This is a very simple design—one of the kind that looks as if it had grown where it is built, and essentially homelike. In some places it will cost less than the estimate if building is cheap, because it is so simply planned.  
 There is a large piazza with heavy columns, and from it we enter a pretty living room lighted by a triple window. There is a fireplace in this room. The dining room has one end all windows and connects directly with the pantry and kitchen. On the second floor are four good bed rooms and a bath, all with fine closets. Foundation of stone, brick or concrete.  
 Following is the itemized cost of construction:  
 Excavation ..... \$100  
 Stonework ..... 175  
 Carpenter work ..... 800  
 Plastering ..... 550  
 Brickwork ..... 325  
 Millwork ..... 900  
 Lumber ..... 950  
 Painting and Glazing ..... 300  
 Plumbing, etc. .... 300  
 Hardware ..... 30  
 Hot air heating ..... 150  
 Range ..... 40  
 Total ..... \$4,480

**GERMANY HAS DESERTED THE CHRISTIAN RELIGION**  
 (Continued from page 5)  
 passions with ourselves" whom God has used as the instruments of His Holy Will.  
 The United States citizens are to-day praying for the outpouring of the spirit of peace, and as of olden time, the answer to these prayers may not come in any miraculous outpouring of the Spirit of God upon the world at large, but rather the outpouring of the Spirit of God upon the praying hosts of the American nation and they themselves, now well informed as to the causes of this war, shall set themselves earnestly to remove these causes. We shall, as the result of this national day of prayer throughout the United States, expect to see within that land a new campaign organized—a campaign which will in no way prejudice that nation's neutrality. I mean a campaign for Germany's enlightenment.  
 By these prayers, God is calling the United States to fulfil her duty as a great prophet nation and to publish to Germany and to the world that there can never be peace so long as there is wrong and unrighteousness. By these prayers God is calling upon the German Americans—upon those splendid people whose abilities and energy have added so vastly to the wealth and influence of the United States—God is calling upon them to publish to their own kith and kin in Germany that they have been badly deceived by their leaders, and that the largest and freest life of a nation is not to be attained by crushing down the weak, but rather by raising up the fallen.  
 By these prayers God is calling upon the American nation, through its churches and universities, to proclaim to the churches and universities of the Fatherland there can be no peace for that people who have cast aside the teaching of the Christ and His Golden Rule, and in its stead have adopted the teaching of Nietzsche and his "rule of the overman."  
 By these prayers God is calling upon the people of the United States to become, like their President, a great world teacher and to teach to Germany as no other nation can hope to become. Like their President, a great world teacher and to teach to Germany, and to persuade her that the wisdom which is from above is first pure, then peaceable, and that always

and everywhere the fruits of righteousness are sown in peace.  
 For this splendid leadership, at the present time, we must look to the United States for obvious reasons, and until the Prussian mind shall have repented and made restitution, this war must go on and England, with the other allied forces, must fight it through, bearing the awful burden of this battle for the world's peace, and until Germany shall have learned to practise Christian morality, so long as she persists in her brutal purpose to beat up the world and grind its peoples beneath her juggernaut of force, there can be no other way open to liberty-loving peoples but to set gun against gun, horse against horse, man against man, and nation against nation.

**BANK OF E**  
**RETURN**  
 Has not been advantage conferred upon of Bank A

New York, Oct. 2.—The proportion of bills does not disagree with the character of the Bank return. With the Oct. disbursements and with the termination of the month on October 4th, the bank was to be a trifling reduction on the bank return is a points to a rapid resumption of normal conditions.  
 Whatever else the \$770,000 in circulation indicates an improvement in the money market. It is worth attention also to the fact of England has, so far, pulled to resort to the Bank Act of 1844. The Treasury have made a decision in public deposits, to be transferred, and to be, to private deposits.  
 The increase in the items of less than \$200,000, more than \$200,000, increase of the two "loans" of \$25,137,000, and "loans" of \$25,137,000.  
 The increase of 2,470,000 is excellent at the quarterly disbursement, a considerable decrease in the increase of \$1,244,000 in that London still controls the gold market, and that no necessity to draw on the further increase in the reserve to liabilities.  
 much to hope that a minimum discount rate present still somewhat "cent" will be seen in the especially in the report of the allied armies is a matter of record it may
