

## BOOTLEGGER DOES SOME SHOOTING

A Toronto Policeman With a Blow to the Jaw and Fire Revolver Shot at Street Sweeper—Has New Scheme

Toronto, March 6.—In the heart of the city here today, at an alleged "bootlegger" from Montreal, one citizen was shot and a constable severely wounded. The man, who is now in St. Michael's Hospital suffering from a wound in the arm, which caused much loss of blood, and Vasil Belonski, a Russian, is under arrest on three charges, a breach of the Ontario Temperance Act, carrying a revolver, and shooting with intent.

Belonski attracted the attention of P. C. Holmes at the Union Station, when he got off the train from the east, and he was escorting the man to the police station, when Belonski, who was carrying a fire revolver, made a break for liberty. The street sweeper tried to stop him with a shovel, and received a shot in the arm from Belonski's revolver.

When searched a specially made apparatus, something similar to a life preserver, was found under Belonski's vest. There were two nickel containers, each of which the police estimate contained a gallon of liquor. It is said these would weigh about 25 pounds. When questioned by the police the prisoner said: "This is my business. Three times from Montreal with booze. This unlucky time for me and lucky for you."

When the revolver was examined at the station it was found to be a .38 calibre, and one of the five cartridges was discharged.

## ILLEGAL STILL AT HALIFAX

Dominion Police Capture the Outfit and Two Men in Charge Who Were Wanted for Desertion.

Halifax, N.S., March 6.—An illicit still, used for manufacturing rum, located in an old lumber camp near New Ross, Lunenburg County, was raided yesterday by three Military Service Act police officers. One hundred gallons of rum were seized by the officers, who also arrested two alleged operators of the still who are held on charges of desertion from the army.

## U. S. PROPAGANDA CAUSED RUSSIA TO QUIT GAME

Assurance of U. S. and British Co-operation Would Have Spurred on Russian Bolshevik Against Germany.

Washington, March 6.—The Russian Bolshevik government agreed, in February, 1918, to denounce the Brest-Litovsk treaty and resume the war against Germany, if Great Britain and the United States would assure co-operation. Raymond Robins, former head of the American Red Cross Mission in Russia, testified today before the Senate committee investigating lawless propaganda.

Mr. Robins said that, despite his efforts and those of R. A. B. Lockhart, British high commissioner, to induce their governments to agree to this proposal, no word was received by March 14, when Lenin said he was convinced no help could be expected, and induced the all-Russian Soviet to ratify the treaty with Germany.

He said, among other things, that before Russia failed as an ally, allied and American propaganda unwittingly contributed largely to the downfall of Russian morale and what followed. "Posters were all over Russia," said Mr. Robins, "telling how great the allies were and how powerful America was. Some of the posters said the United States would have 20,000 airplanes and 4,000,000 men in France. The Russians reading these declarations said to themselves 'well, if all that is true, we will go home for a while.' There is no doubt that this propaganda materially assisted in the disintegration of the Russian people, and that it had exactly the opposite effect from what it was intended to do."

## HINDY WANTS TO HELP

Zurich, Switzerland, March 6.—(Havas)—Field Marshal Von Hindenburg has placed himself at the disposal of the government in any action it may take to prevent a fresh invasion of East Prussia, according to German advices received here.

The Answer.  
An English militant crusader strolled into a barn where a young man was milking a cow. With a snort he asked: "How is it that you are not at the front, young man?" "Because, ma'am," answered the milkmaid, "there ain't no milk at that end."—Atlanta Journal.

## MUCH SICKNESS IN WOODSTOCK

Schools Handicapped by Illness of Teachers—Two Deaths.

Woodstock, March 6.—George Connell, aged 12 years, the only child of Mr. and Mrs. J. Arch Connell, died this afternoon after a fortnight's illness with pneumonia.

There is considerable sickness in town. Three of the school teachers, Misses Plummer, Milmore and Carson are ill, but the schools are supplied with substitutes.

The funeral of Patrick Montague, who died on Sunday, was held this morning at Newburg. The funeral was delayed, waiting for a daughter, Miss Marion, to come from the west, but word was received that she could not reach here until Saturday.

## Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulberry cocoon oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage. You can get mulberry cocoon oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

## LITHUANIANS IN EASTERN RUSSIA WANT PROTECTION

Paris, March 6.—(French Wireless Service)—Lithuanians living in Eastern Prussia, according to reports from Kovno, have asked the assistance of the Lithuanian government in protecting their material interests against the Germans. The Lithuanians, it is added, demand that the part of East Prussia inhabited by them be disjoined from Germany.

## MORE ATTENTION TO COUNTRY'S MINES

Sir John Wilson Declares the Government Should Support Them as Fully as it Does Agriculture.

