

# Jeff Didn't See Any Need of Telling the Obvious

By "Bud" Fisher

EDDIE GRANT'S FAMOUS HANDS

What makes a great infielder? The fan will say it is ability to cover round, take difficult balls, hit well, run the bases with sense and keep alive to the team work on the defense. A good pair of hands.

The great big fielding secret is ability to shift hands, and Eddie Grant, the fast fielding third baseman under Joe Tinker, can switch his hands faster than any infielder in the business. He is a regular Herman the Great when it comes to proving that the hands are faster than the eyes.

The position of the hands in catching a ball makes all the difference in the world, and there are two principal ways to make a catch. The hands are held one way for

balls above the waist and another way for those below the waist.

Ball batted on the ground frequently takes eccentric "hops," and good infielders must change their hands rapidly to make the stop and throw. The man who can not shift his hands rapidly works under a big handicap.

Ever since he broke into the big show Grant has been rated one of the best fielding third basemen living, and the difference in his work and that of others is largely in the speed with which his hands move.

Grant is a wonder at playing ground balls that bound badly. His hands are never in an awkward position when he grasps the ball and rarely does he carry an injured finger.

## ACROSS CANADA BY AUTOMOBILE

Here Are the Rules to Govern Run Between Louisburg, N. S., and Vancouver

- Following are the rules governing the awarding of the gold medal donated by A. E. Todd to the Victoria Automobile Association, for presentation to the first automobile touring continuously from Louisburg, N. S., to Victoria, B. C.
- (1) Tour to be between Louisburg and Victoria, over a continuous route and excepting at ferries must be made entirely under car's own power.
- (2) Tour to be run east or west at entrant's option.
- (3) Any car and any person shall be eligible to compete.
- (4) Medal to be awarded to either driver or owner of car according to which ever of the two registers with the Victoria Automobile Association for that purpose at start of tour.
- (5) Excepting the ferry journey, between Vancouver Island and the mainland, no ferry of more than twelve miles in distance will be permitted.
- (6) Travelling on railway tracks not permitted, excepting at those road crossings, where route crosses railway.
- (7) Competitors to start whenever they please, and to take their own time.
- (8) The tour to be in no sense either a speed or reliability trial.
- (9) A careful log of the route travelled to be kept, and a series of at least four dozen kodak or other photos to be taken along the route. A copy of this log, and two prints of each photo, to be turned over to the Victoria Automobile Association thereafter.
- (10) Route shall not go outside of Canada.
- (11) Entrant's log book to be endorsed every hundred miles by post master, town official or prominent storekeeper or merchant.
- (12) At least two Canadian highway permits to be carried on the car continuously throughout the trip.
- (13) In case of a competitor starting from east, he will be required, on arriving at Vancouver Island, to cover the entire distance marked by Canadian highway course to reach Victoria by the island highway route. (These are all fairly good roads, well marked with road signs, and easy going. To meet conditions of this clause, competitors will save time and distance by ferrying to city of Nanaimo, Vancouver Island, from Vancouver city; two or more steamers daily. However, competitors are at liberty to ferry to any other Vancouver Island port they please.) In

## CONSERVATIVES ON THE "GAG"

But so far as the English practice is concerned, they go indefinitely further than I hope we shall ever be obliged to go in this country. If we carried out the English practice to the full, we would adopt the English system of closure, under which the passage of the estimates would be referred to very little more than a face—Premier Borden in 1908.

Rumors have been prevalent for some time past in the government press that the government intended to revise the rules of the house at an early date, and to introduce what is known as a closure. I would like to ask the First Minister if that is the intention in this revision of the rules. I would like to say that so far as I can judge the temper of parliamentarians generally, they regard the freedom of debate as one of the dearest rights of the representatives of the people, and if any attempt is made under the guise of amending the rules to prevent the freest discussion of all public questions, I can only say that in my judgment the government will invite a good deal of trouble.—Speaker Stoute in 1908.

I for one have no idea at all of submitting without protest to any of the well-defined liberties of the House as a Parliamentary body being infringed upon.—Hon. George E. Foster in 1908.

I trust that this committee will in no way interfere with the liberties of Parliament, and especially with the liberties of individual members of the House. In the United States today we see that the popular Chamber has lost its liberties, and has passed under the domination of a Speaker, who is now known as a Czar, and consequently that chamber, which should have been the model chamber throughout the world, has lost its prestige and its power, that power having passed to another body. I do not wish to see a repetition of that history in this country.—W. F. Maclean, M. P., in 1908.

## PHYSICAL WRECK RESTORED TO HEALTH BY GREAT KIDNEY REMEDY

I feel it my duty to furnish you with my testimonial as to what your remedy Swamp-Root did for me when I was a physical wreck from kidney and bladder trouble.

