Will at Once Erect an **Emergency Hospital** 

Seven South Africa Heroes Will Get Their Medals at St. John.

Canadian Order of Foresters -Young Sailor Who Had a Thrilling Experience-Marriages and Deaths.

CHARLOTTETOWN, Oct. 11.-The following well known athletes have been appointed officers of the Aberfootball club: Secretary, J. Darke; managing committee, James MacMillan, D. A. McKinnon, T. Trainor. H. Bethune.

Since the amalgamation of the three light companies here, an almost gen-eral advance has taken place in light. In consequence of this it is probable that a new company will be formed here shortly, whose light will illumine the principal mercantile section of the city. They expect to have the plant in operation next year. About 2.000 lights will be put in.

of the late Judge Kelly, has gone to New York to resume her duties as nurse in a hospital there.

The smallpox outbreak in the other provinces has awakened our citizens to a realization of the fact that should the disease reach our shores there is no isolated hospital for the patients. A meeting of the Board of Health has therefore been held to discuss the matter. A committee was appointed to report upon a suitable site for a permanent hospital and to make arrangements for securing a temporary emergency hospital.

Joseph Smith of Johnson' River had one of her legs broken few days ago by a kick from a horse. Maud Horne, daughter of Coun. Horne, has arrived home on a vacation from the Newport General Hos-

Major Whitehead of Clinton has returned from Sussex, where he was vis iting friends.

Among those who have left here re-cently for other parts are: Nellie Kelly of Cardigan, on return to Boston: Eliza ampbell of Grand Tracadie, on return to Boston; Ella Cuming, daugh-ter of Engineer Cuming, to Taunton Mass.; Ella Pickard, to Boston; Mrs. Lewis Leard of Carleton, to New York; Mrs. (Capt.) W. H. Bernard, to New York, to join her husband and proceed on a voyage south; Miss M. A. Mc Vanish of Harmony, for Westminster B. C., to spend the winter with her sister, Mrs. R. C. McDonald, whose husband was at one time professor in

St. Dunstan's College.

Previous to leaving Montague to reside at Marshfield, Mrs. Spencer, wife of Rev. W. H. Spencer, was presented by the W. F. M. S. with a kindly

At a meeting of the members of the South African contingent a few even-ings ago, seven signified their inten-tion of going to St. John on the occasion of the visit of the Duke and Duchess of York. A committee appointed to secure the signatures of the remainder of the men. The provincial government is granting towards defraying the expenses, and the city council, it is expected, will

vote a like amount. W. E. Sobey of Boston is now visiting his old home at Crapaud. He is a six feet high and weighs 200 lbs. young man of athletic appearance and bears the distinction enjoyed by few ton to Pt. du Chene and from Summerside to Crapaud. He rode on an average 120 miles a day. He used a special wheel for the occasion, weighing only 21 lbs., of peculiar design and of extra sterngth. He reports the roads from St. John to Moncton the

best of the journey. George C. Robertson has tendered his resignation of the Tryon-Hampton Presbyterian church, with a view of returning with his wife and family to Scotland. A delegation from the congregation waited upon the Presbytery yesterday and earnestly reuested him to withdraw his resignation. Mr. Robertson is without doubt one of the most thoughtful preachers

in this province.

Mrs. Joseph Webster of Searletown died at her home on Sunday last. The deceased had been visiting at her par-ents' home in Stratford, Ontario, and just when starting for home was taken so severely ill that, she was scarcely able to finish the journey. Since then she had been a great suf-

ferer. She was 48 years of age. Hayden L. Moore, son of George Moore of Whim Road, arrived home last week on a visit to parents and friends. At the close of the Spani American war in 1899 Mr. Moore w to Porto Rico, where he holds the po-

sition of government stenographer.

Mrs. (Capt.) John Murchison and family, with her mother, Mrs. Eaton. left here this week for Liverpool en route to their home in Buenos Ayres. They were accompanied by Mrs. Catherine McRae, who purposes spending erine McRae, in South America. the winter in South America. Clara Inez McKenzie and Richard W.

PINCHED AND PUNY

South American Nervine is the Antiodote for the ills which are induced by humanity's "mad rush" for an existence. The "eat and run" way of living is accountable for more of the pinched and puny faces than any other cause under the sun.

Dyspepsia, indigestion, constipation, sick-headache are the prime causes for broken-up nerves. Nature foretold the strain that we would be compelled to live under and has revealed to medical science the favorite formula—South American Nervine—and its daily joy is to put back the bloom of perfect health in the faces of millions who do honest toil.

