(to be continued.)

Are rents, rates, and taxes likely to be higher or lower? Are wages coming down or going up? Are working and maintenance charges increasing or decreasing? Are machinery and power—coal, gas, electricity—becoming dearer or cheaper? Is the cost of transport, repairs and renewals higher or lower? Can we expect any reduction in bank charges, insurance premiums, and postage rates?

Raw Material. "There is, in addition, the question of raw material. If a reduction in the cost of raw material is subsequently overtaken by an advance, the effect of the reduction is cancelled. If there is not a subsequent advance, then it must be remembered that there are many processes to be gone through before the raw material reaches the user or consumer as a manufactured article.

Moreover, the raw material is only one factor in the final cost, and in the case of fine qualities of cotton fabrics, for example, it is a relatively small factor. In the drapery trade it is thought there may be a drop in prices next spring, "due chiefly to warehousemen and manufacturers having in excess of their requirements, or on cancelled orders."

There are some goods, however, which are scarcer and dearer to-day than at any time during the past four years, among these being carpets, velvets, and silks.—Yorkshire Evening Post.

A "Wooden" Wedding. When Miss Ada Oakes, daughter of Mr. and Mrs. J. C. Oakes, of Washington, N.C., became the bride of Walter Pine, of Salisbury, N.C., recently, it proved to be an unusual marriage. The pair decided to have a "wooden marriage." Everything that took a leading part in the ceremony had a name like a tree. For instance—The groom, Walter Pine; the bride, Miss Ada Oakes; the best man, Robert L. Birch; the bridesmaid, Anna Lee Laurel; the preacher, the Rev. Oscar Wood. The ceremony was performed at Washington, N.C., and to make the "wooden favor" complete the couple went to Hickory, N.C., to spend a week with the bridegroom's aunt, Mrs. E. W. Shingle.

Diamonds in Teeth. Twin solitary diamonds flash from the teeth of Mrs. Mabel King Hickman, of San Francisco. One is a memorial to a husband dead 14 years, the other is in honor of her present husband. Diamond studded teeth, in Mrs. Hickman's case, as acceptable a badge of matrimony as the customary plain gold ring. The solitary in one of her teeth was taken from Mrs. Hickman's engagement ring. Her first husband, William King, requested that the betrothal jewel set where it never could be lost. Her present husband, Augustine Hickman, supplied the second diamond.

Diamond Dyes. No Risk Then! Don't Spoil or Streak Material in Dyes that Fade or Run. Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fast color into worn, shabby garments, draperies, coverings, whether wool, silk, linen, cotton or mixed goods.

Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has color card.

Will There Be a Real Fall in Prices? CONSIDERATIONS WHICH WEIGH ON THE OTHER SIDE. "Talk of a slump in prices tends to cause a slump in trade, which produces unemployment and harder times for everybody," said a prominent Leeds business man, in a talk with a Yorkshire Evening Post reporter about trade conditions.

"One hears quite a lot of such talk," he added, "and the quantity that has found its way into print seems to have created a popular expectation that prices are somehow bound to come down. They are not 'bound' to do anything of the sort unless the causes which produce a downward movement operate."

"I like to ask people who say that prices will have to come tumbling down what they are doing towards that end. Are they prepared to accept a reduction of 10 per cent., say, for their labour, or for things they are making or handling? Is anybody, except under pressure? "Prices of boots and clothing are said to have fallen. In my view the main factor in this descent has been financial pressure. People with large stocks of goods for which the demand has decreased have been obliged to unload their goods at reduced prices; but the proof that this is a forced affair lies in the reduction of employment."

"Financial pressure may make a manufacturer unload his stocks at unremunerative prices, but it does not make them go on producing fresh goods to sell at a loss. "As to whether there is much prospect of a natural fall in the prices of manufactured goods in general, answers to these questions would provide a useful guide:

TRY THEM and NOTE EFFECT 1. For Bronchitis, Throat and Respiratory Affections—Take Stafford's Phosphate in two teaspoonful doses every two hours.

2. For Whooping Cough—Take from a half to two teaspoonfuls of Stafford's Phosphate every two hours according to age.

3. For Winter Coughs and Bronchitis—Take Stafford's Phosphate according to directions printed on label.

4. For Asthma and various Lung Troubles—Take Stafford's Phosphate in two teaspoonful doses every two hours.

For Beauty's Sake

Remove that film-coat from your teeth

Teeth cannot glisten with a film-coat on them. You who want white teeth must learn how to remove it.

This week your druggist offers—free—a new way of teeth cleaning. Millions now employ it. Leading dentists everywhere advise it. Go make that test. One week's results will be a revelation.

Film—the great enemy

But this is more than a beauty question. Film ruins millions of teeth. Most tooth troubles are now traced to it.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary tooth paste cannot end it, so the tooth brush has left much of it intact.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing, because brushing failed to end that film.

Now a new dental era

Dental science, after years of research, has found ways to combat film day by day. The methods have been proved efficient by many careful tests. High authorities endorse them. And millions of people now employ them, largely by dental advice.

REG. IN CANADA
Pepsodent
The New-Day Dentifrice

Present this free tube coupon to

THOS. McMURDO & Co., Ltd.,
St. John's, Nfld.

FREE

This week only

At any drug store named below, a 10-day tube of Pepsodent. Simply present the coupon. Let this new way prove itself. Judge by results what it means to you. Learn now the way that millions know to whiter, safer teeth.

Now daily used by millions

MILLIONS of people are now using Pepsodent. You can see the results wherever you look—in glistening teeth.

Women who think their teeth white now should see how they look with the film gone.

With men who smoke the films are apt to be particularly disclosed. They will see the most conspicuous results.

But children need Pepsodent most. Their teeth are most subject to decay. Dentists advise that Pepsodent be daily applied from the time the first tooth appears. It may save them troubles life-long in effect.

The unique effects

One ingredient of Pepsodent is pepsin. Another multiplies the starch digestant in the saliva to digest starch deposits that cling. The alkalinity of the saliva is multiplied also. That to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

The Pepsodent effects come with every application. Day by day they fight the teeth's great enemies. And teeth are protected as they never were before.

See and feel it act

Present this coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

The results are quick and apparent. A little book tells the reasons for them. For your own sake learn how much they mean.

10-DAY TUBE FREE

Present this coupon, with your name and address filled in, to any store named. It is good for a 10-Day Tube of Pepsodent.

Your Name

Address

Out-of-town residents should mail this coupon to The Pepsodent Company, 1104 So. Wabash Avenue, Chicago, and the tube will be sent by mail. Only one tube to a family.
