Town Talk.

ENRIKILLER SALT WELL.—On Satur-  
day, at the well on the Huron Road  
near the railway track 17 feet of clear  
salt were struck at the depth of 1140 feet.  
The pumping apparatus will be shortly  
erected. This well will supply its own  
block, and also two smaller blocks erected  
alongside.

COMPLIMENTS.—We lately noticed the  
Carleton Place excursion to this town.  
One of the excursionists, through the  
Beacon, thus expresses his opinion of it:  
—"At Goderich we arrived at  
half-past nine. Headed by our band,  
we proceeded from the station to the  
grounds adjoining the Maitland hotel,  
where every accommodation was provided  
by our worthy host, Mr. Hosker, to whom  
great praise is due. The situation of the  
grounds is pleasing. It commands a full  
view of the lake, and being well shaded,  
a more suitable place for a picnic could  
not be desired. After dancing, singing,  
etc., all repaired to partake of an excellent  
repast prepared by the ladies of the party.  
After luncheon having been engaged for a  
trip up the lake, all got aboard, and were  
soon enjoying the refreshing breeze of Lake  
Huron. The band played several lively  
airs, which added considerably to the  
enjoyment of the party. Great credit is  
due to the captain and crew of the  
Seymour for their urbanity and politeness  
towards the excursionists."

It is of the utmost importance to have  
Spectacles adapted to the eye in a scientific  
manner. F. Jordan has received full  
instructions in the art of fitting Spectacles  
accurately, and is a Sole Agent in this place  
for Luxur, Morris & Co. Perfected Spectacles.  
Give him a call.

KNOX'S CHURCH.—The Rev. Geo. Lawrence,  
who is to occupy the pulpit during his  
absence in Scotland, will arrive in town on  
Thursday to assume his clerical duties.

CONSECRATION.—On Thursday, 24th  
inst., at the Cathedral Church, London, by  
Bishop Oxenden, of Montreal, the Metropolitan  
of the Anglican Church, the Ven. Archdeacon  
Helmuth was consecrated, as coadjutor to the  
Bishop of Huron, under the title of Bishop  
of Norfolk.

CHANGED DIRECTION OF PIERS.—Our  
attention has been called to the fact that  
when the new South Pier is constructed from  
the end of Belvoir's wharf, a large amount  
of the existing wharfage will be cut off, to  
which two streets of the town, which might be  
good business streets, now lead. If this could  
be conserved it would be well, as there will  
be any too much dockage inside, and vessels  
could load and unload here in ordinary  
weather, with perfect safety. We would  
direct the attention of the Harbor Commis-  
sioners to this matter.

POLICE COURT.—C. Crabbe Esq., J. P.,  
on the bench. On Monday 28th inst.,  
Mr. Wm. Bailey charged David Ryan and  
William Ryan, with two separate assaults  
at the Nile. Proved. Fine in each case  
\$4.00 and costs.

Mr. Wm. Hyslop charged Gilbert  
Shannon, with assault. Proved. Fine  
\$4.00 and costs.

STONE FOR THE HARBOUR.—2,000 cords  
of stone have been quarried and delivered.  
The contract asks for 10,000 cords more.

THE MANITOBA.—This splendid steam-  
er, which called here on her way to Lake  
Superior, went on a rock near Isle Cove,  
Manitoulin, on Wednesday last, where  
she remained till Friday night, when she  
was taken off by the steamer Frances Smith  
without damage. She leaves Collingwood  
on Wednesday, 30th inst., for  
Fort William.

THE CANADIAN ILLUSTRATED NEWS for  
August 19th contains double page view  
of town of Goderich also view of Court  
House and Salt-works, price 10c. sent  
to any address or receipt of price by H.  
Armstrong, Telegraph News Depot, God-  
erich.

