

UNIVERSITY OF BISHOP'S COLLEGE. MONTREAL.

FACULTY OF MEDICINE.

SESSION OF 1882-83.

THE TWELFTH WINTER SESSION

Of this Faculty will open on the 3rd of October next. A pre-session course of Lectures on special subjects will commence on September 1st in the Lecture Room of the Montreal General Hospital, and will continue till the opening of the winter session. This course is FREE to all students of the College.

The Faculty of Medicine of Bishop's College bases its claim for public support upon the thoroughly practical character of its instruction, and the fact that the means at its disposal for this purpose are not excelled by any medical school in Canada. It was the first to establish a Chair of Practical Physiology, and its Physiological Laboratory, is the most complete and extensive in the Dominion.

Its Diploma is recognized by the Royal College of Physicians, Edinburgh; the Royal College of Surgeons, England; and the Royal College of Physicians, London.

Students have the option of attending the practice of either the Montreal General Hospital (200 beds) or of the Hotel Dieu Hospital (200 beds), both of which Institutions have a staff who regularly and systematically visit them. At the Montreal General Hospital excellent facilities are afforded for the study of Practical Pathology, under the direction of the Pathologist of the Hospital. The practice afforded to learn Dispensing—is open to the Students of

of the Montreal Dispensary—where splendid opportunity is afforded to learn Dispensing—is open to the Students of Bishop's College.

The Women's Hospital, under the Supervision of this Faculty, is divided into two Departments—Obstetrical and Gynecological. The Obstetrical Department is under the control of the Professor of Midwifery, and affords to students a field unequalled in the Dominion—in fact this Department has made Bishop's College the Midwifery School of Canada. The Gynecological Department is attended by the Professors of Bishop's College, and is the only Hospital of its kind in the Dominion. Opportunity is here afforded to see most of the operations in this important Department of Surgery.

Two Gold Medals ("The Wood," and the "Robert Nelson" Gold Medals) and the "Dr. David" Scholarship, are competed for annually.

Fees, about the same as at the other Medical Schools in Canada, but a Student who pays the cost of the entire course, on the commencement of his studies, is able to effect a considerable reduction.
