

FOR THE LAND'S SAKE

AS WELL AS YOUR OWN YOU SHOULD USE A

Massey-Harris Manure Spreader

With it you can spread manure much more quickly and more evenly than by hand or with any other machine.

It cannot clog—spreads evenly from start to finish—thus each plant gets its share of nourishment.

You can regulate the amount spread, stop, start or reverse without stopping the team.

It saves labor and increases crops.
Apron runs on rollers—works easily.

The Apron has positive automatic return.

It is the only "tight box" spreader—handy for drawing in roots, etc.

It has wide-tire wheels—won't sink down in soft ground.

It has low front wheels—can be turned in close quarters.

The front axle is short—tongue does not whip on rough ground.

Frame is strongly trussed.

THE MASSEY-HARRIS AGENT WILL TELL YOU ALL ABOUT IT.

MASSEY-HARRIS CO., LTD.

Gray & Hamilton

REAL ESTATE

Regina, - Saskatchewan.

Box 317.

We make it a point to handle only the Best Land in the Best Wheat Country.

Improved farms at reasonable rates. Wild lands in the Saskatchewan Valley.

Building? Yes.

Then it's a question of material.

Wood shingles you have found to be short-lived and disappointing. Prices have gone up, and you do not like to pay a big price unless you are sure of what you are getting.

We know what you want, and we have it.

This is an age of steel, and metal-covered buildings will be the buildings of the future. By their superior merits they have overcome prejudice, until to-day they are springing up all over the country, to the admiration and satisfaction of all.

Lightning proof, fire proof, weather proof, beautiful and durable. "A thing of beauty and a joy forever," or at least for twice as long as wood-covered buildings, and at much less cost.

Read What Others Say:

If I had another barn to roof, and could get wood shingles for nothing, would prefer to use your Corrugated Sheets. Signed, **FRANK NAGLE**, Delaware, Ont.

I am very much pleased with the Metal Ceiling. It looks fine, and I thank you for the kind way you tried to please me. Signed, **ROBERT WOOD**, Onondaga, Ont.

I am much pleased with the Safe-Lock Shingles on my house. I consider that I have an "A-1" job, and have not the least hesitation in advising anyone wanting roofing to go to Preston, as you gave me a first-class article and used us well. Signed, **THOM HAGGARD**, Scotch Block, Ont.

Quality holds our trade, and our prices are as low as they will go. Write us for our catalogue, and let us quote you prices. What years have taught us is at your service.

The Metal Shingle & Siding Co., Ltd.,

Preston, Ont.

L. C. SMITH

Patented June 16, 1909. Can be adapted to any barn or farm building.

Write us for particulars. **LYMAN C. SMITH**, Chatham, Ont.

Young Men Wanted

to learn telegraphy and qualify for positions on Canadian railways. Forty to sixty dollars per month. Positions secured.

Dominion School of Telegraphy and Railroading, TORONTO.

IT'S ALL IN THE LOCK

ALL NO 9 WIRE

THE PEERLESS LOCK

Wear and long life are two things you should consider well and wisely in buying wire fence. They are the chief reasons why so many miles of Peerless Fence have been bought. We want to tell you why it lasts so long and wears so well. It's the way it is made and the material it is made from. Big, heavy Galvanized Hard Steel Wire that wind, wear and weather cannot phase, so perfectly uniform in size and quality that it will stand double the strain ever required, is used throughout. Then the construction of the

PEERLESS Woven Wire FENCE

is based on lasting principles. Look at the Lock on the left. Note how the upright and lateral wires are securely locked—they can't be rooted up from below; shoved down from above nor spread sidewise. It's the vital part of any wire fence and the Peerless Lock makes the Peerless Fence firm and rigid. Stock can't injure it, weather can't harm it—that's why it lasts. It's the fence that ends all fence troubles. Our free fence book tells you why the Peerless is the fence to buy.
