

Bog Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the blemish came.

Fleming's Spavin Cure (Liquid) is a special remedy for soft and semi-solid blemishes—Bog Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be imitated. Easy to use, only a little required, and your money back if it ever fails.

Fleming's Vest-Pocket
Veterinary Adviser

describes and illustrates all kinds of blemishes and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

FAIRVIEW HERD

The greatest A. R. O. herd in northern New York. Headed by Pontiac Korndyke, the greatest sire of the breed, having five daughters whose secondary records average 29 1/4 pounds each, and over 43% fat. Assisted by Rag Apple Korndyke, a son of Pontiac Korndyke, out of Pontiac Rag Apple, 31.62 pounds butter in 7 days, and 126.56 pounds in 30 days, at 4 years old. Cows and heifers in calf to the above two bulls for sale, also young bulls sired by them out of large-record cows. Write, or come and inspect our herd. **E. H. DOLLAR, Newellton, St. Lawrence Co., N. Y., near Prescott, Ont.**

Centre and Hill View Holsteins

We are now offering 8 choice young bulls from 6 to 10 months of age, with high official backing. These are a grand lot of young bulls. We are entirely sold out of females for the present.

P. D. EDE,
Oxford Centre P.O., Woodstock Sta., Ont.

WOODBINE STOCK FARM

Offers a few fine young Holstein bulls and bull calves, sired by Sir Mechthilde Posch. Sire's dam holds world's largest two-day public test record, dam Ianthe Jewel Mechthilde, 27.65 lbs. butter in 7 days; average test, 4.46 per cent. fat; out of dams with superior breeding and quality.

Shipping stations—Paris, G. T. R.; Ayr, C. P. R.

A. KENNEDY, Ayr, Ont.

IMPERIAL HOLSTEINS!

For sale: 13 bulls of serviceable age, sired by Tidy Abbe Kirk Mercedes Posch, whose 7 nearest dams have records within a fraction of 27 lbs. Out of show cows, with high official records. A high-class lot of young bulls. **W. H. SIMMONS, New Durham, Ont., Oxford County.**

Glenwood Stock Farm

Holsteins all sold out. Have a few young Yorkshire sows, about 2 months old, for sale cheap. True to type and first-class. Bred from imported stock.

Thos. B. Carlaw & Son, Warkworth P.O., Ont.
Campbellford Station

Holsteins at Ridgedale Farm

Eight bull calves on hand for sale, up to eight months old, which I offer at low prices to quick buyers. Write for description and prices, or come and see them. **R. W. WALKER, Utica P.O., Ont.**

Shipping stations: Myrtle, C. P. R., and Port Perry, G. T. R., Ontario Co.

For Sale! "HOLSTEIN BULLS"

Both dams have official records over twenty pounds of butter in seven days, and top-notch breeding on the sire's side. **FRED ROW, Currie's Crossing, Oxford Co., Ontario.**

Maple Hill Holstein-Friesians

Special Offering: One cow (bred), freshened in December. Two bull calves, calving in December; very choice.

G. W. CLEMONS, ST. GEORGE, ONT.

QUESTIONS AND ANSWERS. Miscellaneous.

DYING WITHOUT A WILL.

Father died without any will. He leaves a wife and several children.

1. What portion of the land property can mother claim by law? What portion of the money, stock, implements, and household furniture can she claim? Can one heir receive his portion before the others, that is to say, five or six months before the rest do?

Ontario.
Ans.—1 and 2. The widow may either take her dower (that is, a third of the lands for life), and a third, absolutely, of the personal property; or one-third, absolutely, of the entire estate, real and personal. 3. Generally speaking, no.

FORMS FOR MILK RECORDS AND SERVICE.

1. Who is the right person to apply to for blank milk-weight forms for keeping milk records, and do they cost anything; and do those who get them have to make a report?

2. Who do you apply to for blank service forms for Clyde horses?

S. J. M.
Ans.—1. Apply to Prof. J. H. Grisdale, Central Experimental Farm, Ottawa. There is no charge for the forms, but we understand it is expected that those who use them shall report.

2. Accountant National Live-stock Records, Department Agriculture, Ottawa.

ACCIDENT TO EMPLOYEE.

I hired a married man for the year at \$250 per year, with his board, but in the winter the man was cutting wood with me in the bush and accidentally cut his foot with the axe, and was nine days at the house.

1. Can I make him put in the nine days he lost?

2. Or can I stop it out of his wages?

3. Can I make him pay for his board the time he was at the house?

4. Can he recover from me in the courts the nine days he has worked over his year, meaning the nine days he put in for the time he lost?

W. C.
Ontario.
Ans.—1, 2, 3, and 4. No.

HUNTING AND HOUNDS.

1. Have persons the privilege of shooting on a farmer's property without his permission at any time of the year?

2. Can they also use hounds?

3. How can a farmer prevent persons from bringing hounds on his property, when hounds have, on different occasions, worried sheep in the neighborhood?

4. Could he shoot them at sight, if not accompanied by their owner, if he posted notices to that effect?

J. W. S.
Ans.—1 and 2. Not if they have had notice not to do so.

3. The farmer should give notice as prescribed by Sec. 25 of The Ontario Game and Fisheries Act (1907).

4. Probably not. See Revised Statutes of Ontario, 1897, Chap. 271, Sec. 9, as to circumstances under which the farmer may kill dogs.

FLUES FOR RUTHERFORD VENTILATION SYSTEM.

What number and size of outlets and inlets would be required for the Rutherford system of ventilation in a barn 60 feet square, to hold ten horses and twenty-five cattle?

J. W. S.
Ans.—In a barn of the dimensions mentioned, supposing the cattle and horses to be in one and the same compartment, that is, there being no divisions, I would suggest two inlets, on each side, each about 8 inches square, or, if not that size, at least of that area. These inlets might pass under the wall or through the wall. If they pass through the wall, then a small box should surround the opening on the inside so as to deflect air and give it an upward tendency when it enters the building.

Two outlets, each two feet square, will be sufficient for a building of that size containing the number of cattle mentioned. Care should be taken to provide the outlets with good keys to control the flow of air. The outlet pipes should be so located as to be possible of extension two or three feet above the highest part of the roof. If constructed to such a height they will be certain to give satisfaction, if lower they are not always certain of working perfectly.

BIBBY'S
CREAM
EQUIVALENT
CALF MEAL

GOOD TO THE LAST DROP

There is no other calf food, save new milk itself, which contains so much nourishment as BIBBY'S CREAM EQUIVALENT MEAL.

It is heartily relished by young stock, is practically predigested, and can be fed with perfect safety to the youngest animals. It is a perfect substitute for new milk, and, with water only, it makes a nutritious feed that cannot be equalled for bringing calves a young pig up to first-class condition, and preventing scouring and other ailments. BIBBY'S CREAM EQUIVALENT is in constant use by most of the leading breeders of high-class stock. Calves relish it, and thrive well upon it; it is easy to prepare, and costs much less per meal than other preparations.

For sale by all dealers or direct from **WM. RENNIE CO., Ltd.**, Toronto, Montreal, Winnipeg, Vancouver.

Stoneycroft Ayrshires

Choice young bulls and heifers of the very best breeding, combining show and dairy quality.