Some years ago I was not able to do any work and could only just creep around and am satisfied that had it not been for Dr. Kilmer's Swamp-Root I would not have lived. After using the preparation for one month I was able to work some and when I had used \$5.00 worth of Swamp-Root I could do a good day's work. I used about \$10.00 worth altogether and would take \$10.00 for the good that it did me. I consider it a God-send to suffering humanity for the disease for which you recommend it and have recommended it to my sufferers.

N. L. HUGGINS.

Personally appeared before me this 20th of September, 1908, N. L. Huggins, who subscribed the above statement and made oath that the same is true in substance and in fact.

W. A. PAGE, J. P.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a copy of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention the St. John Evening Times. Regular \$5 and \$1.25 size bottles for sale at all drug stores in Canada.

"News From Bathurst"

The Chatham World brings the following interesting budget of news from its Bathurst correspondent concerning the affairs of the town:

"I see that those notorious gangs of ruffian women in England are still destroying property. They do the law and break the powers that be. The parties who administered the law acted like fools at first. When they sent them to prison they should have let them remain there and eat or die, and the sooner they die the better for the country. Now the best thing to do with them is to deport them to some place out in the Pacific-ocean and give them provisions and let them eat or die. Mr. Pankhurst is a criminal. He talks and acts criminal. She is what the New York people call one of the under-world gang. She has a daughter, a cat and a dog. The English people should send Miss Emmerson back to the United States where she belongs, and as an undesirable citizen. They are fools to have any trouble with her."

Mr. Foster in Australia

A Sydney, N. S. W., cable says that as far as he was able to judge, it seemed to Hon. Geo. E. Foster that the feelings of the people of New Zealand were in sympathy with improved trade relations with Canada.

Mr. Foster was much impressed with possibilities of New Zealand and Australia. The climate and varied productions of the countries opened up large vistas of future progress in many directions, but what struck him particularly was the spateness of the population and the striking contrast between the physical capabilities and the man-power necessary to develop them.

Mr. Foster also said he was much interested in watching the progress of the federal elections, especially noting the men and the methods. In some respects there was a marked similarity in the methods used between Canada and Australia, whilst in others he noted quite a different strain. The press seemed to be of a high-class grade, and treated questions in a fair manner both editorially and in correspondence.

"Tell Canadians," Mr. Foster said, "that New Zealanders and Australians are perfect samples of generous hospitality and brotherly feeling, and that Canadians visiting them must always take back with them plenty of letters of introduction to their sojourn among these distant kinsmen."

THE FOXES DIED

Chatham World—A Rogersville man caught a red fox the other day with three red and two black pups. He was promised \$1.00 for the fox and \$1.00 for the pups. He had the fox and the pups for three months, and got \$2.00 on account. All of the pups died.

## BREAK WHISKY'S GRIP ON YOUR LOVED ONES

Drunkards will tell you with tears of anxiety that they do not want to drink. The craving coming from the inflamed membranes of the stomach drives them to it.

Aleura will soothe the trembling nerves and remove that which is running your home and straining an otherwise kind husband or father from you. It costs only \$1.00 per box, and if it does not cure or benefit after a trial the money will be refunded.

Aleura No. 1 is tasteless and can be given secretly in Tea, Coffee or Food. Aleura No. 2 is taken voluntarily by those willing to help themselves.

Aleura can now be obtained at our store. Ask for Free Booklet telling all about it and give Aleura a trial.

E. C. Brown, druggist, St. John, N. B.

PULP MILL PROSPECTS

Chatham World—Manager Dick, Bank of Montreal, has received a despatch from Superintendent Clark, in reply to his inquiry, that Mr. Clark is to have an interview with President Kilgour tomorrow morning in Montreal on the pulp mill matter.

TO RELIEVE STOMACH TROUBLE

Restated Magnesia neutralizes excess acid; quickly relieves indigestion, heartburn, belching, sour stomach, etc. One teaspoonful after eating. Pleasant; wholesome; inexpensive; all druggists.

## Is Your Skin Rough and "Pachy"

Zam-Buk Will Make it "Peachy"

Every girl like a good complexion. Use of Zam-Buk ensures that. If you have pimples or rough and scaly patches on your face or any part of your skin just try it.

Think what your skin has had to go through during the winter just past. You have been out in rain and sleet and snow. You have been at one moment perspiring from skating, or some other exertion. Then you have stood to "cool off." You have spent hours indoors at a temperature equal to summer heat. Then you have covered up your skin except your face and gone out into a temperature away below zero! No wonder that with all these changes the skin of the face and neck shows signs of needing attention.

