SECOND CHARACTER WITNESS FOR THE ACCUSED

N/Capt. G.R. COOK - "A" Wing, 4 Cdn Repat Depot, sworn, states:-

I just have a brief statement to make to this court.

I came into contact with the accused in the course of my duty and in addition he has come to see me on a few occasions. I believe that perhaps his case does merit special consideration as the defending officer will eventually show he has a long record in the army to his credit. He joined the MPAM at the age of 18 and on the 8 Sep 39 he transferred to the Canadian Army Active. The father of the accused is a veteran of the last war and is now living on a pension having been both wounded and gassed, his mother is over 60 and another compassionate feature in the case is that his sister died early in this year. I would like to emphasize the rather disappointing circumstances arising in connection with his relationship with a young lady. To begin with he was acquainted with this young lady before going into Italy and very wisely deferred being married before going into a theatre of action. Upon his return he decided to get married and make an application at 1 Repat. He informs me that he was refused and put on repat for Canada. That was his first spot of going A.M.L., now while A.M.L. he discovered that this young lady was not the lady he thought she was, in fact to use the word he gave me he discovered that she was a prostitute and it is only natural after a period of writing and the faith he put in her that he felt somewhat distracted. He has no desire to plead Not Guilty whatever he knows he is guilty but he does ask for some consideration on the above
