Grand Rapids was founded about 85 years ago as a trading post and missionary station, but after wandering aimlessly along through the census returns for a few years, it found a real object in life. This object is apparent to anyone who visits the city, or who talks with a Grand Rapider for two minutes. Grand Rapids makes furniture for the United States.

Grand Rapids has been making more and more furniture until the Grand River, is now lined with furniture factories, and the middle of the town is full of furniture exposition buildings. Twice a year the furniture buyers of America come to Grand Rapids to pick out the latest styles in dining-room tables and fine old mahogany beds. No American couple can marry successfully without the aid of Grand Rapids.

Grand Rapids is situated in a valley two miles wide, and also runs up the hills on either side. After its people have grown rich in the factories along the river, they move over to the east side of the slope, and buy autoobiles from Detroit. This enables

One Application and The Hairs Are Gone

Women troubled with fuzzy growths will be delighted to learn that a single application of a paste made with powdered delatone and water will remove every trace of hair or fuzz without pain or injury. If the growth is very thick or stubborn, a second application may be required. The delatone paste is spread thickly on the hairy surface, and after two or three minutes rubbed off, then the Ethel: I am glad you like my canthrox hampoo recipe.

A Model of Convenience

This new Gurney-Oxford gas range comes as an answer to the cry, "More convenience and greater

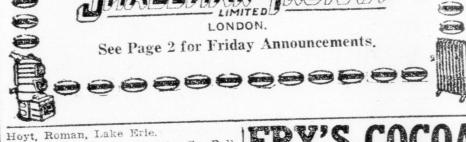

Everywhere women are delighted with its solid one-piece steel top which allows 5 inches more cooking space each way, but occupies no more room in the kitchen than the ordinary range.

It is founded on the most sanitary principles. The burners, connections, oven-linings, racks and porcelain trays all lift out by hand for cleansing.

The two spacious ovens are capable of producing the most delicate baking and broiling as the double circulation of heat to both ovens insures perfect evenness

of temperature-an absolute essential for good cooking. The firm below will gladly explain the economic and sanitary virtues of the Gurney-Oxford range.