Zam-Buk is a skin food. Don't forget that the skin has to do work just as any other organ of your body has, and if you overwork it, it gives out. Zam-Buk is the remedy. Smear it lightly over the spots, the eruptions, the scaly patches, at night, and note how quickly your appearance improves. As the rich, refined, herbal essence sink deep into the tissue, the hard scurf-like patches are removed. The cuticle is softened. The cells beneath are stimulated to healthy operation. The pores resume their work properly. Better complexion results. The cells of the skin are purified by Zam-Buk, become transparent, the blood beneath is able to impart its proper coloring to the tissue, and the delicate "peach bloom" of health replaces the sallowness and pallor of disease. A few days' use of Zam-Buk will be found to give this result. Use also Zam-Buk soap.

Zam-Buk and Zam-Buk Soap are obtainable from all druggists and stores, or by mail from Zam-Buk Co., Toronto.

In 1910 there were living in the New England States 629,239 people born in Canada. New York had 123,651; Michigan 172,883; Illinois 45,731; Minnesota, 41,121; Washington, on the Pacific Coast, 39,482. There is now coming from the United States more people than the United States is receiving from Canada.

## CONSTIPATION Can Be Cured.

You cannot expect to be well if you allow your bowels to become clogged. What is necessary is to have a free motion of the bowels every day, and to keep them in this condition all the time if you wish to be strong and healthy. If you don't keep them open the system will become clogged up with poisonous matter and produce constipation, headache, dizziness, bad blood, etc.

Keep the bowels in good condition by using Burdock Blood Bitters, the remedy that has built up an unrivalled reputation, during the past thirty-six years, as a cure for all troubles arising from a congested condition of the bowels.

Mrs. Thomas Calder, East Lower Fort Garry, writes:—"I am writing you to let you know what Burdock Blood Bitters has done for me. I suffered very much from constipation and none of the medicines I took agreed with me. Now I am glad to say that there is nothing wrong with me. Since taking it I have not been troubled."

Burdock Blood Bitters is manufactured by The T. Milburn Co., Limited, Toronto, Ont.

## When a Ball Player is "Beaned" He Loses Confidence, Says Armour

By TOM ANDREWS

"Any time a baseball player is 'beaned' with a pitched ball you can gamble that he will never have the same confidence at bat again," remarked Bill Armour, business manager of the Milwaukee club, while talking shop with some of the boys.

"I have read many times," he continued, "of cases where players who had been hit on the head with pitched balls claimed to be as good as ever and all that, but you can not make me believe it. They may have their nerve with them most of the time and even bat well, almost as well as ever, but in a pinch you can safely bet that the player who has been 'beaned' will not be there with the same confidence when the pitcher is speeding them over the plate and near his head."

"When I was playing the outfield twenty years ago I was considered somewhat of a hitter and was never accused of being backward in getting as near the plate as the average player; in fact sneaking up on the ball, etc. but you can take it from me that after being nearly hit by a pitched ball I was never the same again. It was in the summer of 1894 that I bumped against it. I had been laid up and was resting at Altoona, Pa. Marty Hogan came along with his Lancaster club and wanted me to play, as they were short a couple of men. I declined at first, but after they had begged me to help them out I agreed and played that afternoon."

"The next day three of the players jumped the Altoona team and the manager begged me to help them out and go on to the next town for the series. Again I agreed and went with the team, although I should have been in bed. That afternoon we played against Johnstown, if I remember rightly, and Long John Healy was pitching. About the middle of the game I was at bat and Long John let go one of those fast ones for me that were noted in those days. I tried to step upon it but the ball was coming directly for my head and it was all off for twelve hours. The last thing I remembered was saying to myself, 'Well, they got you at last.' I was in the hospital for some time and much to do with putting me out of the game earlier than it had not occurred."

"I could tell you of many players in the big leagues today who have been hit on the head by pitched balls, and who have never been the same as star batters since. It takes the nerve out of the stoutest heart, I don't care who it may be."

## BEST \$5 HE EVER SPENT

Bristol, Pa., Man Says So in This Letter

Months of suffering and anxiety over his condition caused Mr. A. L. Kennedy of Bristol, Pa., to write this letter. He says "Grippe and a bad cough caused me much suffering and worry for five long months, but that is all over now for I have taken Vinol and am perfectly well. I took five bottles and it was the best five dollars I ever spent."

In health one cannot realize how depressed a person may become after trying one remedy after another for such a condition as Mr. Kennedy was in, without benefit, or what a relief it is to find help and be restored to health and strength. It is the combined action of the medicine curative element of cod's livers with out the greasy oil, aided by the blood-making and strength-creating properties of tonic iron, that makes Vinol so efficient in overcoming chronic coughs, colds and bronchitis at the same time building up the weakened run-down system. We guarantee Vinol to give you perfect satisfaction.

Watson's 3 Drug Store, King street, Main street and Haymarket Square.