LATE CLARK WALLACE.

TORONTO, Oct. 12.-Two special trains were necessary from the Union station to Woodbridge today for those who wished to pay the last respects to the late N. C. Wallace. There were scores of prominent Orangemen from all parts of the province, and hundreds of Torontonians. The Orange cere mony at Woodbridge was conducted by T. S. Sproule, M. P., grand master, who succeeds the late Mr. Wallace.
The religious services were conducted by Rev. Mr. Swallow, Rev. William lsh, grand chaplain of British America, and Rev. H. C. Dixon, grand chaplain of Ontario. Messrs. R. H Watson, Robert Burns and William White acted as marshals.

In the funeral procession the clergy followed immediately after the hearse On each side of the hearse were ter pall bearers, walking too deep. Then came the chief mourners, following by L. O. L. No. 28, of Woodbridge.

The grand lodge officers and mem-bers of the dominion parliament and provincial legislature were next in line, and after them the county and district lodge officers four deep. These were followed by Orangemen, citizens and others, walking four deep. The attendance was very large.

That a Canadian Yacht Will Challenge for the Cup, so Says James Ross.

HALIFAX, N. S., Oct. 13.-Your correspondent today interviewed James Ross of Montreal, aboard his yacht Gundreda, now lying in Sydney, rebuild a challenger for the America's cup. Mr. Ross said: "Though very much interested in yachting, I have cup. fully compete for the cup. What has been done in this line in previous years did not require the skill workmanship that a competitor of to day would. A boat designed in Canada and built in Great Britain would not be a Canadian boat." Asked as to the possibility of such a scheme being on foot, he said "No, if it were would be made aware of it. Further, I do not think, at all events, that any action could be taken in the matter antil it is known what Lipton intends to do. That itself should set the mat ter at rest at the present time as far as Canada is concerned, at least."

BENTLEY'S is the best Liniment.

SMALLPOX. Genera Vaccination May be Ordered

-Nova Scotia Heard From. OTTAWA, Oct. 9.-The director gen eral of public health thinks it advisable to order a general vaccination hroughout Canada. The present outcreak is traceable to the United States. Dr. Boyce of Toronto states that there were 1.064 cases of smallpox reported n Ontario during the first nine months away with wholly new impressions

of this year. Six were fatal and forty are not yet convalescent. information today through Dr. Montizambert, director general of the public health, that smallpox prevails in the following places in Nova Scotia: Halifax, Lunenburg, Kentville, Black Rock, Yarmouth, Meteghan, New Germany, and at a place between Canning and the Bay of Fundy. The number of known, but this information has been

elegraphed for. THE MANUFACTURE OF GIN.

The process of sin manufacture is simple. A mash is prepared of malted barley and ryemeal, in the proportion of one-third barley and two-thirds meal, with four parts of water at a temperature of 160 degrees. After infusion cold water is added, and when the heat is reduced to 20 degrees, or one half, the whole is run into the permeating vat, to which one-half gallon of yeast is added. Fermentation speedily ensues, and in two days is complete, although nearly one-third of the saccharine matter in the liquor is undecomposed. The succual feature of gin fermentation is the small iro, rution of yeast employed. The mash is distilled and afterward redistilled with the addition of juniper berries and salt; so netimes he is and afterward redistilled with the addition of funiper berries and salt, so netimes keps are added. The final product is ron off into large underground cisterns thred with porcelain tiles, where it can be kept ladeful telly. It is drawn off, as 124 fixed, into cask, which have been previously freated to retain the colories water appearance of sin and its peculiarly smoky flavor. One reason, probably, why gin has not been popular in this country is that the taste for it seems limited to moist, humid, fugzy, healthies, where the atmosphere is sur-harged with water.—Beverages.

BIG BUMBERING CONTRACT. Hugh Brown, George Gordon and Paul Brown have contracted with the Parrishoro-Lumber Co. to cut and manufacture fifty million feet of lumber, on the timber lands lately acquired by the company in Hants County. The contract extends over a period of seven years, and the output for the coming winter is to be about six million feet. 1 dozen Ears Corn-1st, C. Tomp-

