

## Miramichi and the North Shore, etc.

A SMALL STEAM ENGINE and boiler wanted. See adv.

FOR DALHOUSIE.—John Montgomery, of Dalhousie, who has been studying with C. H. Skinner, St. John, goes to Halifax this week. He is in his fourth year in arts and his first-second in law at Dalhousie.

STEAMER "NELOON" time-table is to be changed, beginning to-morrow, Friday. She will leave Chatham at six o'clock, p. m., instead of 4.30, as formerly, and there will be a return trip on Monday last, the arrangement being therefore precisely the same as that for last fall.

FINGER INJURED.—Thomas Connors, a young man employed in Mr. John McDonald's steam wood-working establishment, Duke Street, Chatham, lost part of one of his fingers on Monday last by allowing it to get into contact with a buzz-saw.

THE NORMAL SCHOOL was re-opened on Tuesday morning with 207 female and 23 male applicants for admission. A. F. Davidson, corresponding secretary, is "C. C. Turner of Tracadie is registered at the Barker. He is accompanied by his two daughters, who are applicants for admission into the Normal school."

100 YEARS OLD.—Mrs. Peter, 105 years old, was in Bathurst the other day having, as she said, a look at the place before she died. She is exceedingly smart, has a good memory and has lived to see a few years more to her already advanced age. She had not been in Bathurst for fifteen years, although she lives but three miles distant.

ST. LUKE'S PICNIC.—A very large picnic and excursion party went from Chatham by the Canada Eastern Railway to Dauntdown yesterday morning, under the auspices of St. Luke's Methodist Church. The day was a very fine one and we have no doubt the occasion was fully enjoyed by all who went.

THE PRIZE.—A large number of journalists and others connected with the press of the Maritime Provinces, have been enjoying an excursion to Prince Edward Island. Their outing has been a pleasant one and their association throughout such favorable circumstances for social intercourse will have a beneficial effect upon the fraternity generally.

FOR THE UNIVERSITY.—Principal Cox of the Newcastle High School is to be congratulated on the fact that four of his pupils—and perhaps five—will participate at the New Brunswick University this year. The prospects are that the University will open in October with the largest number of students ever enrolled for one term since it was founded.

ABDUL ALI, who was here not long ago with the Indian contingent of the Salvation Army, has left the Army and joined the Baptist church. He will be engaged and supported by the Baptist congregation of Moncton as a missionary to the Telugu country in India. He took part in the services in the Moncton Baptist church last Sunday morning and spoke of mission work in India.

OUT OF ITS COURSE.—A few days ago a carrier pigeon, carrying a letter, took a note, alighted on the barn of Fabian Landry, Grand Ave., Gloucester Co., and allowed itself to be captured. The note was dated the 10th inst., and was written from Kamouraska, Que., by a man named Harvey. The bird was to have gone to Quebec but evidently had been blown out of its course.

MR. ALEX. McDONALD, formerly of Newcastle, and now of Portland, Maine, is visiting his native town, which has no reason to be ashamed of him, either at home or abroad, and a ridiculous reference to him in yesterday's *Advertiser* while it may annoy both his friends and himself, is only a rank manifestation of the unfortunate intelligence of that paper to display the peculiar taste with which it is conducted.

STUCK A REEF.—The freight steamer William, of Charlottetown, from Sydney to Miramichi, N. B., with coal, put into Bay Verte on Thursday for shelter during the storm and as she was coming out next morning she struck on Cape Tormentine reef and sprang a leak. She was headed for Point St. Charles where she reached yesterday afternoon, and was beached to prevent her from sinking. She will have to discharge her cargo to repair.

ST. MARY'S AND ST. PAUL'S PICNIC. St. Mary's and St. Paul's Sunday Schools (D. V.) held a picnic on Bear's Head Island on Tuesday, Sept. the 1st. A steamer will leave Chatham at 2 p. m. and 2 p. m., calling at Miramichi's Wharf. Tickets for adults, one fare, 25 cents. Children free.

It is hoped that a pleasant day will be spent at the old favorite resort, by both adults and juveniles.

NOT URGENT.—The St. John Gazette has the following paragraph:—A serious incident is told by Capt. Kennedy of the schooner *Crockett*, which happened on the last trip of that vessel to Boston, where she was shipped and shortly afterwards two large herring were found on the deck.

Our fresh-water friends of the *Gazette* will, probably, be surprised to learn that fishes sometimes fly on board of vessels in the Gulf stream and that even salmon have, frequently, jumped from the Miramichi river and alighted on rafts and been captured in that way.

