TORONTOSYNOD Urge Better Observance of the Lord's Day. Want Race Track and Other Gambling Made Illegal.

Toronto, June 15.—The Anglican synod of the diocese of Toronto convened today in the Church of the Redeemer, the sessions being opened with a divine service and the charge of Bishop Sweetney, of Toronto. The bishop's message was one on the whole of encouragement, though some measures were pointed out which must be taken to strengthen the various branches of the church's work. His Lordship urged the completion of St. Alban's Cathedral and the erection of a new synod building and hall.

The report of the committee on Sabbath observance, dealing with Sunday amusements, and Sunday trading, says: "Sunday with many has thus become a day of display and frivolous pleasure. Your committee would earnestly ask the clergy of the church to assist as far as possible in checking this evil, and would suggest not only earnest preaching generally, but, where necessary, personal talk and direct dealing with individual members of their congregations." The committee on temperance and moral reform reports in part as follows: "We recommend that the Federal Government be requested to amend the criminal code so as— 1. To make race track and every other kind of gambling illegal. 2. To make open and notorious adultery and lewd cohabitation a crime. 3. To increase the penalties for procuring girls for immoral purposes. 4. To make the possession of obscene literature, as well as its exposure for sale, punishable by law."

Millionaire Bacheur When Alone Had No Use For One. New London, Conn., June 16.—For the first time in history, a telephone was installed yesterday in the National Whaling Bank of New London, and this became Sebastian D. Lawrence, who for 43 years was President of the bank, is dead. Lawrence was the last of that old family of millionaires who made fortunes in the whaling business. He died a bachelor, with a fortune of over ten millions. He would not use a telephone and would not have one in his bank.

WRONG LEVER. Motorist Runs His Car Off Ferryboat Into the Hudson River.

Poughkeepsie, June 15.—An automobile driven by Charles Stubby, of Newburgh, plunged off the ferryboat Brinkerhoff into the Hudson River at Highland, opposite this city, early to night. Stubby drove the machine onto the ferryboat toward the bow end. Instead of putting on the brake, he let in the clutch. The machine tore through the iron gates of the boat and plunged into the river. Stubby was unable to free himself in time to jump, and was carried far under the surface with the machine. Under water he managed to extricate himself from his perilous position and came to the surface, after which he was fished out of the river by deckhands. Elmer Manney, his mechanic, who rode with him, jumped to the deck of the boat before the machine went into the water. Neither man was injured. The car is still at the bottom of the river.

MUZZLE THE DOGS. Toronto Mayor Aroused Over Attacks on Children.

Toronto, June 16.—"Are we going to have the children of the city of Toronto bitten by dogs every day?" Mayor Oliver asked at the meeting of the Board of Control yesterday. "Is this thing to continue?" he asked further, "or shall we pass a by-law to prohibit dogs on the streets unless muzzled? Four children have been bitten in the past day or so by dogs running at large, and something has to be done to prevent this. We will not allow this thing to go on. One child is worth more than all the dogs in Toronto." "Something should be done," said Controller Harrison. "What are the police doing in the matter of catching dogs without tags?" "There was no reply to Controller Harrison's question, and for a while the matter was allowed to drop. Before the board adjourned, however, the Mayor again brought the matter up, and said a by-law should be passed regulating dogs.

POLICY STANDS. An Important Decision in a Fraternal Insurance Case.

Ottawa, June 15.—An important point was passed upon in Non-Jury Assizes this morning by Mr. Justice Clute in deciding the case of MacCauig and the Independent Order of Foresters. Angus MacCauig was a member in good standing in the order and had an insurance policy on his life in it for \$2,000, when he became insane. Then his dues became unpaid and because of this he was suspended. The constitution of the order provided that when a member becomes totally incapable of continuing his occupation he shall receive half his policy and the remaining half, without paying further dues, at his death. Last January, after Mr. MacCauig had been suspended for some time, application was made for the disability benefits and they were refused by the order on the ground that application for these benefits could only be considered when the member was in good standing. His Lordship ruled that \$1,000 became payable as soon as the insured became insane and all liability for dues ceased at that time. It was immaterial that he did not make demand at once and the suspension for non-payment of dues was of no effect after he had become insane. The entire \$2,000 will be collected if the judgment stands. Moth Killers, Etc. Moth camphor balls, 5c lb.; gum camphor, 3c oz.; camphorated X's, 25c tin; cedar flakes, 25c tin; lavender flakes, 25c tin; camphor compound, 25c lb.; moth bags, 25c up. Also lightning, camphor and western bug destroyers, 25c; western roach killer, 25c tin; hellebore, 25c lb. also insect powder and Paris green. At Gerrie's drug store, 22 James street north.

OPEN REVOLT. Honduras Said to be Facing a Dangerous Crisis. Rebels Anxious for the Return of General Bonilla. New Orleans, La., June 16.—The Times-Democrat to-day says: Events are impending toward revolution in Honduras, according to despatches received yesterday by the local business houses engaged in Central American trade. The country faces a most dangerous crisis, probably the most serious since the fall of General Manuel Bonilla in 1906. The despatches say that Lacerda and the northern coast provinces of the unsettled country are in open revolt and have sent emissaries to New Orleans to persuade Bonilla to return and take possession of the Government. Davila has appealed to the State Department of the United States, and the United States gunboat Paducah is patrolling Coiba harbor to prevent sanguinary outbreaks. General Bonilla is in New Orleans, and it was stated yesterday that he had secured his passage to Beliz, Honduras, for next Thursday on the steamship H. T. Inge, as had also Dr. Fausto Davila, a stepbrother of President Davila. They stoutly deny, however, that there is anything significant in their departure.

