ASEPTO SOAP Ltd.

In the Maine Central station in Cathance, Me. is a box with a slit in the top in which the agent places his way bills for freight. A few days ago the agent found that a bird had built a nest and laid four little blue eggs in it. The slit in the box was so small that he could not believe the bird could pass through it and thought that someone had placed the nest and eggs there for a joke. He waited developments and soon found that the bird was really the offending party. He wired the Maine Central office in Portland as to what he would do and was directed not to disturb the bird.

Looking out of the window on Sunday was at one time an indistinct office in Scotland. In 1700 the Kirk session of Edinburgh "taking into consideration that the Lord's day is profaned by the people standing in the streets, vagrant in the fields and gardens, as also by idly gazing out of the windows," ordered "that each session take its turn to watch the streets on the Sabbath, and to visit each suspected house in each parish by elders and deacons with heads and officers, and after sermon when the day is long, to pass through the streets and to remove such as transgress and inform on such as do not reform."

Daily Hints For the Cook

PINK AND WHITE SHORTCAKE

Two cups of pastry flour, four level teaspoons of baking powder, one-fourth cup of butter, about three-fourths cup of milk or enough to make a soft dough, and two egg yolks. Rub the butter into the flour, add the beaten yolks, one half of the milk and mix, using the remainder of the milk if needed. Roll one half inch thick, cut with biscuit or cookie cutter and bake in a moderate oven. Break apart, fill with sweetened berries, place on the top of three perfect berries and sprinkle with powdered sugar. Serve with a bowl of sweetened berries, place on the top of three perfect berries and sprinkle with powdered sugar. Serve with a bowl of sweetened berries, place on the top of three perfect berries and sprinkle with powdered sugar.

MUSHRUM STEWED WITH CREAM
Prepare a pound of mushrooms by paring off the ends. Clean and wash well, and if very large cut in halves. Drain and place in a saucepan with three ounces of butter. Season with salt and pepper and cook five minutes. Add two tablespoons of the white sauce made from a tablespoonful of butter and one of flour, blended, then cooked with three fourths cup milk to a smooth cream.

Add also a half cupful sweet cream to the mushrooms; cook three minutes longer and serve in a hot dish with eight heart-shaped bread croutons for a garnish.

THE HERPICIDE

GIRL IS THANKFUL

I am always grateful for real blessings, and I know of nothing I need to be more thankful for than Newbro's Herpicide. Thousands of ladies not only in the United States but all over the world feel the same way about it. To this wonderful scalp and hair remedy they owe their soft, long, beautiful hair.

Mary J. Terry, of Lovejoy, Ill., writes: "My hair came out until there was just a scanty cover for the scalp. I tried everything I ever heard of or read about until I finally used Herpicide. There is nothing like it. My head is now covered with new hair. I shall forever praise Herpicide."

Most hair troubles come from dandruff. Newbro's Herpicide removes this dandruff by killing the germ which causes it. It also stimulates a flow of blood which nourishes the follicles. The scalp being healthy, the hair does not come out and the new hair is allowed to grow.

There are other preparations which they say are "just as good" as Herpicide. It is not untrue that they are. Instead of doing good they do no positive harm. No one is ever disappointed in Newbro's Herpicide. The results are always the same, always satisfactory. Herpicide has been sold for years and has the hands of satisfied friends. It is the only genuine, original dandruff germ destroyer. There is nothing "just as good."

One dollar per bottle are sold and returned at good barber shops. Send 10c. in postage to the Herpicide Co., Dept. R., Detroit, Mich. E. Clinton Brown, special corner Union and Alverno streets.

When a girl knows that a man loves her she always likes to pretend to doubt it.

METHODISTS NEARLY ALL IN FAVOR OF THE PROJECTED UNION

Vote 101 to Nine in Conference
Last Night—Large Sums Sub-
scribed to Mr. Allison Forward
Movement

The most important matter occupying the attention of the Methodist conference yesterday was the question of church union. The vote recorded on the matter was 101 for union to nine against. It did not seem to be any marked division of opinion on the question at issue and there was comparatively little debate. Dr. J. R. Inch made a fine address in favor of the project and Rev. Charles Sampson, of Fredericton, spoke against accepting the basis of union.

