"Canada" on Morris's Latest Blunder.

We give an extract from "Canada," published on July 13th, last. It will be seen that outsiders have expressed much the same opinion of Morris's latest venture in the Money Market as we did. Here is what is said. The black type is used in republishing part of it to emphasize the points brought out.

A Sign of the Times.

"Before this copy of 'Canada' comes into the hands of our readers the prospect of another British North American issue will be before the public as underwriting is now in progress for a N. F. issue of 3½ per cent. stock. We understand The Ancient Colony seeks a loan of £400,000 stg., the stock will be issued at 93 per cent. We have repeatedly alluded to the growing difficulty experienced in underwriting new Canadian issues and the terms upon which the N. F. issue is being arranged is pregnant with meaning. The underwriters are to receive one and a half per cent commission, a rate which has not been paid for many years on a Government Stock which comes within the category of Trustee Investments. The market for N. F. stock has never been a good one and it is doubtful whether it will be applied for very freely by the public although we understand that a bait representing about a £1, 0s. 0d. in interest will be thrown in, with the relatively low price of 93 making the yield a very attractive, a 3½ investment without allowing for profit or redemption."

An Outrage.

As Miss Gertrude Whiteway, who has been ill for a long while and who is an invalid, was seated in her bedroom in the rear of her residence, Dunford Street, last night at 10 o'clock, some miscreant threw a large stone through her window and scattering fragments of broken glass were strewn about her. The missile barely escaped her face, and had she been hit she would have been seriously hurt. She was so badly frightened that she became weak, was seriously ill all night as a result of shock, and her parents had to remain up with her. Just before the window was broken a man—not boys—were heard talking outside, and it was one of these who hurled the stone. This is in possession of her brother at Steer's grocery store, and he gave the facts of the case to Inspector General Sullivan to-day.

Suspected Infanticide.

This morning the body of a female child was discovered in a manure heap of a farm near the city. The police station was communicated with and Constable O'Neill was despatched to the place. The officer had the body wrapped up and brought to the morgue, where Dr. Mitchell examined it. The physician pronounced that the infant had succumbed from exposure, also that it was not long dead and must have been placed in the manure heap last night. The police are now endeavouring to find the mother of the child.

The Police Court.

A drunk and disorderly, who was also charged with indecently exposing himself, was fined \$10 or 30 days. A man charged with being drunk whilst in charge of a horse was fined \$2 or 7 days. A charge of larceny was dismissed. A drunk was discharged. A prosecution under the Customs Act was postponed for six weeks.

A SPLENDID RUN.—The Olinda, Capt. Courtenay, arrived here to-day after the very quick run of 24 days from Macao. But for foggy weather on the coast the vessel would have made a record run. She made the run to Brazil in 28 days.

If your teeth are fit, chew, chew, chew, until the food is liquid and insists on being swallowed.

If teeth are faulty, soften Grape-Nuts with hot milk or cream, or allow to stand a minute soaking in cold cream.

"There's a Reason" as follows: Grape-Nuts food is in the form of hard and brittle granules, intended to be ground up by the teeth; that work not only preserves the teeth but brings down the saliva from the gums so necessary in the primary work of digestion.

Many people say (and it is true) that when they eat Grape-Nuts they seem able to digest not only that food but other kinds which formerly made trouble when eaten without Grape-Nuts. Chew!!

Another Schooner Gone.

FOUNDERING ICEBERG SENDS HER TO BOTTOM.

Wednesday a message was received by an uptown firm from Belle Isle in the Straits, saying that the Schr. "Seven Sisters" of King's Cove, and owned by Aubrey Brown, had been sunk by the foundering of a big iceberg, many of which are about that place. The crew escaped after running the risk of their lives. There is plenty of fish there and the schooner, it is thought, was half filled with cod. The vessel is insured but to the great loss of the owner and crew the fish is not. The crew it is believed lost most of their belongings.

REGATTA WRINKLES.—A Good Tip to the boys is to have their clothes thoroughly cleaned and pressed four or five days before the Regatta. The small cost is not considered compared to the smart appearance given to your suit. Send them as soon as possible on Monday or Tuesday to SPURRELL BROS., 365 WATER STREET, OF PHONE 574 and we will call, and we will deliver Tuesday evening. DO IT NOW. Next door to Parker and Monro's.—Aug. 1st.

Wholesale Robbery.

A daring robbery, under peculiar circumstances has been committed in the city and the police are now working on the case. The nature of the theft, we hear, is that a quantity of canned goods, wrappers, etc., were removed from a large wholesale establishment and conveyed to another business house where the unknown perpetrators have the stolen articles concealed at present in the hope of retelling them. Certain parties are now being shadowed by the police and it is expected that the problem will shortly be solved. Very little clue of the culprits is held by the police who expect to run them down in due course.

WILL PROTEST.—Four of the intending mercantile crews, we learn, will protest against the crew to represent the Reid Nfd. Co. in that race. It is alleged, some of the crew are Mercantile—Labourers, and must be mercantile—Amateurs.

MEN VERY SCARC.—Mr. D. McFarlane, who had been on an extended trip over the island, returned by the Bruce express to-day. He says that work is progressing at the York Hr. mine but laborers and miners are very scarce and greatly impedes development.

BRUCE PASSENGERS.—The Bruce arrived at Port aux Basques at 6.55 a.m. to-day, bringing L. H. Muller, H. Jones, Major B. L. and Mrs. Burton, T. G. Bowen, T. J. Hayse, Capt. H. B. Saunders, Miss J. Mills, Mrs. M. Ebsary, Miss F. Hudson, Mrs. G. Chalker, Mrs. R. Stures and Mrs. J. Smith.

PRIZES FOR POULTRY.—The Nfd. Poultry Association sent circulars some time ago offering cash prizes in the outports for the largest number of thoroughbred chickens that would be raised. The competition closes on the 15th of this month. Some entries have come to hand and those competing should hurry and send along their entries.

BEING SENT HOME.—The lad Albert Temple, who was killed near Caplin Bay, on the Trepassay branch, yesterday forenoon, was boarding one of the moving cars, when he missed his footing and fell under it. The R. N. Co. yesterday advised his parents of the death of their son through the clergyman at Chapel Arm, and the body, which has been confined, will be sent home for interment by this evening's express.