Montreal, March 6.—Addressing the members of the Canadian Mining Institute here today, Sir John Wilson declared that the mining industry of this country should receive as much attention at the hands of the government as agriculture. He said that if mining and fishing were encouraged as an agriculture, the country would be greatly increased. Fishing returns today rated at from thirty-five to forty millions per year would be increased to one hundred million or seventy-five million at the least.

## The Legislature of New Brunswick in Session

(Continued from page 3)  
gratulations on the very able manner in which he has acquitted himself. I am sure that the people of the province for the honor they have conferred upon me, and the country which I have the honor to represent, but I am only sorry that my inability and inexperience as a parliamentarian render it almost impossible to fulfill this delicate duty in a manner fit for the occasion.

Twelve months since, every one within reach of my voice, every faithful citizen of Canada, ever loyal subject of the Allied powers was receiving with sorrowful anxiety tidings of what seemed to be the success of German arms. But, Sir, at that time of that great crisis, we rightly and justly entertained the best of hopes, we had full faith in the collective and highly patriotic efforts of the Allied forces, we had faith in the patriotic mettle of the French poilu, and the steadfast valor of our Tommies. We had everything to hope from our brave and vigorous ally to the South, and above all we had the fullest confidence in the hero of so many victories, Marshall Poch. Our hopes have been realized, our confidence has been justified and today, Sir, we meet with hearts rejoiced at the thought that the world's greatest conflict has come to an end and that for us the end has been a glorious one.

It is really pathetic to note how our people have borne these afflictions with a steadfast degree of fortitude. The women's franchise bill as proposed by the government, shall, I hope, meet with the approval of the citizens of this province. The part played by women during the war has more than once proven that woman's energy and wisdom. It takes the right light, can be of great help to British institutions. Great care, however, will be exercised in the enactment of a law providing for a radical change in our franchise act, and I have the fullest confidence in the government of this province in this respect.

I was very much pleased, Mr. Speaker, to note that a commission appointed last year to co-operate with the conservation commission of Canada, to investigate the water powers of this province, will report the results of its findings at that legislative session. The value of this important natural resource will be introduced during the present session.

I share the regret expressed in His Honor's speech that owners of the Carquet and Gulf Shore and Kent Northern Railways have failed to come to an agreement with the federal government for the taking over and operating of their lines as part of the Canadian National System.

In the county which I have the honor to represent a branch line has been in operation for over thirty years. The service rendered has attained a point where it has become a peril to the lives of the travelling public, a sorrowful drawback to our commerce and industries and a real provocation to everyone who has at heart the advancement and welfare of his country. When we consider, Sir, the great possibilities of that rich section of the province, it is provoking to note that a betterment of the situation has seemed to be an impossibility.

It is gratifying, Mr. Speaker, to note that the government of this province has already given due consideration to the vast problems from the termination of the war. Patriotism, regulated with the most sound business principles, should be our motto in dealing with these great problems. We are coming out of this great conflict more than proud of the great part Canada has taken at all times during the hours of distress. The valiance of the Canadian soldier has equalled that of the most valiant. Our soldier has won for himself a world wide fame. The French and the English soldiers have learned to love this comrade in arms, whose bravery so often formed a contrast with his own kindness.

This war, Sir, the greatest in the history of all nations, shall show many results on the human race. It shall shatter forever the pride of the individual; it shall teach humanity the great fruits of sacrifice and endurance; it shall remind the greater nations of the fragility of all institutions which are not based upon the principles of justice and the rights of the individual; it shall keep fresh in the memory of those apt to forget the faculty of brutal force versus the principles involved in the inalienable rights of people. This war, Sir, shall bring nearer to the greater nations the cross in reply to the speech from the throne. He then moved, seconded by Mr. Smith, (Carleton), that the debate be adjourned until Monday evening, which motion was adopted.

Hon. Mr. Foster moved, seconded by Hon. Mr. Byrne, that further consideration of the proposed address be

made the order of the day for Monday at 2:30 p. m.

Hon. Mr. Foster moved that the following committee be appointed to nominate all standing committees: Hon. Mr. Foster, Hon. Mr. Veniot, Hon. Mr. Robinson, Mr. Campbell, Mr. Smith (Carleton).

Hon. Mr. Foster submitted a memorandum of agreement with R. P. Allen for reporting the debates of the session, which was concurred in and the official reporter was assigned a seat on the floor of the house.

Hon. Mr. Murray presented the report of the commissions appointed to hold an inquiry into matters relating to the New Brunswick Power Co. He announced that copies of the report would be furnished to honorable members of the house.

Hon. Mr. Murray submitted the annual report on the schools of New Brunswick. Adjourned at 4:45 p. m.