MRS. SIMMS CONCERT was a very en-  
joyable entertainment. Mr. Locke Rich-  
ardson's elocution was perfect and his  
personation of female character of both  
the fashionable and "Candle" types was  
very accurate. Mr. Tom Taylor, singer,  
reader or reciter, was very much at home  
in his chosen parts and delighted the  
audience; his "Come under my plaidie"  
and "The man that couldn't get warm"  
bringing down the house. Miss Watkins  
has a highly cultivated voice and the people  
of Goderich will be glad to hear her  
again. Both she and her sister are accom-  
plished pianists. We can only reiterate  
our former eulogies of Mrs. and Dr. Thompson,  
Mrs. Simms and Mr. Dixie Watson, who are  
always good and always appreciatively  
listened to. The audience was one of the  
most select which ever assembled here.

REGISTRATION.—Mr. Hays has returned  
from the North Riding, where, it is  
rumored, he has been selecting a site for  
the new Registry office, lately beginning  
to be talked about. We hope he will  
adhere to the "Combination" policy of  
"supporting supporters," and not forget  
the prominent claims to his residential  
smiles which Smith's Hill and Denhamer  
can rightfully urge. As a new Registry  
office could be specially calculated to  
upset everybody's convenience, the in-  
convenience of those places could be no  
objection to them.

THE ANNUAL SHOWING MATCH.—The  
annual shooting match of the 33rd Batt.  
takes place at Clinton, on the 31st and  
1st September. Those members of the  
Huron Rifle Company who intend taking  
part in it are requested to leave their  
names with Ensign Hazlehurst, with a  
view to target practice previous to the  
match. Ammunition for practice will be  
given to members of the company actually  
going to compete.

GOOD SPRING WHEAT.—Messrs. Seg-  
miller and Martin have shown us a  
specimen of a splendid, bearded red  
wheat grown a mile and quarter from  
town, sown on 20th May and harvested  
on 18th inst. The crop will be 30 bushels  
to the acre, the grain is plump and heavy,  
with more of the appearance of fall than  
spring wheat, and as many as 102 grains  
have been counted in one head. The seed  
was imported from Runfeshire and  
Lancashire in Scotland, and will  
make a valuable change from the seed  
sown around here. We suppose the firm will  
only sell for seed-wheat, for which  
purpose our farming neighbors should be  
glad to give a good price for it.

PUBLICITY, NOT CHAFFINERY, is the  
characteristic in advertising. Make your  
contracts with the HURON SIGNAL.

HOPE FOR BAYFIELD HARBOR.—The  
government Engineer, Mr. Page, has  
been in town visiting M. C. Cameron  
Esq. M. P. Mr. Page is going down to  
examine the Bayfield harbor.

A TRAMPING KRYPTOMANIAC.—On  
Tuesday last, John Bethune, whose  
crime we already referred to, was tried  
before his Honor Judge Brough and  
clearly convicted of stealing a \$20 watch  
from Mr. Elliott, of Ashfield. His  
Honor deferred sentence until Wednes-  
day at 11 a. m., when the verdict of the  
Court was—Three years in the Peniten-  
tiary. The prisoner, who was well-  
dressed in broadcloth, received the sen-  
tence in broadcloth, "hoo-hoo," but  
never a tear came. On his trunk being  
searched, it contained such a heteroge-  
neous collection that Bethune was con-  
cluded can only be, that Bethune was  
going around the county picking up what-  
ever he had laid his hands on. Coat,  
pant and vests of all sizes. Boots and  
shoes of all numbers. Five purses all  
with money in them. Money in pockets.  
Money in mitts. Money in stockings.  
Money knotted into rags and hanker-  
chiefs. English coppers and silver.  
Nova Scotia and Prince Edward Island  
money. American and Canadian Cur-  
rency. British and American gold. The  
money altogether amounted to over \$80.  
There were also two watches besides the  
one stolen. Papers in his possession  
describe him as John Beaton, who had  
been on military duty in Prince Edward  
Island in 1868, and there is a deposit re-  
ceipt from a P. E. I. Bank for £17, in  
his name. He has been giving himself  
several aliases. On his way down to  
Ashfield, having discovered that Mr. and  
Mrs. James Somerville, Lucknow, were  
away from home, the prisoner took pos-  
session of the house for over three hours,  
ordered their little daughter to prepare  
dinner for him, and kept her in a state of  
extreme terror. The same party is  
thought to have been round the vicinity  
of Wroter, familiarly known there as  
"Winkle-dinkie." It is well his progress  
in this neighborhood has been arrested.  
Three years at Kingston may stop his  
predatory inclinations.

