SEMI-WEEKLY SUN, ST. JOHN, N. B., OCTOBER 16, 1905.

5

October 17th, 1905.

PREFONTAINE VISITS ST. JOHN Minister of Marine and Fisheries in the City.

Hon. Raymond Prefontaine, minister of marine and fisheries; Deputy Minister Gourdeau, Commander Spain, and a couple of secretaries, arrived in the city on Saturday, in a luxuriously appointed private car, which was attached to the C. P. R. express.

The minister and his party were met here by F. J. Harding, the agent of the department, and in the afternoon a visit was made to Partridge Island, where the new Marconi station was inspected.

To the Sun, Hon. Mr. Prefontaine said this was the last of the twelve stations that the government had contracted with the Marconi company to erect in Canada. He said, however, that it was quite probable that several more would be erected on the Pacific coast in the near future. While at the station at Partridge Island, the minister had a message sent to the Sable Island station, to enquire what the state of the weather was there. The minister was much pleased with the station at Partridge Island, and said that messages were now being sent and received with complete satisfaction. Mr. Prefontaine also said it was the intention of the Transcontinental Railway Commission to have wireless stations erected at intervals of every two or three hundred miles along the survey, in order that the different sections might keep in touch with each other during the work of construction.

Mr. Prefontaine said that his department was badly in need of more wharf accommodation at St. John. They had been using the I. C. R. wharf, but were only there on sufferance, and had been notified that in the future they must seek other quarters. An effort was made by the minister to secure another wharf here, but without success. He was unable to say what further steps would be taken to secure the necessary accommodation.

The minister intends visiting the dog-fish reduction works which were opened at Canso two months ago. He says that this establishment has been a great success. At the present time about eighty tons of fish are ground per day.

A similar plant has been put into operation at Shippegan, Gloucester county, N. B., which is also doing a large business. It has yet to be ascertained whether the oil secured by the reduction process can be made a marketable commodity, but there is thought to be no question as to the success of the marketing the fertilizer prepared from the ground carcasses of the fish.

Another reduction plant will be located at St. Paul's Island, on the western coast of Nova Scotia. The minister said that he expected to meet at Charlottetown Mr. Deguid, who had come out from the old country to give his opinion as to what kind of an ice-breaker would be required to maintain communication between the island and the mainland during the winter.

Hon. Mr. Prefontaine and party left by the I. C. R. on Saturday evening for Halifax. From there they will visit Sable Island, Canso, the Magdalen Islands, and after that Picotou and Charlottetown.

While in St. John the minister and party were entertained at dinner at the Union Club by Mr. Harding. During the day Hon. Mr. Prefontaine was called upon by prominent members of the liberal party.

SIR WM. MULOCK NOW CHIEF JUSTICE.

OTTAWA, Oct. 15.—Sir William Mulock attended his last meeting of the cabinet yesterday, and before the business was concluded, after he left an order-in-council was passed appointing him chief justice of the exchequer division of the high court of Ontario.

Sir William did not take farewell of his colleagues as he will meet all who are in the city at the dinner given him by the prime minister tomorrow evening in the Rideau Club.

A. B. Aylesworth will be sworn in tomorrow afternoon at 2 o'clock. An order-in-council appointing him to the position was also passed.

Another order was passed appointing E. F. Wilson, of Nelson, to be a judge in one of the Kootenay (B. C.) districts.

JUST A TEASPOONFUL of Perry Davis' Painkiller in warm water or milk, taken after exposure to cold or wet, will quicken the circulation and thus prevent a chill. There is but one Painkiller, Perry Davis'.

A HILL TALE.

A Blunt Old Colorado Miner on Postum.

A clergyman may be eloquent, may use the choicest language, dressing his earnest desire to help his fellowman in the most elevated, chaste and beautiful language, and yet not touch the hearts of his hearers. Another man, having little education and no grace of speech whatsoever, may tell his message in the common, everyday vernacular he is used to, and the simple facts that glow within him carries quick conviction with it. Such a man writes from the towering peaks of Colorado, preaching of Postum:

"I had drunk coffee all my life until it about killed me, when I concluded to try Postum, and in a short time I got relief from the terrible misery I suffered from coffee."

"When I drank coffee I bloated up so that I could not breathe at times, my nerves were so shaky that I could not hold myself still."

"But thanks to Postum I am all well now and can say that I hope to remain so."

"I was very much disgusted with it the first time I tried it, but had it made stronger and boiled longer till it tasted as good as coffee."

No amount of rhetorical flims and literary polish could add to the convincing power of the old miner's testimony. Name given by the Postum Co., Battle Creek, Mich.

There's a reason.

FINE VALUES IN BOYS' CLOTHING

One thing is certain—no mother of boys will do herself, her purse and her boys justice when outfitting the youngsters, if she doesn't first see the assortment in Boys' Clothing at Oak Hall.

One finds "pedigree" clothing at Oak Hall. Clothing with that hard-to-define air about it that comes of years of thought and study and skillful application of the knowledge of what to use and what not to use in the styles as they "come out." It's what makes Oak Hall Clothing for Boys different. It's a difference that appeals to discriminating tastes.

Blue Serges, Fancy Chevots, Fancy Worsteds, occasionally Homespun and Unfinished Worsteds—these materials in the new colors, weaves and tone-mingles are what the Boys' Suits are made of.

Boys' Norfolk Suits, - - \$2 25 to \$7.50.
Boys' Sailor Suits, - - .90 to 9.00.
Boys' Vest Suits, - - 3.00 to 9.00.
Boys' Fancy Overcoats, - 4.25 to 7.50.
