PUBLIC ILLUMINATION.—On Friday evening the city presented the most attractive appearance we ever witnessed. Public buildings, Mercantile establishments, dry good and other stores, and private residences from Pleasant Street to North street, were illuminated—

and some of them in the most tasteful and elegant manner. Flags waved from almost every roof, commemorative of the victory of our brave allies before the army of the Czar.
"HONOR to this heroic army, which, after having fraterized in the fatigues and danger, now does so in triumph and glory. HONOR to those illustrious generals, to those valiant officers, and those brave soldiers who, in the midst of the perils and fatigues of a long siege, have so nobly done their duty! HONOR to the allied flags, which proudly on the soil of the Crimea, not only the bravery and patriotism, but also the independence of Europe and the civilization of the whole world!" HONOR to the governments who have known the value of such an army at the service of such a cause!"

A triumphal arch extending from Court House to Market House, produced a fine effect. Transparencies graced the fronts of Court House and New Market, such as the flag of England, Turkey, and France crossed, and above them the words "VICTORY," and "GLORY TO THE ALLIES," "SEBASTOPOL HAS FALLEN!" H. M. Ship *Boscawen* was beautifully illuminated and decorated. Dartmouth looked well from this side. The streets were thronged with men, women, and children, bent on their way to witness the different objects of attraction. The crackers set off by the boys were a great annoyance, and slightly injured one or two females. The boys should be more careful and not throw them in the midst of a group of young ladies. However, the whole demonstration was conducted on a grand scale, and did credit to every body engaged in it.—*Morn. Jour.*

The joyful news of a great victory, while it gives universal satisfaction to the nation whose arms are thus blessed by the God of Salvation, is nevertheless not without its alloy in the deep sorrow of relatives and friends of those who have died or been wounded in the conflict, and in regret of all departed worth and promising youth. Our countrymen, now exulting in the conquest achieved, is not exempted in this respect. Among the slain in the last successful assault on the south side of Sebastopol we regret to find the name of Major Welford, 97th Regt., a Nova Scotia man who had given promise of a brilliant career, and whose talents, which were united with a religious disposition and enthusiastic bravery. Our readers will recollect that we published the extract of a letter received by his friend the Rev. R. E. D. of Pictou, a short time since, dated from the trenches before Sebastopol, giving some facts connected with the siege, and his christian spirit, and inspiring confidence as to his ultimate success, which however Divine Providence has not thought fit to be should live to witness. There are other names among the slain and wounded, which we believe Nova Scotia may claim with a just pride, as well as of her sons who have shed their blood for their country, among the rest Capt. Parker of 77th, killed, and Lieut. Parker of the 17th, wounded.—*Church Times.*

The *McClellan*, which arrived on Friday from Greenock has two locomotives on board for the Railway commissioners. In a few days more we may expect to hear the sound of the Rail, while on the track and ready to be put in motion. We have great pleasure in being enabled to state, that Mr. Howe has succeeded in getting permission from the Imperial Authorities to carry the Railway through the Naval Yard. The right of way secured, measures we presume, will be at once adopted to bring the Railway down into the heart of the city.—*Id.*

The Eastern *Chronicle* announces that J. W. Dawson, Esq., of Pictou, has accepted the situation of Principal of McGill College, Montreal.

New Brunswick.
The election on Saturday for the City and County resulted in the return of Messrs. Goddard and Armstrong, the Conservative and anti-Government candidates, the votes polled being, for J. E. Goddard, 858; R. S. Armstrong, 710; J. W. Cudlip, 627; A. M. LeRan, 543; and for W. Sculliar, 80. The number of votes polled is said to be over 200 less than were recorded at the last election. This is owing to the majority of the Roman Catholics refraining to vote in consequence of their assertion, of their claims being overlooked by the Government. They, therefore, take the credit of defeating the unsuccessful candidates, and at the same time threaten a change with their continued displeasure, unless a change takes place; in other words, unless their imperious demands are acceded to. We shall carefully note the progress of events.

J. W. Cudlip has demanded a scrutiny of the votes polled for Mr. Armstrong, and he in his turn, has also demanded a scrutiny of the votes polled for Messrs. Cudlip and McLean.
Thomas C. Sharpe, Esquire has been appointed Registrar of Deeds for the County of Kings, in the room of Col. McLeod, deceased.—*Church Times.*

MELANCHOLY OCCURRENCE.—We have received a telegraphic dispatch from Miramichi to the following effect:—On Monday last, a man named Craik, caused the death of his wife, by inflicting a violent blow on her forehead, in an angry resulting from the continued use of ardent spirits, to which it appears both parties had been some time addicted. The children are left in a state of comparative destitution, victims of the abominable and disgusting practices of their unhappy parents.—*Western Times.*