ACCIDENT.—John McKay, a burly  
Gael, at work on the Bridge Hill contract,  
was buried under a slide of nearly a ton-  
weight of the embankment, on Wednes-  
day last. When taken out, he was found  
lying on a narrow which was demolished  
by the collapse. Another kind of  
man would have been killed, but "here"  
though severely hurt, is getting round  
again all right.

THE VERY IMPROVEMENTS WANTED.—We  
have felt sorry that so many of the  
corner lots on the Market Square, have  
been left so long unimproved. We are  
glad to see Mr. Crabbe making steady  
progress with his new block, which we  
understand will comprise three spacious  
stores. At the corner of Hamilton st.,  
again, we have been pleased to see a de-  
posit of stones for the foundation of a  
new block. Messrs. Small and Crook, in  
this issue, advertise for tenders for the  
construction of four stores on this ap-  
pointed site. There is not a corner lot  
around the Square that would not hand-  
somely pay the owner to erect a good building.

AN OLD FRIEND.—We are very glad  
to hear that the Rev. Mr. Carmichael,  
of St. George's Cathedral, Montreal, will  
preach in St. George's Church here on  
Sabbath evening next, and on Monday  
evening, will give readings for the ben-  
efit of the Church. His well-known  
eloquence will make our citizens glad  
of the opportunity of again listening to him.

PUBLIC SCHOOL TENDERS.—A Special  
Meeting was held on the evening of  
Monday, 24th inst. Present, Mr. Le-  
froy in the chair, Messrs. Kay, Crabbe,  
Ferguson, Elliott, Swanson and Nairn.  
A letter was read from Miss Newton,  
requesting to be allowed to resign her  
position as teacher of West St. School  
at the end of this month, and intimating  
that the services of Miss E. Donoghue  
could be obtained, if the Board approved.  
Mr. Crabbe moved, seconded by Mr. Swan-  
son, that Miss Newton's resignation be  
accepted. Mr. Kay objected to allowing  
engagements to be broken in this way,  
unless some urgent reason could be as-  
signed. Miss Newton explained that if  
she were allowed to leave at the end of  
September, she could obtain more lucra-  
tive employment, which she would use if  
detained after that date. Her resignation  
was then unanimously accepted and all  
the Members of the Board expressed their  
regret at losing so efficient a teacher.  
Mr. Crabbe said Miss Donoghue, whose  
name had already been before the Board,  
and who had a first-class certificate during  
pleasure, would be a very fit person to  
fill the vacancy. Mr. Kay could not  
agree to that, having no knowledge of  
Miss Donoghue's abilities. Mr. Swanson  
had more interest in this school than he  
had in any other, or would have until  
the St. Andrew's School was built, be-  
cause his own children were attending it,  
and he wanted an experienced teacher  
for it. Mr. Nairn suggested the ap-  
pointment of Miss Trainer to West St. School,  
and the new teacher could be put in her  
place. Mr. LeFroy was just going to say  
that he believed in the "graduated scale"  
of salaries and thought that the older teach-  
ers should get no benefit of the high  
salaries. Mr. Crabbe believed in  
higher salaries, and thought no  
more should be paid than teachers could  
be got to work for. He proposed Miss  
Donoghue for West St. School, because he  
had no doubt she would gladly take \$200.  
Mr. Elliott thought some of the present  
teachers should be taken to the West St.  
School at the higher salary, and the new  
teacher they got placed in the Central  
School under the Principal's eye.  
It was moved by Mr. Elliott, seconded by  
Mr. Swanson, that Miss Trainer be ap-  
pointed to West St. School, for the first  
year at \$275 per annum, and  
Miss Donoghue to Miss Trainer's room for  
the same period, at \$225 per annum.  
It was moved in amendment by Mr.  
Crabbe, that Miss Donoghue be appointed  
to the West St. School, for the balance  
of the year at \$200 per annum. No  
Second. It was moved in amendment  
by Mr. Kay, seconded by Mr. Crabbe, that  
Miss Donoghue be appointed to West St.  
School, till 1st Oct., at \$225 per annum.  
There was voted on the amendment, Yes—  
Messrs. Kay and Crabbe; Nays—Messrs.  
Ferguson, Elliott, Swanson and Nairn.  
Amendment lost. There voted on the  
motion, Yes—Messrs. Ferguson, Elliott,  
Swanson and Nairn; Nays—Messrs. Kay  
and Crabbe. Motion carried. A letter  
was read from Miss Logan, desiring to  
resign her position as teacher in the Central  
School, at 30th Sept., having re-  
ceived an appointment in the London

