

165386

Hon. Neville Chamberlain is a great friend of my sister's, he having married a Miss Cole whom he met at my sister's house in Berkshire. You will see a double connection with the present Chamberlain family with whom my sister is closely allied.

My niece married a Mr. Schenovigal, who is Chairman of the London Emigration Society.

My sister is anxious to do something for me as I was quite young when my parents died and therefore had not all the family advantages.

Mr. Bennett is a personal friend of mine and my family in both England and Canada. I know him very well personally from Calgary.

Hon. Vincent Massey has a beautiful home in Port Hope, where I met him, lunched with him, and was honored to a degree by his friendship. I have other friends in London as well.

I regret to bore you with the above which is of so intimate a nature, but trust you will use it as a memo until I can discuss my proposal with you in detail; this is that you give me a chance in your London Office for a period of six months or a year as a try-out. I may say that I have always gotten on well with English people out here.

I definitely feel that I could produce quite substantial results for you. Even in Alberta you may remember I placed some \$1,750,000.00 of your Investment Trust Stock and as before stated this Mining Trust appeals to me most strongly.

My confidence in your set-up is as strong as ever and I like the idea of bringing out English money for development of our most important industry.

Looking forward to seeing you shortly and apologizing for the necessary length of this letter.

Respectfully yours,

S. P. Williams
