TORIC LENSES

ARE MORE BECOMING THAN FLAT LENSES.

The edges of Toric Lenses do not show as prominently as those of flat lenses. They fit in close to your eyes. You will find Torics much more becoming and useful. They give you a wider, clearer field vision. You should know about Toric Lenses. Let us explain them.

The Value of our Guarantee.

A valued shareholder of this Company has very pointedly raised the question "What does your guarantee mean?" and because our answer must necessarily be of great interest to every investor, we are making it public. Every dollar that we accept for Perfection shares goes into the Treasury of the Company, and as a guarantee of its safety, there is behind it—1. The entire plant, machinery, equipment, real estate, etc., of the Perfection Tire Co. as located at Madison and Wabash. 2. The entire assets of the Chicago Brokerage Co., who is marketing the shares. Their sworn surplus for August last was \$697,560.93, and one item alone of their assets is estimated at \$33,000,000. 3. The entire assets of this Company and the share-holdings of the Directors. We consider No. 2 item to be absolute security for all the business we accept.
