Shanghai, April 3—To analyze conditions in China, at this time is difficult even for the most actue student of politics. For everything is confused and not even the Chinace know what is in the immediate future. Thus Chilayas, or Tummin, has fost his Tuchmate. A month ago Tang Chin yao was the most powerful man in his part of the country. To many ac was invincible. For time years in held every in the country. To many ac was invincible. For time years in held every in the country. To many ac was invincible. For time years in held every in the country. To many ac was invincible. For time years in held every in the country and he let General Ku. Ping-chun take over as soon as he assured, Tang that the minor officials would be permitted to continue in office. Who is Ku. Pingchun? Last year he was sent to Szechuan as commander of Tang Chillyse's army of occupation. He knows little about administration and will probably not be able to continue in office for any benied because all of the other generals who had served under Tang Chilayac will wan to know why he should be pre-eminent. Why should they not all be Tuchuns? And Yunnan is a poor province, it cost about \$9,000,000 to run the province, which had a revenue of only \$5,000,000. The deficit was made up by wars in Szchuan and other provinces. When an army is victorious in a neighboring province it helps itself to the revenue.

Fighting Renewed in Szechuan.

In Szechuan fighting has broken forth again, History Ke-wu and La Tsunghov had been Tuchuna and they fought such other for years. This winter, under this spell of cash from Pekin, they Joined forces because it was easier to get money that way from Pekin and also because they faced a common enemy, Tang Onity faced in your faced a common enemy, Tang Onity faced in your faced a common enemy, Tang Onity faced in your faced and in the largest facting beniefee? So the goatskin merchants in Shanghal received word from their principals that no goatskins a onld be shipped until Hesing and Landon over making war.

Meanwhile, the great man, San Yatten, is stuting down in Canton plan and summer. Fortunately, for China and summer. Fortunately, for China and the feels that there is an ough constructive work to be done in Canton without geing outside of the province on the holy wars for a constitution which means nothing to the masses of the Chinese people and is only important to new secretaries in legations. Chen Chung-ming may decide to drive sun Yat-sen out of Canton before long. Or if he fears that also province may be attacked by Kwangsi, under the instigation of the president, he wang last Kwangsi, but, presidential intripue may force him to it, in which case the entire appreciation of the president, he wang fast Kwangsi, but, presidential intripue may force him to it, in which case the entire appreciation of the presidential intripue may force him to it, in which case the entire appears and in the lating several disadrance recalled that toleman and the feels that here is an outper the province and t
