

UNIONIST LEADER ON TARIFF REFORM

David Lloyd-George, brilliant Chancellor of Exchequer, will reply to Roseberry and Balfour—Women Will Take Prominent Part in Impending Campaign.

London, Sept. 22.—Great Britain is about to witness the opening of a series of great political orations. Lord Roseberry, portly, bland and brilliant, has already spoken and is planning to speak again. He declares that the revolutionary budget will not permit him to keep silent.

Women Will Add Color. Women will add spice and color to the campaign and many hundreds of them will participate in the public speaking. The University of London called anti-socialists, alone, will send out 500 women speakers.

Balfour's speech at Birmingham tonight contained nothing aggressive and defiant as Chamberlain's message. Approval was roared from 5,000 throats when it was known that the veteran statesman, colored retirement at Highbury, was eager to have the Lords throw out the budget and force a general election.

Mr. Balfour's own success in commanding the warmest welcome which he has ever received at Birmingham was due to his unequivocal acceptance of Mr. Chamberlain's cause.

Mr. Balfour's own success in commanding the warmest welcome which he has ever received at Birmingham was due to his unequivocal acceptance of Mr. Chamberlain's cause.

BOTH SPRUNG TO DEATH.

Husband and Wife Lost Lives in the Burning of Home in Montreal.

Montreal, Sept. 24.—Crazed with fear by the explosion of an oil stove in the tiny room, where they made their home, Theodore Verette and his wife yesterday jumped from the window to the yard beneath, a distance of forty feet. The man was instantly killed and the woman so badly injured that she was removed to Notre Dame hospital.

The accident took place at 1072 Notre Dame street east, where the Verettes have been living since last May, the entire top floor of the house being let to roomers by the tenants, Mr. and Mrs. O. Deschamps.

The room is small and the oil stove stood on a box not far from the door. When Mrs. Verette stepped to light it, the stove exploded and the flames were driven across the room, apparently shutting off escape by the usual egress.

Crazed by fright, Verette rushed out to the wide roof of the gallery, which is almost flush with the wide ledge, and jumped to the yard below, his wife following him.

When Mrs. Verette stepped to light it, the stove exploded and the flames were driven across the room, apparently shutting off escape by the usual egress.

When Mrs. Verette stepped to light it, the stove exploded and the flames were driven across the room, apparently shutting off escape by the usual egress.

C. & E. LANDS ARE FORFEIT TO STATE

Deputy Attorney General Woods Makes This Claim in Appeal in Supreme Court.

The appeal of the Calgary and Edmonton Land Company Limited from the judgment of His Lordship, Chief Justice Sifton, was argued today in the Supreme Court.

The land in question includes some 50,000 acres, composed of sections and parts of sections adjacent to the C. & E. railway and held by the C. & E. Land Company by reason of an assignment to them by the railway in 1906.

The appeal was opened in the court on Tuesday afternoon and was argued by Mr. J. B. Bennett, M.P.P. of Calgary, C. P. R. solicitor, conducted the case on behalf of the C. & E. Land Company and Sidney B. Woods, deputy attorney-general, appeared for the province.

The case which is one of great importance because of its bearing on the effort of the Alberta government to secure the taxation of all C.P.R. lands in the province was first argued in Calgary on December 15th, 1908, before Chief Justice Sifton.

The land in question includes some 50,000 acres, composed of sections and parts of sections adjacent to the C. & E. railway and held by the C. & E. Land Company by reason of an assignment to them by the railway in 1906.

ONE HUNDRED LIVES LOST IN HURRICANE

Immense Area Laid Waste by Terrific Storm Which Raged for Twenty-Four Hours—Millions of Dollars Property Damaged.

New Orleans, La., Sept. 22.—Forty-five known dead, fifty-five others reported dead and a property loss running up into the millions is the latest report from the district ravaged by the hurricane which raged from Sunday night until Monday night.

The known death list in the lower portion of Terrebonne Parish now numbers eighteen. Many others were drowned or crushed in the flying debris of wrecked mills and dwellings.

The Mississippi Coast Traction company's road of eighteen miles between Long Beach and Biloxi is almost a complete wreck and the loss will be a million dollars.

Handfuls of fishing boats, schooners, cat boats and launches were crushed like eggshells on the beach. Although the storm had been over for some time, the water was still high and several orange canoes were being driven about.

Many trunks of the storm are reported at Gulfport, where a large two masted schooner, heavily laden with oysters, resting on its front yard. In several instances schooners crashed through residences, one home at Gulfport being cut in two in this manner.

At Biloxi the fishing smack, Cincinnati, was swept through several high high harbors, where fences and buildings were blown away.

THEY STAND IN AWE BEFORE THE INFLEXIBLE

British Cruiser-Battleship Astounds U.S. Naval Critics With Her Size and Evident Strength—Great Naval Pageant at Hudson-Fulton Celebrations—British Seamen-After Battenberg Trophy.

New York, Sept. 24.—The English and German fleets came into the North River with the rain today, closing the gap between the American and French fleets. Now from the docks off Forty-second street to Spuyten Duyvil Creek there stretches a mile of naval pageant representing more than a million tons of steel and bottled up destruction gauged in tons than this hemisphere has ever seen before.

After the Kaiser's representatives were settled in their berths a booming from down the river announced the entry of the British fleet led by the big armored cruiser Inflexible. The Inflexible was the eye opener for the British fleet.

The Inflexible was the eye opener for the British fleet. She rode low in the water, a displacement of 17,250 tons and four turrets armed with eight 12-inch guns.

For some time the witness has been at work installing new presses and everything was arranged to run off the enlarged paper tomorrow.

BANGS SEES THE HUMOROUS SIDE

(Continued from Page One.)

brought. Dr. Cook said he had a long consultation with President Huntington of the American Geographical Society and that the latter expressed unbounded confidence that Dr. Cook would succeed in reaching the North Pole.

Mr. Woods' Argument. Mr. Woods argued that the circumstances of the appeal case showed that in 1906 the lands in question did not belong to Canada and if in 1906 it did belong to Canada, then the interest of the C. & E. Land Company was assessable and could now be forfeited because of the assignment in 1906 to the province.

Mr. Bennett in reply to Mr. Woods argued that the C. & E. Land Company was entitled to the title under statute and not under the Dominion Lands Act.

9 MILES TO BE CONSTRUCTED

Yet on National Transcontinental Between Winnipeg and Superior.

Winnipeg, Sept. 24.—McGillivray, assistant district engineer of the Superior division of the National Transcontinental railway, is in the city for a few days.

Given up as Lost. Ottawa, Sept. 24.—George Caldwell, official of the marine department, who started a boat trip from Chesterfield to Slave Lake, has been practically given up as lost.