During the afternoon the claims of the forward movement in Mount Allison University were well presented by Rev. Dr. B. C. Borden and Rev. Dr. Campbell. Subscriptions were called for and as a result \$6,200 were received in large amounts and \$3,000 in smaller amounts. Dr. Borden pledged himself for \$8,000; E. R. Macdonald, of this city, for \$1,000, and Dr. J. R. Inch for \$500.

This afternoon, by invitation of the St. John churches, the members of the conference will enjoy a sail on the river. The steamer Majestic will leave her wharf at 2:30 and the return to the city will be made about 5 o'clock. A pleasant time is anticipated.

The afternoon session it was reported that the name of James Baxter had been added to the parsonage aid committee. The report of the assessment of the superannuated fund for the districts was added. The amounts were as follows: St. John, \$700; Fredericton, \$227; Woodstock, \$250; Chatham, \$200; St. Stephen, \$200; Charlottetown, \$188; Summerside, \$225. These sums represented an increase of 40 per cent and a good deal of discussion over the necessity for this arose. It was pointed out that the sole desire of the committee was to place the fund in a solvent condition. The matter, however, was allowed to lie over in favor of proceeding with the order of the day.

The consideration of the forward movement of Mount Allison was taken up and Dr. Borden called attention of the conference to the financial condition of the ladies' college. This showed that receipts of \$50,489.75 with expenditures of \$52,443.10, leaving a surplus of \$7,946.65. He pointed out the vital importance of giving support to the educational institutions. It was necessary to extend in several directions and he said an adequate endowment fund should be raised. He suggested that the sentiment of the conference on the matter should be crystallized in some manner.

Rev. Dr. Campbell presented a strong appeal for the movement for the institutions. Mount Allison, he said, took no secondary place in the training of the mind for citizenship. The church found the institution and was responsible for the strengthening of the foundations. As the government could not be expected to contribute, the church must subscribe liberally.

Dr. J. Weddell presented a resolution of endorsement of the forward movement, urging a response to the appeal for the \$250,000 by the churches. The resolution was adopted by a large majority. Dr. Allison explained the needs of the institutions. The annual deficits and the need of enlarging the work were urgent. The staff had been very much enlarged. Dr. Borden announced that subscrip-

tion lists were open and he was ready to receive names. E. R. Macdonald, of this city, was the first to respond, pledging himself for \$1,000. Prof. Watson announced that he himself had put his name down for \$5,000. The secretary read a communication from J. N. Harvey asking to be relieved from his conference duties on account of his removal from the bounds of the conference.

The resignation of Mr. Harvey was accepted on motion, the letter writers being instructed to communicate the regret of the conference to him. The question of union was taken up. There was a communication read from Rev. T. Albert Moore, containing directions on the mode of procedure.

Dr. Inch moved the following resolution: "In accordance with the instructions of the general conference the union of the Methodist, Presbyterian and Congregational churches in Canada, this annual conference of the New Brunswick and Prince Edward Island having taken into prayerful consideration the basis of union submitted by the general union committee, hereby expresses its belief that such union if consummated to promote the highest interests of the Redeemer's kingdom throughout the world, and the approval of the basis of union submitted to us for acceptance or rejection."

The case was seconded by Rev. Thomas Marshall. The question of union was taken up. Dr. Inch, of the proprietor of the shop 109 Queen street and that he was not responsible. D. Monahan took the ground that his was a repair shop and that he had a right to keep open.

Wm. Watson contended that he dealt in newspapers and magazine and that he came under class of news agent. Thomas Ritchie kept open as he was the holder of a beer license. Morris Jacobson took the ground that he was a wholesale merchant. Dr. J. R. Inch objected to the act argued that it was ultra vires of the provincial legislature and that the bye law was in restraint of trade.

Mr. Mullin spoke on the constitutional aspect of the law. Recorder Baxter said that decisions by the Manitoba supreme court and supreme court of Canada respectively had established a legal right of the province to legislate. The cases were then adjourned to the date mentioned.