**GOVERNMENT PROTEST** 

Against the Governor General on Three Grounds-Trouble and Fun Ahead-

MONTREAL Oct 13 -When the Duke and Duchess of York were in Montreal, and the discussion was keen on the absence of the names of Mayor Prefontaine and Mayor Parent of Quebec from the list of honors. while Mayor Howland of Toronto was included, the statement was made by a close friend of Mayor Prefontaine that he had not been given his due, and that the people would soon have something to talk about in the same connection. Not much importance was attached to the statement. It was well known that the mayor was much disappointed and it was thought he had let this get the better of his discretion. In fact, little importance was attached to the whole matter, as it was considered to the statement was made by the statement of the same John S. Kimball, Nome was again visited by a severe storm, which commenced on the night of Sept. 26 and continued for the days with increasing fury. As a result every lighter that was anchored off Nome is ashore and the government tug Captain was considered to the statement. It was well known that the mayor was much disappointed and it was thought to the whole matter. ed to the whole matter, as it was considered that the distribution of honors probably represented a cabinet quarrel, until La Patrie editorially said that some things remained to be settled which could best be settled af-ter the Duke and Duchess had departed. Since that utterance was made there has been some discussion, and the ministers have been questioned only to deny that they knew what La Patrie was driving at. But now that the London Chronicle has set the ball rolling, tongues have loosened, and while, of course, no authoritative ministerial utterance is possible under the circumstances, yet it is pretty well established that the report is correct, and that the Laurier government has sent a protest against Lord Minto, based on three grounds. The first is that the cabinet's recommendations for honors were mutilated, if not completely ignored, by the governor ger eral. The second charge is that members of the cabinet and their wives have been ignored at certain functions The third and final ground is that Lord Minto imagined he was the whole thing in the reception of the Duke and Duchess, and that as such he has undertaken to spend the people's money as he thought best, without taking into consideration the advice and wishes of those responsible to the peo-ple concerning such expenditure.

La Patrie published the cable item

from London on Saturday without Lord Braquiere is mentioned by the Chronicle as Lord Minto's successor the recipient of a number of handsome here. Twelve years ago he was clerk in the Bank of Montreal here, and married Miss Desberats, daughter of Devon cow, 3 years and up—1st, J. E. Forter.

Devon cow, 3 years and up—1st, J. ation, and I do not think there is anything in the story. We have not in Canada, he continued, the facilities to build a yacht which could success to build a yacht which which was a yacht which was a yacht which which was a yacht of the bank and has since resided in England. SYDNEY, Oct. 13.-Sir Christophe urness, in an interview tonight, when asked for his impressions of the steel works, said: "Saturday I visited the plant of the Dominion Iron and Steel Company, and must say that what I saw there far exceeded my expecta-tions. I know of no better site in England, in fact anywhere, than you have in Sydney for steel works, and the plant is built on such an economic basis that it will ensure the produc tion of steel cheaper than anywhere else." Sir Christopher visited Glace Bay and Louisburg. Of the colleries of the Dominion Coal Company he said that the facilities in use for transportation and shipping of coal exceeded anything they had in England.

"The ideas I held of Cape Breton are entirely swept away, and I shall go The operations of the Steel Company as I said before, exceeded my expec-The department of militia received tations. Where you can produce ceal and manufacture steel as cheaply as you can here, other great enterprises must follow in their wake; they must ome. Of course you can't build great enterprises in a day; it will take

Regarding the fast Atlantic service Sir Christopher said: "You have an excellent harbor here, in fact the best I have ever seen, but there is one drawback to an express service, and that is the Straits, though this draw-back might eventually be successfully

vercome by bridgeing." Sir Christopher was today shown around the harbor on James Ross's yacht Gundreda, and tonight dined at the residence of Mr. Moxham. They leave tomorrow for Halifax. He en ertains hope of a great future for Sydney, and frequently referred to the steel plant here as exceeding his expectations.

Coughs, colds, hourseness, and other three ailments are quickly relieved by Vapo-Creso lene tablets, ten cents per box. All druggists

A CURIOUS FIND. A curious find was made at the jall yesterday by the workmen who are constructing the annex. Tearing out one of the cells in the old building, they found a small bunch of sticks, bound at the end in the shape of a tent, stuffed inside with shavings and small lumps of coel. small lumps of coal. The whole had been soaked with kerosene, and from where it was found it looked as if it. had been placed there by one of the prisoners with the idea of setting fire o the jail. How long it had been there is not known. It was found in a crevice under the floor.

The International Steamship Co. was organized in 1860, the year in which the Prince of Wales visited this province.

REIGN OF TERROR

Prevails at Nome—Hold-ups and Robberies Frequent-Another Severe Storm-

PORT TOWNSEND, Wash., Oct. 13 .- Reorts from Nome brought by the steamer John S. Kimball state that a reign of terror prevails at Nome. Hold-uns and robberies are of nightly occurrence. Men are being sand-bagged and robbed in broad daylight when caught in lonely places. Sluice box robberies are frequent and several mines have been robbed of from \$500 to \$2,000. Business houses have been entered and even women walking in the streets have been made victims. On Sept. 29 two masked men entered the store of Mrs. S. M. Hovey and at the point of a pistol forced her to give up \$500.