City Schools, and wishing on account of  
poor health, to reside at home. The  
resignation was accepted unanimously,  
but with regret, on the motion of Mr.  
Kay, seconded by Mr. Crabbe. The con-  
sideration of the question of filling the  
vacancy was deferred to the Regular  
Meeting. There was submitted to the  
Board a certificate from the Council of  
Public Instruction, qualifying Dr. Mc-  
Leant to act as School Inspector under  
the New Act. It was then moved by  
Mr. Elliott, seconded by Mr. Nairn,  
that the Board get plans and speci-  
fications for a School in St. An-  
drew's Ward, of the same dimensions  
as that in St. David's Ward. Messrs.  
Kay, Crabbe and Ferguson thought on  
account of the lateness of the season it  
would be advisable to defer the construc-  
tion till spring and at present get an  
assistant to Miss McMahon, whose school  
was too numerous to attend for one  
teacher. Mr. Swanson pressed the mo-  
tion to a division. As the question was  
moved that St. David's Ward School  
was too large for one room, and too  
small for two rooms and as it was urged  
that it would not be advisable to repeat  
the mistake in St. Andrew's Ward, it  
was moved by Crab, seconded by Mr.  
Ferguson that the discussion be post-  
poned to the Regular Meeting. FOR THE  
AMENDMENT Messrs. Kay, Crabbe and  
Ferguson. FOR THE MOTION Messrs.  
Elliott, Swanson and Nairn. The vote  
being a tie, Mr. LeFroy, the chairman,  
gave his casting vote for the Amendment  
and the motion was lost. Mr. Swanson  
threatened some of the members with a  
day of reckoning at the hands of St.  
Andrew's Ward and the meeting adjourned.

THE BRADSHAW PLUM.—Mr. John  
Harrison has sent us a few Bradshaw  
plums, the finest and largest we have  
seen this or any other season. It is  
much to be regretted they are too early  
for the Show, for we do not think they  
could be beaten.

ALLAN LINE OF STEAMERS FROM  
QUEBEC.—For Liverpool, Nestorian, Aug.  
26; Scandinavian, Sept. 2; Sarmatian,  
Sept. 9th; Moravian, Sept. 10th;  
Austrian, Sept. 23rd; Prussian, Sept.  
30th; Scandinavian, Sept. For Glasgow,  
Corinthian, Aug. 31st; Ottawa, Sept.  
7th; St. David, Sept. 14th; St. Andrew,  
Sept. 21st; St. Patrick, 28th. Apply for  
tickets to P. H. Carter, agent, Grand  
Trunk Railway, Goderich.

THE SIGNAL reaching every post office in  
Huron, many in Bruce and having a very  
extensive circulation, is the best adver-  
tising medium in this section.

The Cholera.

Unhappy Europe! hardly passed  
through the trying scenes of a terrible  
war when that scarcely less to be feared  
 scourge the cholera appears. If we re-  
member right it was immediately after  
the war of '66 that it last appeared.  
There is no doubt that the people who  
suffered most devastations of war will  
for many reasons be the chief sufferers  
now. No sooner has man satisfied his thirst  
for revenge than God asserts his right to  
vengeance. Our own country was during  
the last visit of the cholera to America,  
remarkably free from its attacks. Let  
us hope that the active sanitary precau-  
tions taken in our larger cities with the  
sanctity of our climate and the general  
intelligence of our people may render its  
effects powerless with us.

