The World's Most Powerful Low Priced Car 31 1/2 H.P.

ANNOUNCING THE NEW SERIES
\$890 75 B Overland \$890
J.O.B. Toronto J.O.B. Toronto

This new Overland is the world's most powerful low-priced car.
It has a 31 1/2 horsepower motor that is a perfect marvel for speed, power and endurance.
By increasing the bore of the motor from 3 1/2 to 3 3/4, we are able to offer a power plant which at 1500 R.P.M. develops full 31 1/2 horsepower.
Tests under every condition in all parts of the Dominion demonstrate that it easily develops better than fifty miles per hour on the road.
Speed of course varies under different conditions, but is practically every instance it has been getting fifty miles an hour and with ease.

We have scores of telegrams showing that twenty to twenty-five miles per gallon of gasoline is not unusual.
The performance of this car is almost beyond belief.
Take any other low-priced car on the market. Try it against this new Overland. Compare them for speed, power, for abundance of power, for riding comfort and for this size.

and economy, and you'll find this car will back anything else class off the roads.
There's a strong statement, but a fact nevertheless.
Try it yourself and see.
Here are more important facts.
It has four-lash tires which are more than generous for a car of this size.

Not only has it a large and roomy body, but it has an attractive, up-to-date streamline body.
It has the latest and most improved system of ignition.
It has the sensitive springs—the easiest riding springs in the world.
What's more, it's complete. Not a thing to buy. You get the finest Auto-Lite.

electric starting and lighting system, magnetic speedometer, one-man top, demountable rims and practically every accessory found on the highest priced cars.
From a driving standpoint, the new car is ideal. It's light, easy to handle and anyone can drive it.
Take one look and be convinced.
And mark these words—the car is designed to be regarded and referred to as one of the really great achievements of the great automobile industry.
Yet it only goes to prove how big production can cut cost and save you money.
Five years service. Five year price cut.

1917 Models have arrived. See them.

REPLY TO RED CROSS PLEA.
No Reprisals if Foe Will Become Civilized.

TORONTO, Sept. 5.—In answer to a communication from the International Red Cross, the text of which is made public simultaneously with the British answer, the Foreign Office Friday stated its position on the question of reprisals.

The Red Cross had urged against the adoption of reprisals on prisoners of war.

The British Government answers by referring to "outrages which have put such a strain on the patient British people as to raise the question of reprisals."

The reply concludes: "His Majesty's Government will readily respond to the appeal, being confident that the neutral powers and the International Committee will recognize that the demands for reprisals grows in volume and urgency with the recurrence of abuses, and that the surest means of avoiding reprisals is the abandonment of the policy inspiring them."

Vatican Considers Action.
PARIS, Sept. 5.—The Vatican is considering the action of Germany in compelling the inhabitants of the north of France to work in the fields, according to a statement by Cardinal Gasparri, the Papal Secretary of State, says the Rome correspondent of The Journal.

The Cardinal declined, however, to discuss the status of this subject. Questioned as to the possibility of the resumption of diplomatic relations between France and the Holy See, the Cardinal said the Vatican would be delighted by such an event, but that all would depend upon the French Government, and whether that Government desired it.
