COUNTY COUNCIL REPORTS

Particulars of Business Passed in Committee.

Following are a number of the reports of committees and others at the recent session of the county council which were crowded out last week:

THE POOR HOUSE.

The following report of the poor house committee was read and adopted. (The committee were McMillan, Kelly, Strachan, Cameron and Wilson.)
Your committee beg leave to report that having advertised for tenders for a suitable site for a poor house, we have received 24 tenders, and should this council decide to establish a poor house for this country, we recommend the selection of one of the following sites, the cost of which are as follows:
Lot 7, Huron road, Goderich, 53 acres, at \$45 per acre.
Lot 3, con. 2, Goderich township, 70 acres, at \$45 per acre.
Lot 23, con. 10, Hullett, 91 acres, at \$65 per acre.
Lot 24, con. 10, Hullett, 60 acres, at \$63.50 per acre.
Lot part 11th and part in East Waterloo, 70 acres, at \$70 per acre.

Your committee have also corresponded with the clerks of the counties of York, Middlesex, Waterloo and Wellington, as to the plans and cost of their buildings, etc., and find they cost as follows:

- County of York, \$19,000
- County of Middlesex, 30,000
- County of Waterloo, 165,000
- County of Wellington, 21,300

From the correspondence we gather the following facts in reference to site, buildings and cost of maintenance of inmates: That a small farm is more profitable than a large; that a low building, while not so imposing as a public structure, is more suitable for old and infirm inmates, and that the cost of maintenance of each inmate per year, for last year, in Waterloo was \$41 71, including keeper and other charges.

J. McMillan, Chairman.

REPORT OF MR. MALLOCK, I. P. S.

GENTLEMEN, - During the year I examined every school in the incorporated and a large number of them twice, but owing to ill-health in the early part of the year was unable to take them all a second time. I may state that as a general rule I take two schools each day and under no circumstances do I take any more than 125 in a session. In some cases I have taken only one, when the attendance was so large that all could not be examined in half a day.

The great majority of the schools is making very creditable progress, particularly with reference to the improvement and a large number of them twice, but owing to ill-health in the early part of the year was unable to take them all a second time. I may state that as a general rule I take two schools each day and under no circumstances do I take any more than 125 in a session. In some cases I have taken only one, when the attendance was so large that all could not be examined in half a day.

(3) That no action be taken in the meantime with regard to heating the jail with water, and that the three stoves be protected with iron grating for the safety of the patients.

(4) We visited the jail, and found everything clean and in good order, and 13 inmates, 6 males and one female, 5 being insane and 1 under sentence as a vagrant, all satisfied with their treatment.

WM. McPHERSON, Chairman.

REPORT OF ROAD AND BRIDGE COMMITTEE.

The following report of the road and bridge committee was read and adopted:

We recommend that the tender of Joseph Nease, being \$2,810 for building the abutments of Port Albert bridge, be accepted.

That the repairs recommended by Mr. Ainsley on Zeland bridge be proceeded with at once, and that, if he thinks advisable, the east end be filled up, thus shortening the span by about 50 feet.

That on account of the stone abutments of Brussels bridge being already built we recommend that an iron superstructure be built with foot path.

That the approaches of Griev's bridge be put in a proper state of repair as soon as possible, and that with the foregoing suggestions Mr. Ainsley's report be adopted.

That the road commissioner be instructed to have the approaches of Kipp ridge put in proper state of repair, and also the holes in Maitland bridge.
