If you have a new car, equip it with these covers. They will save their cost when you turn in the car for a new one, because the original upholstery will be like new. On old cars Fandango Covers give a refreshing, smart appearance, completely covering over all shabby and worn parts. They are made of an excellent quality denim, all ready to slip on and at prices very much below the figure any custom maker could produce them for. Snap them on in ten minutes. Take them off for laundering in less.