A NEW PAPER.—The *Globe*, which is meeting opposition to the local government in the province, is told by Capt. Kennedy of the schooner *Crockett*, which happened on the last trip of that vessel to Boston, where she was shipped and shortly afterwards two large herring were found on the deck.

Our fresh-water friends of the *Gazette* will, probably, be surprised to learn that fishes sometimes fly on board of vessels in the Gulf stream and that even salmon have, frequently, jumped from the Miramichi river and alighted on rafts and been captured in that way.

A NEW PAPER.—The *Globe*, which is meeting opposition to the local government in the province, is told by Capt. Kennedy of the schooner *Crockett*, which happened on the last trip of that vessel to Boston, where she was shipped and shortly afterwards two large herring were found on the deck.

but his many friends will be glad to learn that his symptoms were favorable yesterday.

Mr. Gordon M. Blair, of the Bank of Montreal, Calgary, who is returning from a vacation tour of Great Britain and the continent, is visiting his home in Chatham and is heartily welcomed by his many friends here.

### Picnic-Excursion and Dance.

The close of the summer season at the favorite Bay du Vin resort—Mr. Malcolm Taylor's—is to be celebrated next Thursday, 11th inst., by an excursion, picnic and dance. The large hall adjoining the hotel will be open for dancing immediately upon the arrival of the *Miramichi* on the morning trip from Chatham. Mr. Arch McDonald is being engaged to furnish music for the occasion. The *Miramichi* will make a second trip from Chatham leaving her wharf here at 7 p. m. and arriving at Bay du Vin at 8.45. Excursionists going down by the evening trip will have about three hours' dancing. Particulars, as to fares, dinner and refreshments, etc., will be found in another column. This seems to afford a suitable opportunity for a very large number of young people to have a most enjoyable time.

### Musical Performances.

Of the Dicker & Edmonds Vandeville Company, which is to appear in Masonic Hall, Chatham, four nights, beginning to-morrow, Friday, and continuing until Tuesday, the *Moncton Times* of 19th said: "Prof. Edmonds, the great Australian Wizard, held forth to a large and delighted audience last evening at the Opera House. The performance was highly spoken of and the presents numerous and valuable. The professor performed his tricks in a marvellously easy and graceful manner and his ventriloquism brought forth shouts of applause. Among the many handsome presents given away last night were a lady's gold watch, chain, tea set, silver for pitcher, barrel of flour and a hundred other presents of a less costly nature. We predict for the professor a full house to-night when a change of program is announced."

In the next issue the same paper said: "Prof. Edmonds was again greeted with a large audience last evening and he delighted them with his wonderful powers. The show is a good one and the presents the best that has ever been given away in Moncton. There will be a change of programme to-night, which is the last opportunity of witnessing the talented artist."

### Now the C. P. R.

The Canadian Pacific Railway formally assumed control of the New Brunswick Railway on Monday last. There is still some difficulty in connection with the New Brunswick Railway, some of the enterprising gentlemen connected therewith not being yet satisfactorily arranged with. It is probable, however, that this road will also soon be included in what is now known as "the New Brunswick division of the Canadian Pacific Railway." The following notices on the subject have been issued:—

THE NEW BRUNSWICK R. R. CO., Montreal, 22nd Aug., 1890.

The New Brunswick Railway having been leased to the Canadian Pacific Railway company, its control and management is hereby surrendered to that company.

The Fredericton branch is not included in the lease, but will, until further notice, be worked for the account of the New Brunswick Railway company under the charge of Mr. H. P. Timmerman, general superintendent.

By authority of the Board of Directors, ROBERT McNEIL, president.

THE CANADIAN P. R. COMPANY, Montreal, 22nd Aug., 1890.

The New Brunswick Railway having been leased by this company, it will, from the end of the present month, be worked as the New Brunswick Railway, under the superintendence of Mr. H. P. Timmerman, General Superintendent.

W. C. VAN ROY, President.

### The Out Crop.

Mr. Loggin, Secretary for Agriculture, has issued a report on the out crop of the province, as follows:—

From eighty-five reports I gather the following information relative to the out crop:

There has been a marked improvement in the condition of the corn crop in August, with a prospect of still further improvement, but the condition over the whole Province is not up to average. As much 100 to 120 per cent prime condition, the reports give the following percentages of condition for the several crops during the week ending August 23:

Queen's, 67.  
Kentington, 75.  
St. John, 77.  
Gloucester, 72.  
Sanbury, 74.  
Victoria, 90.  
Westmorland, 75.  
Miramichi, 80.  
Northumberland, 62.5.

