tor Creat Revival

Religious Awakening to Speed Victory

Liverpool, Jan. 27.-Vice-Adniral Sir David Beatty, commander of the first British battle cruiser squadron, whose ships defeated the Germans in the North Sea, has made a stirring appeal for a great religious revival in England as a necessary step to victory in the war. In a letter read at the annual convention of the Society for the Propagation of Christian Knowledge he writes:

"Surely Almighty God does not ntend this war to be just a hideus fracas or a blood-drunken orgy. There must be a purpose in it; improvement must come out of

"In what direction? France has already shown us the way, and has risen out of her ruined cities with a revival of religion that is wonderful. Russia has been welded nto a whole, and religion plays a great part. England still remains to be taken out of the stupor of self-satisfaction and complacency into which her flourishing condition has steeped her. Until she can be stirred out of this condi ion, until a religious revival takes place, just so long will the war

When she can look on the fuure with humbler eyes and a prayr on her lips then we can begin to ount the days towards the end. our society is helping to this end. nd so is helping to bring the war o a successful end."

A Mystery of Gallipoli

Strange Disappearance of Party Led By Col. Sir H. Beauchamp, "Who Charged Into The Forest And Were Lost to Sight Or Sound."

Norfolks have returned home from any light on the mysterious disappearance of the party led by Colonel Sir H. Beauchamp, which included a company enlisted from the King's San dringham estates, and which, as described by Sir Ian Hamilton, "charged into the forest and were lost to sight or sound. Not one of them ever came back." The only trace which has been discovered of the party is the pocket-book and cheque-book of one of the missing officers, Captain Frank R. Beck, the King's Sandringham agent, which the 'Lynn News' states were found on the plain across which he passed on the advance on Anafarta, and which have been returned to Sandringham

Meanwhile interviews which returned members of the battalion provide no further definite information regarding the fate of the missing officers and men. Private John Bridges, of Lynn, seems to have been the last to see Colonel Beauchamp and three other officers. They were which the Norfolks wished to take. of horseshoe, with the village and forest in the centre. It was when the gallant Norfolks were in the village near the forest that Bridges saw these officers, and heard the Colonel shout as he was leading his men; "Come on boys! Give 'em the point." Sir Horace had just previously urged them on with the words, "Now, boys, we've got the village."

One or two of the returned men speak of treachery, and Bridges says: "We might have taken the ridge if we had not had the order to retire." Who gave the order he did not know, and neither do others interviewed on the point. It is thought it may have come from a German officer in the Turkish trenches close by. At any rate, many of the men-scattered about, some separated from officers, and all under terrific fire-acted upon it, and the others went on to their
