A FORMAL DENIAL.

WASHINGTON, May 13. United States Secretary of War Baker, to-day, added his formal denial to that of Lord Reading, regarding statements as to the disposition of American forces in France. He said the facts were directly opposed to the statements, and that American troops were being used actively in battle, and in such ways as to meet with the approval of General Foch and Pershing. The Secretary dictated the following statement made in the morning papers, purporting to come from Ottawa, "It seems that American forces in France will not be used actively for the present, but will be conserved until they constitute a larger and independent American army." The facts, his statement continues, are exactly otherwise, and troops in France are being used actively in the battle and in the trenches, and while all of the plans of the War Department look to the development of the American Army, yet the various elements of it, now in France, are being used freely in the general cause, and in such ways as are deemed most effective. In accordance with General Pershing's action in placing all our forces at the discretion of the Allied Commanders, and of the supreme commander, Baker added, he had no information as to the source of the Ottawa despatch.

## NEW SHIPPING CONTROL.

NEW YORK, To-day. To permit him more freedom of action in connection with shipping control, Sir Connop Guthrie, Director in this country for the British Ministry of shipping, has been appointed special representative of the Ministry, and Tashley Sparkes, Director in the United States of the Cunard Line, has been named to succeed Sir Connop as Director of Shipping. According to an announcement to-night by officers of the Cunard Line, the paramount interest of shipping in connection with the war is universally recognized, and as this country continues to take a larger and increasing share in those burdens, the necessity for a closer and more harmonious working with the British and other Allied shipping interests, becomes of first rate importance. Says the statement, the British shipping controller therefore pays a signal compliment, both to American shipping and Sir Connop Guthrie, in selecting to undertake that work, a man who by reason of his successful handling of British interests in the country, has proved himself eminently fitted to undertake the task.

## Hr. Grace Notes.

The Bible Society meeting held at St. Paul's Hall, last night, was largely attended and very interesting. The speakers were Dr. Boyer, Revs. W. R. J. Higgin, A. A. Holmes and F. S. Coffin.

Mr. and Mrs. George Stewart and Miss Mollie McKay came in from Bell Island yesterday by motor boat on a visit.

The British Band are thankful to "Veritas" in Saturday's Daily News for his unflinching thrust at them. A friend who no doubt read that letter passed over to the President of the Band, a very handsome donation.

Mr. Norman French, who has been home for the winter, leaves for Montreal again to-morrow. Norman wears a rejection badge, and he might be wearing four, as he was twice rejected in Newfoundland and twice in Canada. We wish Mr. French a pleasant summer, and a safe return to his home.

Fresh herring were very plentiful in the market to-day, and sold readily at 25c. per dozen. No sign of codfish yet, but we will soon expect to get some.

Mr. Malcolm Parsons, of the Nfld. Boot and Shoe Factory, was in town yesterday and to-day. All his friends were pleased to welcome him back to his old home.

A son was born to Mr. and Mrs. G. E. Stevenson yesterday. Congratulations.

Mr. I. Forsey is shortly to give a show in aid of the Harbour Grace Branch of the W. P. A.

Work at the Shipbuilding Plant is rushing along at a good rate. A number of happy contented men are working steadily there. The West End is now forging ahead, and will be a hive of industry in the near future. We would draw the attention of the authorities to the necessity of more and better street lights in that neighbourhood. Let the people advocate it, and keep agitating for it until they get this very necessary advantage.

## I'M FOR THIS HOSE

## GOODRICH GARDEN HOSE

It's worth just the difference between a dry, colorless garden and a fresh, green one—a water-spotted suit and a dry comfortable one—the annual purchase of hose and a perennial one that does not need watching with every bend and twist.

You don't have to buy garden hose annually—if you use "Goodrich." It costs less to pay a little more and get hose that lasts for many seasons.

Try "GOODRICH!"

Even the feel of it is different