Our own town is eminently fitted to  
resist the attack of this hated monster.  
The looseness of the town, the fresh breeze  
and its sandy soil all militate against  
its affording a welcome to the disease.  
However sanitary precautions should be  
most scrupulously taken, and as one of  
them we would suggest to the city fathers  
a general reduction in the force of  
live stock, as cows, pigs and geese. This  
weather, if the cholera comes or not, it  
would be highly satisfactory. Com.

The Bread Question.

To the Editor of the Signal.  
SIR.—Two articles have appeared in  
late issues of the Signal, concerning the  
exorbitant price of bread in Goderich,  
but they have passed unheeded at the  
extortion continues still. There is no  
remedy except in the establishment of a  
Joint Stock Bakery. The suggestion is  
good, and if carried out it will get support.  
I have always observed that on the  
slightest rise in the price of flour, the  
price of bread was raised forthwith, but  
it might keep falling for months with-  
out the least reduction in the price of  
bread.

An Unwilling Sufferer.

County News.

WROXETER  
New Mill.—The new Grist Mill  
erected by the Messrs. Gibson, is nearly  
finished. It will be ready for work in a  
short time.

ASTROLOGY.—Madame Monsieer, Sec-  
ing their last and most talented energies,  
returned whimpering to their celestial  
kennels, like so many whiffled spaniels,  
leaving the great hydrophobic extragan-  
za a failure of the season. Musquitoes  
it happily the race have not already be-  
come extinct by force of drought, as well  
as frogs of all sorts, they must always  
henceforth be looked upon, in the light  
of fossils with certain other defunct  
genera, such as that recently extingui-  
shed brood of forked animals which cer-  
tainly to exist at an earlier period of the  
days by the mandate of Dr. Sower Ryan-  
son. This evening (Wednesday) at an  
early hour, a sudden and tempestuous  
rush of electric wind occurred, which set  
the forest trees groaning and creaking,  
and the howling of man, monkey and  
beast, as if they had been living things.

With a simultaneous impetuosity, the  
lightning, with fearful brilliancy kept in-  
cessantly shooting through the forest  
storm cloud, and the long-sighed-for rain  
thus heralded by wind and fire, did come  
at last. In volumes so weighty as were  
to resemble the violence of a water-  
spout. The temperature, and although wa-  
tered in coolness, and although watered  
still continued to be a serious denudation  
any more this season, of animal nature  
exhibiting tokens of entire demoraliza-  
tion.

FALL WHEAT.—From all parts the  
accounts of the Fall wheat harvest are  
favorable in the extreme. I have not  
yet heard of a single instance where the  
yield has been under thirty bushels to  
the acre, whilst in some instances it

AINLEYVILLE

RAILWAYS.—The London shone  
wanting sectional bonus of \$20,000 from  
Morris was defeated by the council re-  
fusing to submit a By-law to that effect  
as Petitions from the ratepayers of said  
section showed that the majority were  
opposed to it. A deputation of the  
Wellington Grey and Bruce intend to  
make a general canvass through those  
Townships before the voting comes off.  
They are expected here next week.

RAINS.—This long looked for blessing  
has come at last, we had a fine shower  
today but we still look for more.

BUSINESS.—It has been rather dull for  
the past few weeks owing to farmers be-  
ing engaged at the present, but as that  
is now about over a rush is expected; but  
I think the merchants are ready for them  
especially Livingstone as he is daily  
receiving large consignments of his fall  
stock and judging from quantity and  
looks, I would say that it is the finest  
and largest ever brought into this place.  
It looks as if it would stand a good sign.  
Wright & Ross are also preparing, but  
the greater bulk of theirs is yet to come.

Imported Stock.