A calculation based upon these percentages and the respective Out product of the several Counties makes the percentage of condition for the Province as a whole, 76.2.

The report on the acreage in corn published in July showed a substantial reduction in the breadth sown to oats.

In this connection it may be interesting to stock raisers and others, to know that the condition of the Corn and Out crops in the United States is exceptionally low. This would appear to indicate a large reduction in the Corn available for export from that country, and to make it probable that feed of all kinds will be at a good price this season.

CHAS. H. LOGGIN, Secretary for Agriculture. 25th August, 1890.

LITTLE'S LIVING AGE.—The numbers of *The Living Age* for August 23d and 30th contain The Origin of Alphabets, Edinburgh; Western China; its Products and Trade; Quarterly; The Shetland Isles in the Bird-nesting Season; Contemporary: A Voice from a Harem, Nineteenth Century; The Cession of Heligoland, Scotland; Comedy in Fiction, "In Sickness and in Health," The Banquo, Blackwood's; Christmas-tide at Tangle, and Wattson: his Life and Work; Temple Bar; Chapters from some Unwritten Memoirs, Macmillan; Rural Reminiscences, and The Sea and Sandals, Cornhill; A Manual for Interior Sales, and The "Smart" Way of Shaking Hands, Spectator; Tarantulas, Saturday Review; The Oxford Summer Meeting, Speaker; Hyacinth Culture in Holland, Chambers; with instalments of "Mardi" and "An Attractive Young Person," and poetry.

For fifty-two numbers of sixty-four large pages each (or more than 3,300 pages a year) the subscription price (\$8) is low, while for \$10.50 the publishers offer to send any one of the American \$4.00 monthlies or weeklies with the *Living Age* for a year, both postpaid. Littell & Co., Boston, are the publishers.

### Trade Between St. John and Green Island.

There is much less communication with the west coast of Greenland than took place under the Dutch more than two centuries ago. Large fishing fleets of small vessels then regularly visited every cove of Davis Strait. Henceforth a single vessel is said from St. John, N. B., to

Toigtat, Greenland, in quest of a mineral known as cryolite, which is used in the manufacture of paint. The Argenta—such is the name of the vessel—expects to make two trips a year. By this means the world will in some slight measure realize the acquaintance with the west coast of Greenland. The possibilities of trade in that direction are apparently not numerous, but the trips of this vessel may make an opening to what there is. In spite, which is awakened, this Enterprise, which is undertaken by a Philadelphia company, may lead to something, though what it will be it would be idle to conjecture.—[Monetary Times.

### A Pretty Wedding.

The largest gathering that has ever attended a service in St. Mary's Church, Chatham, assembled there on Tuesday evening at seven o'clock to witness the celebration of the marriage of Mr. Frederic E. Neale of Liverpool, England, and Miss Mignowit, third daughter of the late G. A. Blair, Esq., stipendiary Magistrate of Chatham. The church was handsomely decorated with flowers and a magnificent floral bell—the work of Mrs. J. J. Pierce—was suspended from the arch, above the chancel steps. The youthful and handsome bride, who, it is unnecessary to say, never looked better, was attended by Misses Beatrice Seller, Midge Sutherland (of Sydney, C. B.), Bertie Pierce and Helen Blair, while the groomsmen were Mr. Ernest Blair, who was assisted by Master Roy Muirhead. The seats nearest the chancel were occupied by the wedding party, and the officiating of the nuptials, Messrs. C. A. C. Bruce, W. C. Stikeman, Richard Hutchison and Percy Tucker, together with the manifold details of all present contributed to the happy occasion. The ceremony, resulted in the maintenance of the best possible order and decorum, notwithstanding the manifest eagerness of the general congregation to witness the interesting ceremony. Master Freddie Seller, brother of the bride and organist of St. George's, St. John West, presided at the organ and as the bridal party proceeded by Rev. Canon Forsyth and the surpliced choir went up the middle aisle, the wedding hymns, "The Voice that breathed 'er Eden' was sung as was also the Deus Miseratur in its proper place in the service. The bride was given away by her brother, Mr. Gordon Blair, to the bridegroom, Mr. Frederic E. Neale, and the whole ceremony passed off in an entirely satisfactory manner, the calm and self-possessed demeanor of the bride being in excellent keeping with the perfection with which the bridegroom and all the other members of the party acquitted themselves.

