CORNER KING & YONGE STREETS,  
OVER FAHEY BROS.

## NITROUS OXIDE GAS !

*Administered for the Painless Extraction of Teeth.*

This anesthetic having been in general use throughout the United States for a number of years, and having given unbounded satisfaction, it may be considered without an equal for Dental Purposes.

No charge for extracting when Artificial Teeth are inserted. The best English and American Teeth used in all cases.

Charges so reduced that all those in want of dental work need not hesitate to call, as satisfactory arrangements can be made.

Badly fitting plates re-modeled at a small cost. Teeth carefully filled.