A stubborn fire took place yesterday at Fredericton, in the beer works of the McKee Company. The damage was not great.

It was in the last named field that the increase had occurred, and this was owing to a legacy having been paid. The total missionary income of the conference was \$12,983.36, which was a net decrease from last year of \$1,578.05. The amount of the grant to the conference from the general missionary board of the church was \$12,735. He thought, however, that it ought to be stated in fairness that they had been able to pay the missionaries in full this year, which was the first time in the history of the conference they had been able to do so.

Mrs. C. F. Sanford and Mrs. J. D.

THE COTTON OUTLOOK

(Weekly Market Letter Furnished by J. M. Robinson & Sons.)

The course of prices naturally must depend very largely on whether the dry weather complained of continues until there has been permanent injury to the crop, which, however, is seldom either made or lost during the month of June. There is room for much deterioration from the end of May prospect without jeopardizing the yield to the extent of justifying sensational prices, and while one must naturally hesitate to express any definite opinion when the action of the market hinges so completely upon climatic conditions, as it is broad proposition, it seems to us that adverse, reflecting the sympathetic influence of old crop strength, and such lively apprehensions of new crop damage still to be actually suffered, should prove more than can be maintained during the height of the marketing season next autumn, indeed, the gloomiest forebodings regarding the outlook in the southwest are realized.

E. & C. RANDOLPH, New York.

THE EARLY CLOSING CASES

Five of the early closing cases came up in the police court yesterday afternoon and after evidence had been taken and counsel had outlined their argument, adjournment was taken until Saturday, June 24 that the common council might decide whether or not the law would be repealed. Recorder Baxter conducted the prosecution and Daniel Mullin, K. C., and Amos A. Wilson, K. C., acted for the defence.

The cases called presented unusual features and were thought unsatisfactory as test cases. W. H. McDonald said his was the proprietor of the shop 109 Queen street and that he was not responsible. D. Monahan took the ground that his was a repair shop and that he had a right to keep open.

Wm. Watson contended that he dealt in newspapers and magazine and that he came under class of news agent. Thomas Ritchie kept open as he was the holder of a beer license.

Morris Jacobson took the ground that he was a wholesale merchant. Dr. J. R. Inch objected to the act argued that it was ultra vires of the provincial legislature and that the bye law was in restraint of trade. Mr. Mullin spoke on the constitutional aspect of the law. Recorder Baxter said that decisions by the Manitoba supreme court and supreme court of Canada respectively had established a legal right of the province to legislate. The cases were then adjourned to the date mentioned.

A stubborn fire took place yesterday at Fredericton, in the beer works of the McKee Company. The damage was not great.

MORNING LOCALS

The Queen square Methodist Sunday school will hold its picnic at Goudala Point on the Kennebecus river, on July 4. If the weather is prohibitive, it will be held on the next favorable day.

Dr. C. F. Gorham, A. W. Sharp, Thomas Christian, Harry Morton and E. W. McCready returned yesterday after spending a week at Arnold Lake, Kings county. They had a very successful few days' fishing.

While repairing his house, 220 Sydney street, yesterday afternoon, William J. Brophy, an elderly man, sustained very serious injuries as a result of falling off a ladder, and last evening grave fears were entertained for his recovery. Among injuries of a less serious nature he had his collar bone and several ribs broken. He fell about fifteen or twenty feet.

At a meeting in the Board of Trade rooms yesterday St. John business men doing business with the West Indies, and Mackenzie Cornish, who is promoting organization of West India leagues for trade purposes, took place. The steamship service was discussed and the league project was favored.

THE SOLDIERS AWAY.
While large crowds lined the streets on the march last night, the 82nd regiment in full marching uniform to the depot where they embarked for Boston. The regiment band played spirited airs, and the drum corps beat a lively marching tune. Col. J. L. McKeay and the other officers looked their best, while the men made a splendid appearance. Mayor Frink and Ald. John McGoldrick went to Boston with the regiment.
