CRUSHED BENEATH BATHING RAFT AND POWERLESS TO MOVE

D. Stewart Bell Severely Injured At Duck Cove Yesterday Afternoon—Taken Home In The Ambulance.

While bathing at Duck Cove yesterday afternoon Mr. D. Stewart Bell was crushed, by a heavy raft which was lifted by the heavy seas and fell on him injuring both legs severely above the knee. He was carried up the beach, and received prompt attention from his brother-in-law, Dr. William A. Christie who is summering at The Cove, and was later taken in the ambulance to his home in Coburg street. He will be confined to his bed for some days.

Mr. Bell was one of a picnic party at Dr. Christie's house yesterday afternoon, and went down to the beach for a bath. The raft was lying out of reach of the water, and with some difficulty he pushed it into the surf. The waves were breaking with great violence, and as Mr. Bell was holding on to the edge of the raft an unusually high combor caught it and turned the heavy wooden structure completely over.

It fell on his legs, and rendered him powerless to move. The raft had been thrown some distance towards the shore, and Mr. Bell was in danger of further injury from the succeeding waves where his calls for help brought Mr. Wellington L. Hamm to his assistance.

He was rescued from his perilous position and being unable to stand, with the assistance of Rev. L. A. MacLean, was carried up the steps from the beach. Dr. Christie was called, and a bed was brought down on which Mr. Bell was carried to his house. He was suffering great pain. Both legs were bruised above the knee, and his left limb had been badly scraped by the raft. The ambulance was telephoned for, and on its arrival Mr. Bell was taken to his home.

On inquiry last evening it was learned that he was resting as comfortably as could be expected. Mr. C. W. Bell, his father, speaking to a Standard reporter of the occurrence, said he was at Duck Cove at the time, and warned Mr. Bell of the danger he was running in handling the raft. The waves which caused the accident, he estimated, was ten feet high before it broke.

MCDUGALL'S LINE OF DEFENCE HAS NOT YET BEEN DECIDED

Neil McQuarrie Of Charlotte-town And John C. Power, Of Halifax, Said To Have Been Retained.

The September Circuit Court will open this morning at eleven o'clock. His Honor Mr. Justice White will preside. There will be one criminal case to present to the grand jury, the King vs. C. Bruce McDougall, charged with publishing four defamatory libels in Free Speech. Attorney General Hazen and Mr. J. B. M. Baxter, K. C., will appear for the Crown. Mr. A. J. B. Mellish and Mr. J. C. Sherren, counsel for the defence of McDougall, arrived in the city yesterday and last evening it was also reported that Mr. Neil McQuarrie, of Charlottetown, and Mr. John C. Power, of Halifax, would also assist in the defence.

Mr. Sherrin stated last evening that it was impossible to forecast the line of action his side would take until the grand jury had returned the indictment. If the charge was defamatory libel, the plea of justification could be entered, though he would not say this would be done.

The residents of Drury Cove were not to be outdone by their neighbors at Renforth yesterday and held a series of sports and games which were much enjoyed by a large number of the summer colony and their friends.

In the morning a tennis tournament was held in which the following were the winners: Men's Doubles, Mr. H. Sandall and Mr. W. C. Cross; Junior Singles, Master G. Scott; Mixed doubles, Miss A. Cross and Mr. G. Scott.

In the afternoon aquatic sports were held. The races and the winners were as follows: Single Dinghy, Mr. A. Christie, 1st, Mr. F. Hamm, 2nd; Double Dinghy, Mr. D. Hunt and Mr. A. Tapley, 1st, Mr. H. Christie and Mr. G. Scott, 2nd; Single Canoes, Mr. R. Sandall, 1st, Mr. A. Tapley, 2nd; Double Canoes, Mr. A. Manx and Mr. R. Sandall, 1st, Mr. E. Hunt and Mr. Scott, 2nd; Swimming race, Mr. G. In the evening there was a brilliant display of fireworks and an illuminated parade in which about twenty boats took part. Some of the boats were prettily decorated and bonfires on the shore added to the brilliancy of the scene. Large rafts loaded with brush were set adrift and set fire to, and these together with the rest of the illuminations made the surrounding country as bright as day.

MANY LEAKS FOUND IN MAINS AS RESULT OF SATURDAY'S FIRE

Water Hammer, Says City Engineer—Repairs At Little River Stops Loss Of 1,250,000 Gallons a Day.

A hitherto unexplained loss of 1,250,000 gallons of water a day which has been causing the water department much uneasiness during the past fortnight, has to some extent been accounted for by the break in No. 2 main near Little River reservoir which was reported yesterday. The main is believed to have been breaking for some time, and the sudden restoration of the pressure after the heavy draft to the fire near the coal pockets on Saturday night completed the fracture. It is also said to have done other damage.

Speaking of the loss of water in the city Mr. William Murdoch, city engineer, said last evening that he believed considerable damage to the mains had resulted from Saturday's night's fire. Breaks had since been discovered in Union street near Pitt street, in Brussels street, and in City Road near Brindley street besides in other places and he attributed the cause to water hammer from the too sudden increase in the pressure. The pipes, he said, were old, and were not intended to stand the pressure to which they were subjected.

Men are now on the watch throughout the city looking for breaks, and it is expected that more will be discovered. The break near Little River reservoir in the old 24 inch main was a fracture from end to end of a section of the pipe nine feet in length. Repairs have resulted in the pressure throughout the city being considerably improved, but the other leaks which have been discovered still keep it below the normal.