POLICE-BOYS. Immigrant Children Look on Police as Enemies. If Treated Right They Would Regard Him as a Friend. New York, June 16.—"Health and Sanitation" was the first subject discussed at today's conference of the National Conference of Charities and Correction. In the absence of Dr. Harvey W. Wiley, of the United States Department of Agriculture at Washington, John S. Fulton, of Philadelphia, read a paper prepared by Dr. Wiley on "The Food Supplies of Charitable and Semi-Charitable Institutions." C. F. Langworthy, expert in nutrition of the United States Department of Agriculture, reported the results of recent investigations of the dietaries of such institutions. On the subject of "immigrants," Mrs. Joseph T. Bowen, president of the Juvenile Protective Association, of Chicago, fired a broadside of criticism at the police department of the average American city. She said the police attitude toward children, especially boys, is all wrong. The children of the immigrant, instead of looking up on the policeman as a friend, and regarding him as an enforcer of the law which they should respect, regard him as their natural enemy, and try to get even with him by breaking the law and escaping the consequences.

MAKING USE OF WASTE. Valuable By-Products from Materials Once Considered Worthless. In the textile industry the making of waste out of waste has been truly remarkable. In the modern woolen factories no fewer than five products are obtained by methods now in vogue from the greasy excretions which, after circulating through the animal's system, attach to the wool of a sheep. These products are used as a base for ointments and toilet preparations, for dressings for leather, as a lubricant for wool and other animal fibres, and in conjunction with certain lubricating oils. At one large lubricating plant more than 200,000 pounds of wool are "degreased" every ten hours. From \$2,000,000 to \$3,000,000 worth of wool fat and potash are estimated to have been wasted during a year in the United States before the salutary process of extraction came into general use. Perfumes are not always what they seem. Scents and other useful odors are generally supposed to be obtained from flowers. The oils coming from waste fruit, such as decayed pears, grapes and peaches, however, can be substituted for some of the costliest floral fragrance after they have been treated with acid and other liquids, which impart to them a remarkable perfume. Not only perfumes, but soaps, even confectionery, are now manufactured which are flavored with what is called the oil of bitter almonds, but which is extracted from the tar which is a refuse of gas making plants such as are to be found in every large city.—From the Chicago Tribune.

KILLED NINE. Amoy, June 16.—The clan fights in the Heuwah district, north of Amoy, continue. A number of Moeilin villagers recently captured a junk with a crew of Chimboli villagers on board, and killed nine of them. The remainder escaped overboard. Two of the Moeilin men were killed.

TRAIN WRECKED. Elmira, N. Y., June 16.—Eric passenger train No. 4 westbound, was wrecked a short distance west of Waverly today. Every car on the train except one left the rails while the train was running at high speed. Many passengers were shaken badly and cut by flying glass, but no one so far as known was seriously hurt.

Fatal Accident at Cobalt. Cobalt, June 15.—At noon today Allison Marsinille, an Italian laborer in the Nipissing mine, met with an accident that will prove fatal. Marsinille was trenching with a gang of twenty-five men when rocks rolled down upon him in the trench.

CAESAR GOT WHAT WAS COMING. Some of the conspirators were frightened by what they had done. Not so the great-souled Brutus, however. "We have rendered unto Caesar the things that are Caesar's," declared the noblest Roman of them all, wiping his dagger upon his toga. And sure enough, when the ambulance arrived, the surgeon's first words were to the effect that the dictator had got his.—Puck.

Cheapside

The people of Cheapside will hold a strawberry festival on the eve of July 1, when a full supper will be served and a good programme given. A string band will be in attendance. Admission, 25 cents. On Sunday, the 13th, Mr. and Mrs. Matheson, Mr. and Mrs. Jas. Sloan and son Harold, from Port Dover, were entertained at Mr. Jas. Armstrong's, and Mr. and Mrs. W. Walker and children, from Hagersville, at Mr. R. Mattie's. Mr. Daniel Albright and Mr. Joseph Fry, from Campden, were the guests of Mr. John Weiderick on Saturday, June 12. Misses Nellie and Leah Smelser and their brothers Lloyd and Willard took in the excursion to Guelph on the 11th inst. Over one hundred boarded the train on this trip at Nelles' Corners. An interesting feature of the Norfolk Baptist Association at Selkirk was the appearance of Miss Armstrong, returned missionary from Burmah, who was accompanied by two natives of that country, namely, Miss Isaacs and Mr. Solomon. These converts are now training at McMaster University, Toronto, and are just as clever, comparatively speaking, as any of our own nationality. Another quilting bee was held at Mrs. E. Awde's during the week past, when the ladies quilted for Mrs. (Rev.) R. Raiton, who will remove to the Palmerston district in the near future. Mrs. Ragsley, from Deewesville, is a guest of Mrs. Jas. Dennis. Mr. James Pond, is raising a barn, preparatory to building.
