Rev. John A. Clarke called attention to the desirability of securing uniformity in the form of deeds of church property. A communication was received from the general committee of the supernumery fund asking that Rev. G. H. Paisley, A. M., be released from circuit work and be employed as conference agent to visit the general conferences in the eastern provinces in the interests of th fund, that by the holding of public meetings and personal application to our wealthie fund might be in a position to meet in

full the claims of those who are on the

The evening session was given up to the further consideration of supernumery matters. Brief but telling speeches were delivered by Revs. Dr. Brecken, John Read, Thomas Marshall ,C. H. Paisley and others, from which it was learned that the capital stock of the fund amounts to about \$77 009; that thirty-six ministers and twenty-six widows of ministers are claimants upon its income, and that only about \$0 per cent. of their claims can be paid for lack of means. Of the amount thus available for use one half is derived from investments, one-quarter from assessments paid by the ministers and the balance by public collections and donations. It was claimed the business was economically managed and the losses comparatively light.

A subscription list was started in the meeting and the sum of \$515 was paid or promised , of which \$50 is to come from Rev. J. C. Berrie, \$50 from Rev. W. E. Johnson, \$50 from Rev. John Read, \$50 from Mr. Beer of Charlottetown. The other names I failed to get. The question of the setting apart of the Rev. Mr. Paisley, as above referred to, had not been reached when At this morning session the matter

of setting apart Mr. Paisley, as above referred to, was taken up, and after a very exhaustive discussion, in which Rev. Messrs. Williams, Wilson, Sprague, Rice, Marshall and J. L. Black and S. R. Sangster participated the motion was adopted by a vote of

The invitation of the Queen Square church to have the conference of 1896 held in that church was accepted with

The sad intelligence has just been received of the death of Rev. L. S. Johnson at Los Angelos, California. Marysville, June 23 .- The ordination service this forenoon was largely attended. Five candidates.

Well Known Roman Catholic Priest of Hamilton-Rev. Father John J. Hinchey, Pastor of St. Joseph's Church, Hamil Bears Testimony to the Undisputed Worth of Dr. Agnew's Catarrhal Powder

In the person of the Rev. John T. Hinchey of St. Joseph's' church (R.C.), Hamilton, is found one who does the highest credit to the self-sacrificing work in which he is engaged. His kindly heart constantly prompts to deeds of love and goodness, and in the city of Hamilton all who know him are ready to bear testimony to his high character and active generosity. A result of neglect, thinking more of others than himself, he has been sufferer from cold in the head and its almost certain associate, catarrh. Re cently he made use of Dr. Agnew's Cattarh Powder, and has found in it so great relief that he deems it a pleasure to tell others of the good it has done him. One short puff of the breath through the blower supplied with each bottle of Dr. Agnew's Cattarh Powder diffuses this powder over the surface of the nasal passages. Painless and delightful to use, it relieves in ten min utes and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsilitis, and Deafness. 60 cents. Sample bottle and blower sent on receipt of two 3-cent stamps. S. G. Ditchon, 44 Church street, Toronto. I Was Cured of Rheumatism in Twenty-Four Hours.

which 10,631,700 were foreign, against 16,933,600 in 1892, of which 7,764,800 were races toda The holding of stocks by foreign. growers for higher prices has caused an advance in the average of one hundred and four qualities of. domestic wool quoted by Coates Brothers from 13.09c. June 1 to 13.27c., but Australian is bought on a large scale at 36c. to 38c. for combining and 34 to 36c. for clothing, both scoured, and want of domestic supplies is evidently causing

heavy purchases of foreign wool in advance of need. Failures for the week have been 238 in the United States, against 214 last year, and 31 in Canada, against 25 last

year. Bradstreets tomorrow will say: In the province of Ontario general trade is quite active ,and prospects are satisfactory. In the province of Quebec business is slightly smaller in volume. The actual improvement is declared to be, thus far, sentimental.

In New Brunswick and Nova Scotia the crop conditions are fair, notwithstanding the dry weather, but in Newfoundland affairs are still unsettled, and the outlook is not very encouraging. The trade report from Quebec city

rather more favorable than that from Montreal. The bank clearings at Winnipeg,

Hamilton, Toronto, Montreal and Halifax amount to \$2,233,200 this week, a falling off of 1.5 per cent. from las week, but an increase of about 3 per cent. over the third week of June, 1894, and about 22 per cent. larger each than in like weks of e1893 and 1892.

There are thirty business failures re ported from Canada this week against twenty-one last week, twenty-four in his heels. It was a terrific race to the week one year ago, twenty two years ago and twenty-six three years

## KING'S COLLEGE.

The St. John Law School Warmly Praised by Several Speakers.

J. King Kelly's Address on Behalf of the Law

## School Graduates.

Windsor, N. S., June 20 .- Convoca tion hall at King's college was crowded this afternoon to witness the one hundred and fifth encoenia of that institution. There were present on the platform, beside the president and faculty of the university, the Bishop of Nova Scotia, Very. Rev. Dean Partridge of Fredericton; Archdeacon Brigstocke, Rev. J. Roy Campbell, Mr. Justice Hanington and Hon. Judge Wilkinson of Chatham; Dr. Alward, Dr. Stockton and Dr. A. O. Earle, dean of the law faculty of King's college. Among the degrees conferred were

those of D. C. L. on Judge Hanington, inventing excuses that the men have."