The Supreme Court opened on Tuesday last, when Judge Wilmut, who presides, delivered a most admirable address to the Grand Jury. In alluding to the latter, his Honor said—he was not aware of the nature of the case, but he was sorry to find that two of many of these cases were brought into the Supreme Court. The Magistrates have ample power, and should dispose of them in a summary manner, and not occupy the time of the court and the country, with such trivial matters. The civil suits are somewhat numerous, but we learn it was expected a good many of them would be arranged out of court.—*Mir. Gleaner, 16th.*

DESTRUCTIVE FIRE.—The fire hotel belonging to Joseph Wetmore, and known as the Brunswick House, was completely destroyed by fire on Sunday evening, 16th inst. The loss will be felt by the travelling public, as it was a good hotel, and conducted upon a very superior scale, and it will not be easily supplied.

We understand the proprietor is fully insured and the tenant has his furniture partially covered.—*Id.*

Canada.
ROYAL BRITISH NORTH AMERICAN REGIMENT.—We lately published an article from the *London Morning Post*, in which it was announced that it is intended to raise a Foreign Legion in Canada, which will bear the name of "The Royal British North American Regiment," and consist of two thousand eight hundred men. We are now enabled to state, on good authority, that this intelligence is substantially correct, and is very rapid and often fatal.

General Intelligence.

A common spectacle in the streets is a cart laden with coffins, which are deposited at some convenient street corner, and removed thence by the undertakers as occasion demands. The bodies of the dead are conveyed away by carts, which traverse the streets at stated intervals. The houses of the citizens who have died, are, it is believed, pretty generally respected. A considerable amount of valuable property is frequently left in the hands of the physicians. This is always confided to the care of the Sanitary Committee.

THE HALIFAX CATHOLIC—On the Fall of Sebastopol.—The southern side of Sebastopol and the celebrated Malakoff Fort are in the hands of the Allies. The Russians fought bravely to the last, and it is evident from the construction of a bridge within the last few weeks that they were preparing for a retreat.—The Russians destroyed everything before leaving, and for several hours the Allies were still in taking possession of the points from which the enemy retired—drawing that the place was mined. The glory of the victory belongs to the French. The English failed to take the Ickian Tower, which they assailed in vain. The loss of the English has been fearful considering the numbers engaged. General Bosquet and McLean commanded the French—the latter is of Irish descent. In France the rejoicings were universal. In England the failure to take the Ickian has diminished the extent of the public rejoicings. General Simpson has had to publish a General Order, condemning in the officers under his command, the system of plundering from the deceased Russian soldiers—conduct very humiliating for soldiers, much less for the officers of Protestant England. We see no prospects of peace. Everything looks very gloomy, and we deem it very likely that all the continental powers will be drawn into this fearful war.

England provoked at the neutrality of Austria is fanning the embers of civil war in every part of Italy. Naples must be bullied because she is weak. Recruiting was stopped in the United States, for fear of a collision with that country. How different the conduct of England is with both countries. We are evidently on the eve of great events. Catholics cannot fail to observe that this war has hitherto most disastrous to the enemies of the church, England and Russia.

MISSIONARY MEETING.—The Board of Foreign Missions of the Presbyterian Church of Nova Scotia having accepted the services of the Rev. G. N. Gordon as a Missionary of that Church to the New Hebrides, and Mr. Gordon intending to leave for England, en route for the place of his destination by next mail steamer—all Christians of every denomination who desire the prosperity of Missions are respectfully invited to a Valdeictory Meeting, to be held in Temperance Hall, on Tuesday evening, 9th inst. The meeting will be addressed by the Rev. G. N. Gordon. Rev. Dr. Ritchie, Rev. George Patterson, of Green Hill, Pictou, Rev. George Spragg, and Rev. Freeman. The Chair will be taken by the Hon. Samuel Creelman at half past seven precisely. A collection will be taken on behalf of the Mission.

THE Superiority of American inventive genius, not only over that of our English progenitors, but indeed of all other nations has become too palpable to be disputed. It was not until the World's Fair in London that the Americans first outstripped all others in the useful inventions which they supplied. We hear the English in vessels, railways, telegraphs and manufactures by power. We are beating them in the scientific arts of Chemistry and Medicine, as we have long beat the rest of mankind. A new and practical process of the assaying is shown in the fact that the physical remedies of the allied armies are furnished from the laboratory of our own countryman. Dr. J. C. Ayer of Lowell is filling orders for immense quantities of his Cherry Pectoral and Cathartic Pills, for both the land and sea forces. His key, His medicines have been tried and approved by those in power, who have found them the most reliable which they could procure for the expensives in which they are to be employed.—*N.Y.
