The Modern Farmer

is a user of paint. He knows that paint preserves — that it brightens up the farm.

But, does he know just how much—in dollars and cents—paint will save him in ten years, if he uses it properly? Railroads make it a rule to paint their property—cars, stations, freight houses, bridges, etc.—at regular intervals.

They don't wait until the paint wears off and decay sets in—not much—because they know it will take twice as much paint to cover up the marks of time's destroying hand and stop his mischief. They have found out—in dollars and cents—just how much they save by using paint at the right time.

Just as soon as the farmer learns that same lesson—just that quick he will know how to make paint pay him a profit. Cut out the coupon, present it to a Martin-Senour Agent, and he will give you a half-pint can of Red School House Paint free—if no dealer near you send to us and we will see that you receive the can and our Farmers' Book free.