The Discovery claim on Anvil Creek has The Discovery claim on Anvil Creek has again oistinguished itself. On Sept. 14, \$1,552 in nuggets was picked up and on the 28th it yielded others weighing \$1,729.

Nome will have winter communication with the outside world by means of a stage line. Norman R. Smith, who is at the head of the stage company, recently arrived at Nome, bringing with him fifty horses and a large number of dogs. He proposes during the winter to run stages from Nome to Illiauma Bay, a distance of 800 miles, carrying passengers, mail and express. Along ing passengers, mail and express. Along the route there will be 35 relay stations. Illiauma Bay can be reached by steamers during the entire winter.

The Kimball brought 350 passengers and

number of steamers due at Nome in time for the vessels to get out before navigation shall close.

The only loss of life as a result of the storm thus far reported occurred while the storm was abating. The schooner Abbie Deering sailed in and Capt. Geo. Stevens, of the schooner Prosper, which was wrecked at Cape Lisbourne on Aug. 26, and a man named Tracy Robertson attempted to go ashore in a small boat. The boat capsized and both men were drowned.

WEDDED IN MONTREAL The marriage took place quietly on Wednesday evening at seven o'clock at the Church of St. John the Evangelist Montreal of Miss Pauline Winslow, youngest daughter of the late John Coffin Winslow of Woodstock, N. B., and niece of C. M. Bostwick: of St. John and T. Byron Winslow of Fredericton, to Percival H. Saunders third son of the late Charles E. Saunderson. The ceremony was performed presence of relatives and intimate friends of the bride and groom. The oride, who wore white silk and chiffon embroidered in silver sequine, tul-le veil caught with orange blossoms, and carried white roses, entered the church with Mr. Doutre, and was given Frances Ings, who was maid of honor, was in white silk and lace, and carried violets. Allan C. Rankin was best man, and the ushers were T. Saunder son and Stanley B. Clift, Mrs. P. Saunderson have left on a trip to Buffalo and Sault Ste. Marie, and on their return will reside at 83 Hutchinson street, Montreal. The bride was

SMALL-POX PATIENT DEAD.

Joseph Barton Died in The Epidemic Hospital Friday Afternoon. At 1.30 o'clock on Friday afternoon Joseph Barton, the small-pox patient at the epidemic hospital, died. He was taken from the schooner Myra

B. on the evening of September 30th to the hospital, where it was discovered that he had small-pox. The schooner, which was lumber laden for Boston, was put in quarantine. Mr. Barton was about thirty years old and was a native of Maitland, N. S. He joined the Myra B. on her last trip from Boston, and is supposed to have contracted the disease there. The board of health will probably look aft-

er his burial. No new cases have developed either on the schooner or in the West End house, and it is expected that the quarentine will be lifted the first of

BAD RAILWAY SMASHUP.

NORTH BAY, Oct. 13.-Four trainnen were killed and one injured in a wreck last night, two miles east of, Mackey's station. An east-bound cattle train and a west-bound freight, both running thirty miles an hour, col-lided. Both engines were demolished and many cars broken up into matchwood, a large number of cattle being killed. The train men who lost their lives were James Q. Phillips and George Thomas, firemen, North Bay; H. Allen, brakeman, North Bay, and H. Allen, brakeman, North Bay, and Louis Morel, brakeman, Mattawa. The bodies of the victims were buried under the debris and were removed with great difficulty. Both engineers, Geo. Elliott and Adolphe Christian, escaped by jumping, Elliott being badly shaken up. Morel was a married man and leaves a family. Allen serve. man and leaves a family. Allen served as a sergeant in the first South African contingent.

Danger Next Door. Perhaps it's diphtheria, or scarlet fever. Keep your own home free from the

Prevent your children from having them. You can do it with our Vapo-Cresolene. Put some Cresolene in our vaporizer, light the lamp beneath, and let the vapor fill the sleeping room. Have the children sleep in the room every night, for it's perfectly safe, yet not a single disease germ can live in this vapor. Ask your doctor about it. Vapo-Cresolene is sold by druggists everywhere. A apo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of cresolene, complete, 31.5°; extra supplies of Cresolene 25 cents and 50 cents illustrated booklet containing physicians' testimonials free unon request. Vapority of the containing the
