tendency has been recognized as un-wise, and now the milking type of Shorthorn is being more encouraged, and premiums under the scheme are being actually awarded to young bulls, the product of pedigree Shorthorn sires, of deep-milking cows that have been accepted for entry in the recently-established Irish Dairy Herdbook, started by the Department.

Nothing was more striking at the show than the great turn-out of the Aberdeen-Angus breed, of which, in ten classes 130 specimens appeared. This breed is making great headway, and, within its limited sphere, is wrestling from the Shorthorn a share of its at-one-time unchallenged popularity. Irish farmers are finding out its special superiority as a first cross for quick-growing, fleshy stock for the butcher; but, unlike the Shorthorn, the black bulls cannot be successfully used on subsequent generations, their impressiveness being limited to the one mating. The Shorthorn scores here, as sires of the breed can be indefinitely used with successive generations, and effect improvement all the time, while the red, white and roan is also, of course, far better for dairy purposes. Irish breeders of Aberdeen-Angus cattle are a rather well-to-do class, and they have succeeded in greatly refining the specimens which they keep during the past few years. At the big Scotch sales, this spring, several high-priced "doddies" were bought by enterprising Irish enthusiasts, who thus manifested their confidence in their favorites. The pick of these purchases were entered for Ballsbridge Show, but it was in a sense gratifying that they were well ousted for the principal places by home-bred bulls and cows. The entire show of the breed was characterized by unusually good substance and typical character, a very satisfactory feature being the standard attained by the younger bulls.

Herefords are also moving ahead, and the formation, last month, of an Irish Hereford Breeders' Association should aid the future progress of this capital breed in our midst. For beef production, pure and simple, it is out by itself in many of the leading grazing districts in Ireland. The animals shown at Ballsbridge numbered 91 in eight classes, and the tussle for prizes found our Irish breeders leaving some noted English exhibitors in obscurity, indeed, the later had hardly a look-in. there was, no doubt, capital style and quality shown in each class, but the impressive weight and substance apparent among the Aberdeen Angus were not so noticeable.

EMERALD ISLE

HOLSTEIN-FRIESIAN SALE AT LACOMBE

On Wednesday, June 2nd, immediately after the sale of bulls at the exhibition grounds at Lacombe, a sale of pure-bred Holstein-Friesian cattle was held at Winter's livery stable. A large crowd gathered from different parts of the province, and on the whole prices were good, many buyers not knowing the value of good dairy stock were very disappointed when they did not get what they wanted at their own prices and missed their chances. One buyer from the North wanted a bull and ten females. He got his bull, but no females although he tried for every one, and is now treating for this number privately, having a better idea of their value. The animals offered were from the herds of W. J. Tregillus, Calgary, and A. S. Blackwood, De Winton.

Mr. Blackwood's offerings were first disposed of at the following prices:

Key's de Kol, bull, O. Krefting, Ponoka, \$100; Midnight, three-year-old heifer, J. Turner, Calgary, for Demonstration Farm, Strathmore, \$100; Pearl de Winton, heifer, J. Turner, for C. P. I. Co., \$70; Beauty de Kol, heifer, O. Krefting, Ponoka, \$75; Jule de Winton, heifer, J. Turner, for C. P. I. Co., \$85; Lucitania de Kol, heifer, J. Turner, for C. P. I. Co., \$70; Zolozolin de Kol, heifer, O. Krefting, Ponoka, \$75. Mottled Beauty, cow, J. Turner, for C. P. I. Co., \$80.

W. J. Tregillus' animals were then

WEAK MEN, LOOK!

Take This Belt for What it is Worth—Wear it Until You Are Cured—

Then Pay Me My Price. I

I have learned to put a lot of confidence

in men, especially men who are weak,

sickly and delicate, who have tried every-

thing to restore their vitality, failed, who

have lost faith in themselves and humanity

in general, because they have been led to

try so many remedies which were no more

use than as much water. These are the

men I want to wear my Belt, and I will wait

for my pay until they are cured. All I

ask is that they give me reasonable security

while the Belt is in their possession and use

if it don't cure you it costs you nothing,

is there anything more fair?

Every man should understand that

physical power, large muscles, strength and

endurance come from animal electricity.

My treatment will pump every part of

the body full of that and perfection will

result.

It not only restores vigor and increases nerve power, but it cures Rheumatism,

Pains in the Back and Kidneys, Indigestion and Constipation and all troubles which

result from weakness of any vital organ.

Dear Sir,—I have used your Belt with great success. It has done just what I

expected of it—it has helped me in every way. I am getting stronger all the time.

I have gained twenty pounds since I began using your Belt. I think it was money

well spent. I have no more dizzy spells; my heart is much stronger and my lungs feel

better. I think your Belt has the most healing power of anything that was ever

invented.

M. W. COOPER, Claresholm, Alta.

Dear Sir,—Your Belt has done me a world of good. When I started wearing it,

I had the backache so bad I could scarcely walk across the floor. I put your Belt on

as soon as I received it, and wore it about three weeks steady, and I found myself a

well man. I would not take five times what the Belt cost me if I could not get another

one like it. You can use my name and letter for an advertisement if you wish. The

Belt has helped me and I know it will help others if they try it. I remain, for the good

you have done,

JOHN GOLDIE, Lock Box 165, Estevan, Sask.