It is creditable to the large and mixed congregation present that there was not even a stir on the part of anyone to leave the church at the close of the ceremony, until after the bridal party, clergy, choirists and wedding guests had preceded them, an observance of the proprieties which is more emphasized in a church than the chattering even in pretensions city churches.

The bridal party and wedding guests proceeded to the residence of the bride's mother immediately after the ceremony, where a collation was partaken of and speeches were made to the toast which are usual upon such occasions. Canon Forsyth proposed the health of the bride and groom, referring to the Christian virtues of both, and the whole ceremony passed off in an entirely satisfactory manner, the calm and self-possessed demeanor of the bride being in excellent keeping with the perfection with which the bridegroom and all the other members of the party acquitted themselves.

The bride and groom, Mr. Frederic E. Neale, and the whole ceremony passed off in an entirely satisfactory manner, the calm and self-possessed demeanor of the bride being in excellent keeping with the perfection with which the bridegroom and all the other members of the party acquitted themselves.

The bride and groom, Mr. Frederic E. Neale, and the whole ceremony passed off in an entirely satisfactory manner, the calm and self-possessed demeanor of the bride being in excellent keeping with the perfection with which the bridegroom and all the other members of the party acquitted themselves.

The bride and groom, Mr. Frederic E. Neale, and the whole ceremony passed off in an entirely satisfactory manner, the calm and self-possessed demeanor of the bride being in excellent keeping with the perfection with which the bridegroom and all the other members of the party acquitted themselves.

### A Bean of 1890.

When grandpa went a wooing, He wore a satin vest, A trail of running roses Embroidered on the breast. The pattern of his trousers, His linen, white and fine, Were all the latest fashions In eighteen twenty-nine.

Grandpa was a fine-looking young fellow then, as the old ladies say, and he is a fine-looking old gentleman now. For the past score of years he has been a firm believer in the merits of Dr. Pierce's Golden Medical Discovery. "It renewed my youth," he frequently says. It is the only blood-purifier and liver invigorant guaranteed to benefit or cure, or money promptly refunded. It cures liver disease, dyspepsia, sciatic rheumatism, skin eruptions, and all diseases of the blood. For rheumatism, coughs and consumption (which is lung-scrofula in its early stages) it is an unparalleled remedy.

### What Was Found in No. 1 Apple Barrel.

The Middleton correspondent of the *Bridgetown Monitor* says:—"In conversation with a gentleman who bought largely of Annapolis Valley apples last season, we were told of some curious notions in some of the barrels marked No. 1. Among other things he mentioned a piece of trace, six feet long, one clevis without bolt (he wants bolt put in next time), one piece of old buffalo robe, two sheep skins, one old curly comb, one old horse head, with dried and sundry other articles, too numerous to mention. He has all these hung up on the wall of his warehouse, and talks as proudly of them as an Indian of his scalp. Men who would put such trash in barrels and sell them for apples should be lynched."

### The Good Work Will Go On.

Public sentiment here and throughout the State shows an overwhelming sentiment in favor of the ratification of the new charter of the Louisiana State Lottery Company, which will be submitted to the people of the State at an election in 1892. The present charter does not expire until 1895. However, long before that time the State of Louisiana will have made provisions to extend the charter with the Lottery Company until the year 1919. Of course there is no excitement about this matter, because it is regarded as a forgone conclusion. The Louisiana State Lottery Company has very generally made preparations to increase its contributions to the charities and public works in the State and these will go into full effect in 1895, when the present charter expires to give way to a second charter expiring in the year 1919. —New Orleans (La.) City Item, August 6.

Castoria is recommended by physicians for children's use. It is a purely vegetable preparation, its ingredients are published under each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, cures colic, and drives out wind colic, always febrile, destroys worms, and prevents convulsions, soothes the child and gives it refreshing sleep. Castoria is the children's panacea—the mother's friend, 35 cents, 50 cents.

### MARRIED.

On the 2nd inst., at St. Mary's Chapel, Chatham, the Rev. Canon Forsyth, officiating, Mr. Edward Neale, of Liverpool, England, to Sarah, third daughter of the late George A. Blair.

### DIED.

At Black River, Sept. 2nd, after a short illness, which he bore with patience and resignation, the divine will being done, aged 80 years, Mr. John McLaughlin, of Black River, N. B. He leaves a large family to mourn his loss.

At Napan, August 19th, Elias Male, infant daughter of Richard and Margaret J. Colart, aged 9 months and 11 days.
