

New Brunswick's Greatest Shoe House

1878 - - - 1912

Our 34th Birthday

Thirty-four years of successful shoe selling.

Few concerns live to celebrate their 34th anniversary, but ours is one of the few. Thirty-four years marks an epoch in the life of an individual, a nation, or a business concern.

In the year 1878, the original Waterbury & Rising store was started in a humble way at 212 Union street, and from that small beginning has grown our present immense business.

There is no romance or mystery about the growth of the Waterbury & Rising Limited. St. John then, as now, was not not suffering from a lack of shoe stores, but we felt there was room for much improvement over the methods then in vogue.

A revolution in the methods of store arrangement, displaying of goods, free delivery, modern book keeping, aggressive advertising, and the procuring of the best and newest goods obtainable in the markets of the world, coupled with courteous treatment to all, were some of the innovations rapidly introduced, with the result that year by year the business increased until it assumed its present enviable position. We are naturally proud of our success and fully appreciate the hearty co-operation extended us by the people of the province.

In the future we shall continue the policy inaugurated at the beginning, of providing the newest goods and latest styles of footwear at the lowest prices.

For the liberal patronage extended us, we offer our heartfelt thanks, and respectfully solicit a continuance of that generous support in the future.

AROSTOOK'S POTATO CROP

Three-Fourths Harvested But Shipments Less Than Third of Amount in 1911

Houlton, Oct. 16.—According to a view of the potato situation in Aroostook taken by A. G. Rich, an extensive buyer, the crop here is about three-fourths harvested. The shipments, however, have been much lighter than last year. Up to Oct. 1, 1911, the shipments by the Bangor & Aroostook from that season's crop aggregated practically three and one-half million bushels, while from the 1912 crop the shipments up to Oct. 1 were somewhat under one million bushels.

The acreage in Aroostook county, according to Mr. Rich, is probably slightly in excess of 1911, and while the yield of Cobscook was larger than last year as a rule, yet the yield per acre for Green Mountains is not as heavy; they will probably run seventy to ninety barrels to the acre. The quality, however, is extra fine and the size being medium they will suit the trade better than last year.

The demand for seed potatoes from the south for both Cobscook and Blue has been good and buyers from that section have been in Aroostook the greater part of the fall and are now shipping and storing for their spring trade.

The price at present for Green Mountains ranges from \$1 to \$1.50 and for Cobscook \$1.10 to \$1.20 a barrel, according to the quality. It is thought that the movement of potatoes through November and December will be much heavier than corresponding months of last year, so that by January 1 the shipments will not show as much difference in the two years as at present.

As to the quality of the Aroostook potato is better than usual both as regard size and cooking qualities, it is thought there will be a steady demand at fair prices through the entire winter.