people and there was good racing. The greatest interest centred in the free-for-all, for a purse of \$250, best three out of five heats. The starters were: Atherton's St. John, br. m. Katrina; Learmont's, Truro, br. g., C. P. R.; McGreney's, Hallifax, ch Stranger; and Fank Hill's, Halifax, b. g., Young Clay. The race was the greatest ever trot-

ted in the provinces. There were reports of the great speed of Clay, with a record of 2.35, and these reports proved true, though Katrina won. had the pole in the first heat, but after five or six scores the starter got tired

waiting for them to get off together, and Katrina had two lengths the bes of it. Shie showed wonderful speed for this time of year, but Clay was doing well and narrowed the Katrina was just in advance of Clay at the flag. As he chased her up the back stretch, slowly gaining and turning into the home stretch the bay looked like a winner, but he broke at the distance and Kttrina won the heat in 2.241-2, the best time ever made on a Halifax thack. Katrina again led the second heat

with Clay close up, but he broke on the stretch and Stranger and C. P. R. made a game fight with the mare, all three finishing together. The excitement rose in the next heat

The race was conceded to Katrina, but she left her feet at the lower turn, going back to last place, while Clay showed a great burst of speed and opened a big gap. The mare gradually reduced the lead, and when they turned into the stretch she was at

the wire, bringing the crowd totheir Clay had the lead in the fifth heat, but the mare got alongside of him and for the second time at the lower turn he broke and the mare went ahead closely followed by Stranger. But the

mare had too much speed and captured the heat and race. The following is a summary of this and the other events: FREE FOR ALL.

ous purposes the sum of \$4,913. What increase has been realized sice 1887 will be seen when the returns for this year have been tabulated.

Marysville, June 19 .- At the conference today several young men were passed for ordination or continued on trial. Mr. Tennant is recommende to be credited with two years' standing. Mr. Ramsay is to be fully accredited. E. Gough is to be dropped for monetary reasons.

Marysville, June 20 .- Your correspondent regrets that the mail arrange ments here are not the best for keep ing our friends abroad posted in the proceedings of the conference. As we meet at 9 a. m. and the mails close at 12 noon there is very little done and very little time to put in shape what has been done. Then we do not receive the St. John mails until well along in the afternoon, and in the confusion it is possible there may be some confusion in the reports of the work of the respective days.

As I anticipated, the requests for a fourth year's appointment have been complied with, but nothing unusual has happened. No signs of the divine disapproval have appeared as might have been looked for from the tenacity with which the three years' term had the station sheet: been adhered to and to the sacredness seemingly atached to it, but there are no disasters likely to occur. It is rather singular that the first appointment under the new rule should be made here, when it is remembered that nineteen years ago a similar request went from the same official board and was only granted after a lengthy and disagreeable contention by a bare ma-

jority in the conference. Business is moving on slowly. Much time was taken up yesterday in determining the standing of several of our young preachers owing to their failure to come up to the required tests. The conference was evidently in a generous mood, and made matters as easy as possible, but superintendents should be careful in giving advice to young men and young men should consult the discipline for themselves. It is clearly a hardship on a young man t be required to labor as a probatione a year or more than the usual period if the failure to meet certain requirements is not fairly chargeable to him

The missionary meeting last night was a decided success. The congregation was large and the interest wa sustained. Your correspondent was un

Marysville, June 22.-Business moves slowly, partly from the excessive heat, which has greatly unfitted men for close application to the work required,

and partly to the inconvenience aris ing from the want of a sufficient number of rooms in which the several committees could meet. Two or three of these committees have about completed

their work and in their case the ground is cleared for action. The most important part of yester

day's proceedings was the service held in memory of Brethren E. W. Dutcher William Maggs and A. E. Dennis, The service is always an impressive one as it brings each man face to face with proceedings which will be repeated some day with only the substitution of his own name for the one now before the conference.

A hymn was sung, prayer was offered and amid a profound hush the ques tion was put from the chair: "What ministers or probationers have died during the year? The districts were called and the minute of the district in each was read, giving a brief resume

I, George English, shipbuilder, have lived in Chatham, N. S., over forty years. Last spring I took severe pains in my knee, which, combined with swelling, laid me up for six weeks,

during which time I endured great suffering. I saw South American Rheumatic Cure advertised in The Chatham World and procured a bot-

tle. Within twenty-four hours I was absolutely free from rheumatism, and have not been troubled with it since.

> For 18 Months Unable to Lie Down in Bed-A Toronto Junction Citizen's Awful Ex-perience With Heart Disease.

L. J. Law. Toronto Junction, Ont .: "I consider it my duty to give to the oublic my experience with Dr.Agnew's Cure for the Heart. I have been sore ly troubled with heart disease and unable to lie down in bed for eighteen months owing to smothering spells and palpitation. Each night I would have to be propped up by pillows in order to keep from smothering. After treating with several medical men withour benefit, I procured a bottle of the Heart Cure. After taking the first dose I retired and slept soundly until morning. I used one bottle and have not taken any of the remedy for seven weeks, but the heart trouble has not eappeared. I consider it the grandest remedy in existence for heart disease.

"I AM A CURED MAN"

Kidney Disease Vanguished by South Amer-ican Kidney Cure-The Remedy Which Relieves in Six Hours.

Adam Soper, Burk's Falls, Ont.: "I suffered much pain for months from kidney and bladder disease. I receiv. ed skilled medical treatment and tried all kinds of medicines to no purpose; in fact, I did not obtain any relief un til South American Kidney Cure was used. It seemed to fit my case exactly, giving me immediate relief. I have now used six bottles and can say positively that I am a cured man. I believe one bottle of the remedy will convince anyone of its great worth.
