BELMORE

Mrs. Radcliffe is visiting her daughter
Mrs. D. McDonald.

Miss Milly Hughill has returned home
from Walkerton.

The Cineograph concert held in the
town hall on Tuesday evening was a
decided success.

A very interesting duel was fought in
town lately. It ended with scratched
faces and black eyes.

Saw logging is the order of the day.

Mrs. Radcliffe had the misfortune to
fall on the ice and hurt herself badly.
We hope to hear of her early recovery.

Walkerton

Last Thursday afternoon the Dur-
ham curlers came over to see what they
could do with the Walkerton club. At
the close of the game Walkerton was
16 shots ahead. In the evening South-
ampton also played Walkerton, and
were defeated by 7 shots. That's not
bad for Walkerton.

The Port Elgin hockey team came
down one day last week and crossed
sticks with the Walkerton team.
Walkerton came out victorious by one
goal. One of the Port Elgin fellows
was badly used up.

Messrs. Geo. and Jacob Lembko re-
turned to Revelstoke, B. C., on Tuesday
morning. J. J. Lembko accompanied
them to Toronto, where he intends
buying a stock of shoes.

Mr. Jos. Lobsinger of Mildmay was
in town on Tuesday.

There will be a skating race in the
Walkerton rink on Friday night be-
tween Forrester of Ferguson and Leslie
Jones of Walkerton for a purse of \$25.

Mr. Wm. Dickison looks quite natural
in his old chair at the County Council
Board.

Huntingfield

We have just received word that Mr.
S. Vogan's old goose is dead. This was
probably the oldest goose in these parts
having seen the most of nineteen win-
ters.

Mrs. Wat Harris had a quilting bee
last Thursday, and the boys expected
a hop in the evening, but owing to the
blizzard which raged, very few were
able to be present.

Service will be held in the McIntosh
church at half-past two next Sunday
afternoon. Rev. Mr. Young of Clifford
will preach in the absence of Mr. Stew-
art, who is away on a visit.

Mr. Wesley Haskins met with what
might have been a serious accident the
other day. He was standing on the
bunk of a sleigh and slipped and fell,
alighting on his back on the end of the
bunk. As it is, he thinks there are
some ribs cracked. He will be laid off
work for a while.

Mr. J. E. Mayberry, our late teacher,
who has been visiting in the neighbor-
hood for the past week, has returned
home.

Wedding bells are ringing clearer
than ever. Dame rumor has it that
there will be a wedding for nearly every
Tuesday this winter. If this be true,
we can knock out any line in the two
townships.

A gentleman from Proton arrived in
Chesley a few days ago in search of his
daughter who he had reason to believe
had eloped. The case was placed in
Detective Gray's hands and the machi-
nery of the law was put in motion.
The girl was traced from place to place
when on Monday Constable Gray found
that her trunk was checked last to
Chesley. At this point Mr. Gray was
deprived of showing his detective
abilities by being called to the phone
and was told that a cheaper man had
the case, and if he had any useful in-
formation to send it. Mr. Gray does
not do business in this manner, and not
withstanding the fact that he had
traced the girl to the very house she
stopped at, he refused to act any further
or give any information as to her
whereabouts. The young woman was
book-keeper for her father who was a
merchant in Proton and her lover is a
married man.

Agricultural Notes.

No farmer, and especially if he is a
dairy farmer, can afford to be without
ice for summer use. Where a farmer
keeps a large number of cows, and has
to care for and handle a considerable
quantity of milk every day, ice is almost
indispensable. Ice will also be found
useful in many other ways than for
dairy purposes. With ice on hand a
cheap refrigerator can easily be fitted
up for keeping fruit, butter and other
perishable products in.

Our Canadian winter usually furnish
us with an abundance of good ice in the
rivers and streams throughout the
country, so that every farmer can
secure all he requires with very little
trouble. An ice house need not be an
expensive structure. In fact any rough
building made of rough boards will
answer the purpose. Good drainage
must be provided for and also good
ventilation. The drain should be erect-
ed in such a way that no current of air
will be admitted through it to the ice.
There should be a good foundation or
bed on which the lower layer of ice is to
rest, and it should be covered with non-
conductive material.

Though it is better, perhaps, to build
an ice-house in the fall of the year so as
to have it ready for filling at any time
during the winter, yet it can be built at
any time. If the house is not ready
when the ice is, the ice can be put in a
pile on a proper foundation or bed and
a house put over it at convenience. An
old hay barn or shed can often be
utilized for this purpose, and in case of
an emergency ice can be kept without
any kind of a building over it if plenty
of sawdust or tan-bark can be had for
packing. In some places where lumber
is scarce and hay is plentiful and worth
little the walls of an ice-house have
been made of pressed hay. However,
whatever the method of storing, every
farmer should have a supply for family
and dairy use.