Two stock breeders—Mr. Chas. Mason,  
of Tuckersmith, and Mr. Jos. Fisher of  
Colborne—recently arrived at Clinton  
station with their imported stock from  
England. The Clinton New Era says  
the steamer Germany brought out to  
Ontario 101 head of stock, viz:—  
Richard Gibson, 13 head of cattle, 1 bull,  
10 pigs, paving as high as £75 sterling  
for one pig; Jos. Kirby, 8 sheep, 1 pig,  
and 9 chickens; Mr. Thompson, of  
Whitby, 8 cattle and 3 pigs; Mr. Stanton,  
of Thornhill, 15 cattle; William and  
Hugh Campbell, a cow and calf each;  
Charles Mason, of Tuckersmith, 2 entire  
horses; Jos. Fisher, of Colborne, 3  
entire horses, 1 filly, also 2 pigs, which  
he calculated had cost him, laid down at  
Clinton about \$150 each! Mr. Fisher's  
pigs were beauties, a young boar 8  
months old supposed to weigh about 400  
lbs., and a sow of the same age, both  
Suffolks. His filly was a fine one, as  
were also his entire horses, one especially,  
a coach horse, Cleveland Bay, the first  
coach horse ever imported direct into  
Huron from England, also an immense  
heavy draught colt two years old. The  
coach horse showed a great deal of spirit  
in the way he let out his hind legs.  
Charles Mason's were two entire horses,  
one 14 months old a perfect picture,  
"Cambridgeshire Bob," a black with a  
white star. He was pronounced by all  
present to be the handsomest horse in  
the county. The second was a bay colt,  
unbroken, but which showed immense  
brawn and large bone. Mr. Mason ex-  
pects to do well with both. The colt  
was rather still in his hind legs from  
falling out backwards from the car at  
Clinton, but a few days rest will set him  
right. We cannot speak too highly of  
the valuable services such men as Mason  
and Fisher are rendering to the farmers  
of Huron, and we hope they will reap a  
substantial reward for their enterprise.

DIED AT MANITOBA.—The Manitoba  
Liberal, of the 9th of August, announces  
the sudden death of Mr. Wm. H. Hunt,  
an immigrant lately arrived from the Town-  
ship of Hewick, Huron, Ont. He died  
on Sunday evening, 6th, and was interred  
in St. John's burying ground on Monday.  
The deceased had been in delicate health  
for some time, and the hardships of the  
journey from Ontario were more than he  
could bear. He leaves a wife and four  
children, and a large number of friends.  
In his last moments he was attended by  
many friends, for whose kindness Mrs. Hunt  
desires to express thanks.

MORRIS.

The Fall Show of the Branch Agricultural  
Society will be held at Blyth on Thursday  
5th October.

AMBERLEY.

DEI DAY GLEANINGS.—The heat has  
for several days past been very intense,  
literally overpowering to the muscles  
and nerves of toiling humanity, and  
also the mental as well as to fit animal  
functions; just as if that old pug-nosed  
pendle-curd cur, Sir Isaac Newton, had  
privy consultation had come to the unani-  
mous resolution of giving a grand final,  
to the malignant and whimsical freaks  
of the dog days, by turning, not only the  
entire canine race, but every species of  
creature which nature admits within  
her animal code, into a rabid state in  
order to afford an interesting spectacle to  
the gods. Animal nature, however, ex-  
isting as it does, in such an incompre-  
hensible infinity of forms and varieties in  
point of structure, size, and being, pre-  
vailed rather extensive and complicated  
field of action for the circumscribed  
genius of the mind, and undogmatic and  
virtuous, but most talented energies,  
returned whimpering to their celestial  
kennels, like so many whiffled spaniels,  
leaving the great hydrophobic extragan-  
za a failure of the season. Musquitoes  
it happily the race have not already be-  
come extinct by force of drought, as well  
as frogs of all sorts, they must always  
henceforth be looked upon, in the light  
of fossils with certain other defunct  
genera, such as that recently extingui-  
shed brood of forked animals which cer-  
tainly to exist at an earlier period of the  
days by the mandate of Dr. Sower Ryan-  
son. This evening (Wednesday) at an  
early hour, a sudden and tempestuous  
rush of electric wind occurred, which set  
the forest trees groaning and creaking,  
and the howling of man, monkey and  
beast, as if they had been living things.
