

SHE'S NOW A WELL AND HAPPY WOMAN

Was All Run Down, But Health Is Perfect. Now Praises Tanlac.

"My wife has taken only two bottles of Tanlac, but already the change in her condition has been so remarkable that she is looking like an entirely different woman," said D. P. Harrington, a well-known farmer living at Harwood, Salisbury, N. B., while telling of the experience of his wife, Mrs. Catherine Jane Harrington, with the medicine.

"For the past three years my wife had suffered from a bad case of rheumatism," he continued. "She had severe pains in her back and at times they caused her so much agony she was almost frantic. She was so miserable and restless at night that she did not know what it was to sleep well. And of mornings she often had such dizzy headaches that it was impossible for her to attend to her housework. She had little or no appetite and what she managed to eat seemed to do her more harm than good. Her nerves were in a wretched condition and her whole system was so run down that she was on the verge of a complete breakdown."

"A friend of ours advised us to try Tanlac and we will always be grateful to him for telling us about it, for it proved to be just the thing my wife needed. She began to pick up after the very first few doses and today she is in better health than for years. The rheumatic pains in her back have all disappeared and she can bend over without the least trouble. Her appetite is now splendid and everything she eats agrees with her perfectly. She is no longer nervous and is never bothered with those dizzy headaches any more. She sleeps sound every night and is so much stronger that she says her housework is now easy. She is a well and happy woman and is always telling her friends what Tanlac did for her."

Tanlac is sold in Hartland by Estey & Curtis Co., and by the leading druggist in every town.

a very necessary step for the farmers to accomplish greater production, more particularly in view of the very great scarcity of labour. Instead of doing that the Government placed a seven and a half per cent war tax on machinery. Thus while the Government preached production, its own policy has been to penalize production. But your High Protectionist will say, "How will you raise the revenue?" While nobody would deny that the customs duty produces some revenue, I believe it is the most extravagant method on earth of raising

Your Grandfather

seventy years ago, treated the coughs and colds of his family with

SHARP'S BALSAM

of Horsehound and Anise Seed

It is still the best treatment for coughs, colds, croup, asthma, etc. Relieves tickling in the throat, and is valuable in cases of whooping cough and diphtheria.

MR. GEROW'S OPINION
In 1892, Geo. W. Gerow of St. John, N.B., said: "I have used Sharp's Balsam in my family for thirty years and can safely recommend it as being an effective treatment for colds, whooping cough and especially croup."

Ask for this famous old remedy when you need a cough medicine. It is endorsed by thousands of satisfied users. Sold at drug and general stores everywhere—25c.

The Canadian Drug Co., Limited
St. John, N.B.

"Safety First" To Be Enforced.

People Taking Matters Into Their Own Hands.

Public safety does not alone concern the operation of railways, street cars and motors. It lies deeper. It lies in the health of the people.

One of the greatest enemies to health is kidney trouble. If the kidneys don't filter from the blood the uric acid and other poisons, the general health declines, and all manner of ills appear—rheumatic, sciatic, and neuralgic pains, lumbago, stone in the bladder, headaches, constipation, lassitude. There is certain relief for these ailments. Gin Pills help where other remedies fail. They build up the debilitated system, bring the kidneys and bladder back to normal action, and, by removing the cause, make impossible the evil results. Gin Pills do not contain any alcohol, but all the valuable diuretic properties of the Gin together with other diuretics and antiseptics which have a signal effect on the bladder and kidneys.

All druggists and dealers sell Gin Pills under a guarantee to return your money if they do not bring relief. If you have backache, constant headaches or pain in the sides, begin treatment at once with Gin Pills. 50c a box. Free sample on request.

OTHER TABLETS NOT ASPIRIN AT ALL

Only Tablets with "Bayer Cross" are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—only an acid imitation. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for over nineteen years and proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for Pain generally. Made in Canada.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

a revenue.

Take fertilizers, of which we use large quantities in New Brunswick. I speak particularly of conditions in that province because it is that part of Canada I know most about.

As I have already said, large quantities of commercial fertilizers are used in New Brunswick; they are devoted to the growing of potatoes, which is a staple crop in that province. The duty on mixed fertilizers, Mr. Speaker, is, as you know, ten per cent; and while the Canadian manufacturers of fertilizers import the raw material, or the chemicals, practically free of duty, they appraise against it the cost of the materials and the cost of mixing—manufacturing as they call it—plus the amount of the duty—and charge us the net result. The result is that you can buy a car of American mixed fertilizers, bring it into any part of Canada and pay the ten per cent duty, at as cheap a rate as it would cost for the purchase of the Canadian mixed material. There are a large number of so-called Canadian mixed material. There are a large number of so-called Canadian fertilizer companies that are merely branches of American companies. These concerns are therefore in the position of charging the consumers of fertilizers in this country with this ten per cent duty. That duty really does not reach our revenue at all; it does not even stay in Canada, it goes to swell the banking account of the American companies.