Paris, Jan. 31.—A descender into the
Paris drains, named Osias, made a
Monte Cristo sort of discovery last night
in the big sewer under the Rue Marie
Stuart, not far from the Central Mar-
kets. He had just gone down below to
do some sweeping and was working on
the side path of the drain when he saw
a large packet lying close to the wall.
He opened it and found inside a heap
of railway and other securities, which
he immediately took to the nearest
police commissary. The bonds and
obligations found are worth \$100,000,
and Osias was complimented on his
honesty. It is supposed that the
securities were either lost by a bank
messenger or were dropped into the
drain by a pursued thief, who had
resolved to do away with all evidence
of his guilt.

COUNTY AND DISTRICT.

To all who find themselves with
health gradually slipping away. Kidneys
and Liver so disorganized that they are
incapable of keeping the system free
from poisonous waste material, Stomach
disordered, Bowels Constipated, Head
aching, back pain, take Dr. Chase's
Kidney-Liver Pills. The quick way
they help you back to health will sur-
prise you.

Rochester, N. Y., Jan. 29.—The citi-
zens of Sodus Point, a small village
about 35 miles from here, are greatly
aroused by the cruel branding of a
twelve-year-old boy named Williams by
three of his companions, two of whom
were colored. The young villains in-
duced the Williams boy to enter the
basement of the Methodist Church in
that village. He was then stripped of
his clothing, and then the boys, after
heating their knife blades in the furnace
fire, proceeded to torture their victim.
His agonizing cries were not heard, and
the boys continued to apply the hot
blades to his body. He was severely
burned in a great number of places.
The cruel-hearted youngsters then fled
and young Williams staggered home in
an almost helpless condition.

P. C. Harry Downs, the deerfoot of
the London police force, had a lively
chase of between three and four blocks
on Saturday afternoon after Hugh
Jenkins, a colored man, who has been
wanted since Jan. 7th on a charge of
stealing. Downs and Jenkins first got
sight of each other, at the corner of
Richmond and York streets, and when
the former began to approach, Jenkins
took to his heels. The policeman was
considerably handicapped, having on
his heavy winter overcoat, but he took
up the chase after Jenkins was half a
block distant and had disappeared in a
lane on York street, between Richmond
and Clarence. Jenkins emerged from
the lane on King street, while Downs
went up Clarence street in the hope of
heading him off at Clarence, but Jen-
kins was a little too feet footed and
crossed Clarence street ahead of the
officer. He continued his easterly
course at full speed, but as he reached
Wellington street he was overhauled
and handcuffed by Downs. It is al-
leged that Jenkins entered the house of
John C. Traher, on Hope street, on
Jan. 7th, and stole an overcoat valued
at \$7. The coat was disposed of at a
second hand store.

The London Advertiser says: To
show how wealth has accumulated in
Canada, it may be stated that there are
now not fewer than about fifty persons
in the Dominion qualified to rank as
millionaires.

Our millionaires rank all the way
from a million up to say fifteen mil-
lions.

These fortunes are in many cases
likely to increase as time goes by.

The places and the number of our
Canadian millionaires are about as
follows:

Montreal has fourteen millionaires,
Toronto has seventeen,
Hamilton has three,
Walkerville has two,
London has one,
Barrie has one,
Galt has one,
Perth has one,
Quebec has four,
Victoria, B. C. has one,
St. Johns, Nfld., has one,
Winnipeg, Man., has two.

A very destructive fire occurred in
Owen Sound on Tuesday morning by
which the North America Chair Factory
was completely destroyed. The burn-
ing of this large establishment will be
a severe loss to Owen Sound, and
throws three hundred hands out of
employment. The loss is estimated at
\$75,000 with an insurance of \$23,000.

Wyoming village is advertising for
tenders for a Municipal Constable and
General Man." Hers is a list of his
duties:— Bread inspector, nuisance,
sanitary and black knot inspector, car-
taker of tramps, of street lamps, of
trunks, collector of dog tax, trimming
of shade trees, of thistles, of noxious
weeds, impounder of vagrant stock, in-
cluding law breakers, superintendent
and assistant in building and repairing
sidewalks, sewer boxes, drains, grading
and gravelling streets, village constable,
on duty every night and all day on
special days.
