

Not Just Good—The Best Roof

The tendency to-day is to use the best roofing material as a covering for all roof surfaces. This is not due to people having more money to spend, but to the realization that the first cost of a good roof is practically its only cost.

NEPONSET PAROID

provides a roof that is serviceable and long-lived. Lay a Paroid Roof to-day and forget it for the next twenty years or more. Before the roof needs repairs you will have spent far more than its original cost in repairs to other parts of the building. Hundreds of buildings throughout the Dominion of Canada conclusively bear out this statement.

The base of Neponset Paroid is a high-grade rag felt thoroughly impregnated

with asphalt, making it positively water-proof, and fire-resisting.

It is further reinforced with a talc surface, grey in color; or with a permanent slate surface, red or green in color.

Roofed with Neponset Paroid you may rest assured that your buildings are perfectly weather-proof and sound.

Easy to lay—With every roll of Neponset Paroid is supplied sufficient nails and cement with full directions.

There is a Neponset dealer in your district. Write us for his name and a copy of our illustrated booklet "Roofing Canada."

"Sharp Point" Steel Posts

Don't break your back digging post holes. Don't waste your time replacing rotted posts every few years.

NO HOLES TO DIG

You don't need to dig a post hole, because the ground end of a SHARP POINT POST drives easily. It bites its way down through the hardest soil in less than three minutes. It won't loosen or wobble under the weight of the fence, because the hole is exactly the same size as the post. No loose filled-in dirt around it to settle and let the post get shaky. In the time you are digging and setting a single wooden post you could put in ten SHARP POINT POSTS. On over two-thirds their length holes are punched in the post itself, close enough to take care of any spacing up to 50 ins. high.

Sharp Point Posts Save Money, Time and Work

the time. They cut out the toughest work on the farm, digging post holes. SHARP POINT POSTS give you an All-Steel fence—stronger, better and cheaper than any combination of wood and steel.

SHARP POINT Steel Posts are made in two sizes, and costs as follows:

Standard— $1\frac{1}{2} \times 1\frac{1}{2} \times 7$ ft. 4 ins. long, each.....59c.

Heavy— $1\frac{1}{2} \times 1\frac{1}{2} \times 3-16 \times 7$ ft. 4 ins. long, each.....69c.

Freight paid on orders of 50 posts or more. Get my prices on Farm and Lawn Fences. Mail your order with Cash, Money or Express Order or Bank Draft to