There are also a number of machinery firms in Canada which are merely branches of American concerns. In some cases they have factories in Canada but in other cases they have not; they merely have assembling plants where the partly manufactured American parts are assembled and put on the Canadian market. These firms also collect the duties on their machinery from the Canadian consumer and the same result happens; it does not go into the revenue of Canada; it does not even stay in Canada, it goes to swell the

American bank account. In this way it is manifest that many thousands of dollars are lost to the revenue of Canada.

Now take the Ford car, which is the poor man's car. In singling out the Ford car I have no criticism of it to make; I have a Ford which is pretty well worn out but it has given me excellent service. What I have said in reference to the Canadian mixed fertilizers and the Canadian assembled machinery applies perhaps more forcibly to the cheap Canadian made car, especially that type produced by American firms. This year in New Brunswick we are paying for Ford cars \$240 more than our American neighbours just beyond the boundary line. Take the case of two men living on each side of the International boundary: The American pays only \$660 for his car while the Canadian has to pay \$900 for exactly the same car manufactured by the same firm. The Canadian car is assembled and put together in this country and sold as a Canadian car but it does not pay any duty into the revenue of the country—that goes to swell the American bank account.

Mr. Speaker, the party to which I have the honor to belong has no desire to "submarine the tariff." I believe that was the term applied with respect to our policy by a Cabinet minister speaking in Montreal a few days ago. We all know that the minister in question (Mr. Meighen) is very apt at phrase making and forming expressions that attract the public ear. But we have no desire to submarine the tariff or anything else. The features of the tariff that we object to are those to which I have made allusion and which permit the Canadian consumer to be robbed without any benefit to the country. These features of the tariff in their operation work exactly the same today as the adverse exchange on Canadian money. No doubt the Canadian manufacturer will hail this adverse exchange as a God-send to Canada, for it will effectively shut out American competition. It works exactly the same way as the items in the protective tariff, to which I have alluded. If you buy American made goods there is a discount on your money of nearly as much as the tariff will amount to—not as much as it would amount to on a Ford car, more than it would amount to on a mower, and as much as it would amount to on some other farm machinery.

Your high protectionist will say, "Oh, yes, it is just as I thought. Your plea is all for the farmers. You want free entry for fertilizers, farm machinery, and the cheap car that the farmers use." And perhaps some people will say, "What does the farmer need with a car?" Mr. Speaker, in this day of high wages and scarcity of labour the farmer in the back concessions needs a car more than his city brother does. It is an absolute necessity when he has to leave his work to go on any errand of business for him to be back home as soon as possible. The old-fashioned method of locomotion by foot or by horseback or by horse and buggy is too slow for this

GUARD AGAINST THE 'FLU

Serious Outbreaks of Influenza all over Canada

GOOD HEALTH IS THE SUREST SAFEGUARD

"FRUIT-A-TIVES" Brings Vigor and Vitality and Thus Protects Against Disease

There can be no doubt that the situation regarding the spread of Influenza throughout Canada is one of grave concern. It is quite true that the number of cases does not constitute an epidemic such as caused the suffering and sorrow during the terrible days of 1918. Yet there is no disguising the fact that everyone should be on their guard against the disease.

In Montreal alone, from January 20th to February 21st, three thousand one hundred and twenty-five cases of Influenza and 189 deaths from the disease were reported to the Health Department.

If the outbreak had come at the beginning of the winter instead of the end, we might reasonably feel that the very cold weather would check the spread of the disease. But coming as it has, at the end of the winter, there is grave fear that an epidemic may occur. For spring, with its slush and rain under foot, its dampness and chill, its constant changing from cold to warm and back again, is a prolific source of coughs and colds, pleurisy and pneumonia.

The best protection, in fact, the only safeguard against the 'Flu, is GOOD HEALTH. Those who are not as well and strong as they should be; those who are underweight; those who are "run-down" through overwork or sickness; should build up at once. What they need is a Blood-purifier, a body-builder, a strength-giver, like "Fruit-a-tives", the wonderful fruit medicine.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and insures an abundant supply of pure, rich blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, sharpens the appetite, brings restful sleep and renews the vitality of the nervous system.

"Fruit-a-tives" contains everything that an ideal tonic should have; to purify the blood, to build up strength and vigor, and to regulate the eliminating organs, so that the whole system would be in the best possible condition to resist disease.

Now is the time to build up your health and strength, not only as a precaution against the ravages of Influenza, but also to protect you against "Spring Fever" and the inevitable reaction which comes with the appearance of warmer weather. Get a box of "Fruit-a-tives" today and let this fruit medicine keep you well.

"Fruit-a-tives" is sold by all dealers for 50c a box, 6 boxes for \$2.50, trial size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Greater Production FARMERS

We are in a position to help you get greater production by supplying you with:

"Cletrac" Tractors

Plows, Harrows, Manure Spreaders, Chatham Fanning Mills, 11 and 13 Disc Fertilizer Drills, Robbins and Aspinwall Potato Planters, Cultivators and Wing Horse Hoes, etc. Also Double Crank Axle Wagons, DeLaval Cream Separators, Corona Ranges, Kerosene Engines.

Chevrolet and Studebaker Automobiles a Specialty

N. B. We expect a carload of Threshers to arrive here about the middle of April. Prospective buyers should place their orders now and save \$50 on each.
