Carvell.

General Huerta is in flight, probably on his way to Puerto Mexico to join his family and friends. General Aurelio Blanquet, his minister of war and strong adherent, went with him, and several other close friends.

Before leaving General Huerta went to the national palace where he congratulated Carvajal, who replied that he would do all in his power for the country's benefit. Later Carvajal conferred with the sub-secretaries of the different departments, all the members of the Huerta cabinet having resigned. A new cabinet, it is expected, will be named during today. The diplomatic corps has arranged to make a formal call on the new president on Friday.

London, July 16.—The resignation of Huerta is regarded as a victory for President Wilson's policy, and is welcomed by the British public and by official circles here as a possible solution of the Mexican problem. The London newspapers, however, express doubt as to whether conditions will be better under Carvajal.

Victoriano Huerta took oath as provisional president on February 19, 1913, the day after Francisco I. Madero had been arrested at the National Palace. Three days later Madero and Kose Mier y Teran, vice president, were shot to death on their way to the penitentiary. The manner of their death has never been satisfactorily explained.

President Taft, hearing the end of his term, left to his successor, the problem of adjusting diplomatic relations with Mexico.
Hampered at the outset of his administration by the refusal of the United States to recognize him, Huerta soon faced growing difficulties in raising funds to run his government. His uneasy hold upon affairs, was weakened by (Continued on page 7, seventh column).
