

as actual movement is concerned. A firmer market for quinine, opium, morphia, and vanilla beans is reported; while on the other hand cream tartar and tartaric acid have weakening tendencies.

DRY GOODS.—Orders for spring goods are none too plentiful, and those which are received are to a large extent for a limited amount of goods. The wholesale houses are, however, receiving goods and continue to push trade as best they can. The cautious course that the retail merchants are adopting should give offence to no one.

FLOUR AND MEAL.—No new features have been developed in the flour market this week; prices have held steady and unchanged, but the general movement continues slow. For oatmeal there is good demand; prices are firmer with the recent advances in oats, and quotations now stand at \$4 for car lots, and \$4.20 for broken lots. The demand for mill feed continues active.

GRAIN.—The wheat market continues dull, with movement confined almost entirely to

local millers. Barley is steady and unchanged. Some sales for shipments to the United States have been made, but the principal movement is confined to Canadian maltsters. We are told that local maltsters are loading up in anticipation of tariff changes which will permit the sale of their product in American markets. A good demand for oats exists, while offerings are liberal. Peas are firm, and export shipments going forward. Rye continues firm at

Have

YOU A STEAM BOILER?

If so, do you think of preserving it at a small annual cost? An outlay of about \$20 per annum on the reliable English boiler compound called "Vegetable Liquid Anti-Scale," will effectually remove and prevent incrustation in a 40 h. p. boiler, and bring you good results in saving of fuel, preservation of plates, &c. It is the best boiler compound known and no steam users can afford to be without it. Send for circulars and testimonials.
