THE CIGARETTE QUESTION.

The Woman's Christian Temperance Union, considers that there is but one side to the cigarette problem. No battle is too hard to undertake to safeguard the physical and moral good of the young. Although the tobacco trust in its aggressive publicity campaign is spending millions in an endeavor to put a cigarette into the mouth of every American boy, we must not be disheartened but must rally our forces, face the situation squarely, learn the truth about tobacco (cigarettes in particular) and keep from harm, if possible, those not yet victimized by the enemy and reclaim those long since conquered and in bondage to the "little white slaver." As a rule the cigarette boy leads the class at the foot. His mind lacks attention, application and grasp. This is the universal verdict of teachers and the cigarette boy as well. The statement is also proved by statistics from Harvard, Yale, and the high schools and colleges. The Superintendent of New York City schools declares cigarette smoking is one of the worst habits a boy can acquire; it hinders his growth, it retards his intellectual development, and worst of all, it weakens his will, and thus renders him less capable of resisting temptations to evil courses. The School Journal tells how a physician proved to a cigarette fiend that he was poisoning himself. "You don't

blame yourself for your run-down condition?" the physician asked. "Not in the least," returned the man. "I blame my hard work." The physician shook his head. He smiled in a vexed way. Then he took a leech out of a glass jar. "Let me show you something," he said. "Bare your arm". The cigarette fiend bared his pale arm, and the other laid the lean, black leech upon it. The leech fell to work busily. Its body began to swell. Then, all of a sudden, a kind of shudder convulsed it, and it fell to the floor dead. "That is what your blood did to that leech," said the physician. "You poisoned it." "I guess it wasn't a healthy leech, in the first place," said the cigarette smoker, suddenly. "Wasn't healthy, eh? Well, we'll try again." And the physician clapped two leeches on the young man's thin arm. "If they both die," said the patient, "I'll swear off—or, at least, I'll cut down my daily allowance from thirty cigarettes to ten." Even as he spoke the smaller leech shivered and dropped on his knees, dead, and a moment later the larger one fell beside it. "This is ghastly," said the young man; "I am worse than the pestilence to the leeches." "It is the empyreumatic oil in your blood," said the medical man. "All cigarette fiends have it."

MANY VESSELS WILL COMPETE

In Nova Scotia Fisherman's Race

The Nova Scotia Fisherman's Race which has created a great deal of interest among the fishermen of the Province will take place on Saturday, October 15th. The sum of \$1,000 has been offered for the first vessel to cross the line. \$700 will be the second place prize and \$500 will be awarded to the third vessel to finish. The race will start at nine o'clock in the morning and the largest number of craft that ever competed in any event in Halifax Harbor are expected to be at the starting line. The boats will race over a forty mile course, laid off the Harbor, and it has been decided to stage two races, in order to give every boat a chance to show just what it can do and to insure of the best boat winning out. The contest will be decided on points, that is, the boat making the best showing in the two races will be the prize winner. Every vessel in the Nova Scotia fishing fleet is eligible to compete in this race which is even now a much talked of event along the coast. The fact that the committee in charge has eliminated all restrictions as regards water line, date of sailing for the Banks, and all other such
