

Let me show you why you, personally, can make money with a PEERLESS Incubator

I Take Most of the Risk

There is money in raising poultry, big money. Why can't you get some of it?

You can; and I know you can, if you make the right start. I am so sure you can that I will outfit you to start without your paying me a cent beforehand.

No philanthropy about it—just plain business with me. I mean exactly what I say when I propose to do just this:

I will furnish what you need to start with, and you needn't pay for it until it has paid for itself twice over, at least. This is the idea:

Tell me who you are, to begin with. Then I will show you where the profit in poultry really is, and that you can get as big a share of it as you deserve.

When I have satisfied you on that, just tell me you are ready to start after that profit, and—

I will ship you a Peerless Incubator, and a Peerless Brooder,—or just the incubator alone.

I will pay the freight charges.

I will tell you how to run the incubator and run it right.

I will stand right back of you all the time, tell you anything you want to know about poultry-raising, find a good market for any poultry you want to sell, act as your expert advisor, and leave the profit for you.

All I ask you to do is to promise to pay me for what I ship you, after it has had time to earn twice its cost and more.

I know it sounds almost too alluring,—but it's true, and it's honest. Write to me and I will prove that to you.

I want to get you into the poultry business for my own sake, you see. I know that if you succeed at it you will be a customer of mine as long as you live, and you will send me other customers.

That's one reason why I am willing to send you my incubator on your say-so.

I KNOW you can't help succeeding with poultry, if you start in earnest and start right.

Tell me your name and address, and hear what I have to say. You aren't committed to anything by writing to me,—hear what I have to say to you, that's all. Suppose you write now?

You don't have to 'putter' with a Peerless Incubator to get good hatches. Anybody who can tend a lamp can run it, and run it profitably, because the Peerless is simple, practicable, sensible. It is built by practical poultry-men who put into it what 15

years' incubator-running has taught them,—and who have left out of the Peerless everything that makes other incubators give trouble and waste money. It hatches hearty, sturdy, sure-to-grow chicks, because it is properly ventilated, because it hasn't any moisture problem, because it uses heat in the only way that is certainly right.

I will give you any time you want to pay in,—three years, if you say so

I will guarantee everything about the incubator to be all right,—I will take just about all the risks, in fact.

You supply the eggs and the oil for the lamp, and use common-sense and a little energy,—that's your part of it.

I can show you why that is so, if you will ask me to,—can't do it here, because there's no room. Tell me you'd like to know why the Peerless Way Makes Poultry Pay. I will see that you get the facts. Write and ask to-day.

The Lee-Hodgins Co., Limited, 2 Pembroke St., Pembroke, Ontario

To save time and freight Western orders will be shipped from our Winnipeg warehouse; but all letters ought to be sent to Pembroke.
