CHARLOTTE COUNTY SMOKE IS FILLING THE BAY

No Fires Reported in St. John County but

Smoke is Everywhere—Rain

Is Badly Needed.

The city has been enveloped all day in a cloud of smoke which has apparently drifted up from the forest fires in Charlotte county. Because of this, the fog horn at Partridge Island, was in operation for a considerable portion of the forenoon. Point Lepreau volunteers the opinion that the smoke is very thick there, that the fog signal has to be kept going all the time, and that the condition of the atmosphere is very unpleasant. Musquash, Spruce Lake and other sections in the lower part of the country all complain of the smoke but say there are no fires in sight. Reports from Charlotte county are to the effect that the long looked for rain has not yet materialized, and although the winds have been particularly strong the flames continue to sweep through the woods.

WILLOTT-MAXWELL

A pretty but quiet wedding took place this morning at the home of Hon. Robert Maxwell, M.P., when his second daughter Florence E. C. was united in marriage to Allan Steele Willett of this city. The ceremony was performed by Rev. S. Howard.

The bride, who was unattended, was charmingly gowned in white silk and carried a shower bouquet of cream roses. She was given away by her father. The parlor was prettily decorated for the occasion and the ceremony was performed under a large floral bell. Mr. and Mrs. Willett left on the eleven o'clock express on a trip to Prince Edward Island. The bride's travelling costume was of blue broadcloth trimmed with silk braid with a velvet trimmed hat to match. On their return the young couple will reside at 43 Waterloo street.

They were the recipients of many beautiful gifts among them being a large quantity of silver and cut glass.

THE NEW AMBULANCE

STRICTLY UP TO DATE

The Vehicle Which Arrived Yesterday Looks Well and Appears to be Thoroughly Suitable.

The new ambulance for this city arrived by the Calvia Austin from Boston yesterday morning and was taken to S. T. Golding's livery stable on Prince street. The vehicle, which is a handsome one, was manufactured in New York.

Several city physicians inspected the ambulance yesterday and Doctor Walker stated that it was the best he had seen anywhere. The price was \$750, but the city consider they have made an excellent bargain.

Following is a description of the new ambulance: It has "Warner" patent wheels, rubber tired, fitted with dust proof axles, with the "Collings" patent felt pad and riding device. The body, outside, is richly painted maroon and ebony finish, with word "Ambulance" lettered in gold, on both sides, and over the driver's seat. The body of the ambulance is placed on full turn under gear, which enables the driver to turn within a narrow space, making it very useful for wharves, etc., as it can be brought close to the injury, obviating a long carry. The springs are very resilient, giving fullest possible ease to the injured in transit to the hospital, or the destination. Two handsome brass lamps are fitted on the outside, in addition to the surgeon's lamp on the inside, which through a specially placed glass panel throws light on the patient.

The inside is finished in natural wood, and is fitted with spring rack, sliding bed, self supporting when extended, and flexible stretcher with poles.

The sides and front are padded. The division front is fitted with glass to raise, and the surgeon can talk to the driver through a specially fitted speaking tube. Adjustable plate glass windows, also fitted with curtains, adapt the ambulance to various seasons of the year. The ambulance is leather trimmed on surgeon's and driver's seats and on sides. It is so arranged that all parts can easily receive the necessary sanitary cleaning or disinfecting.

The weight of the ambulance has been kept down to within 1,000 pounds. It has shafts for single horse, and pole in addition for two horses, also brass striking gear easily operated by the driver. The whole ambulance follows the New York hospital style, adapted in weight, etc., to this city's hills. It presents a handsome appearance, and with its rich painting and brass mounting is complimentary to the city's outfit in the fire department.

The ambulance was imported through Estey & Co., selling agents for Studebaker Bros., the makers.

ANTONIO DI MATTEO IS NOW A CANADIAN

Popular Shoe Shiner Shows His Allegiance to Sunny Italy and Becomes a Subject of Britain.

Antonio di Matteo—Canadian. No longer a citizen of sunny Italy, but a naturalized and loyal subject of the British throne. Tony proudly displays the papers which have just been issued to him from the county court. The popular shoe-shiner belligerent now at times in his patriotic feelings for his adopted country, some time ago applied for naturalization. His character was investigated, and beyond that, his clean-cut character and man may be guilty of excusable indiscretion—nothing was found against him. He was reported on as a good man, fit to be received into the Anglo-Saxon brotherhood. In accordance with this finding, an order was made, and Antonio has now been hailed as a dutiful subject of His Majesty King Edward. He will cast his first ballot in October. Although Tony will feel no more the ties which bound him to Italy, he is unable to shake off those natural characteristics always found in people of his race. He loves music, and was among the most intent hearers of the Boston Opera Singers at the performance of 11 Tricrators. That was Italian opera which suited him all to pieces. He will hear Travita, Rigoletto, Lucia, Rusticiana and the rest, for while he sighs no more for the vineyards and garlic of the motherland, his soul still hungers for the songs of his native Italy.
