Charming Mistress of 'Cloverlea' and Children Joining Mr. Bowker in Toronto This Month.

Capt. A. E. Reason has purchased the beautiful home "Cloverlea," on Richmond street north, of Mr. E. C. Reason as the Powerlea assisted by Rev. Father Quinlan. The young bride, who was given in marriage by her brother, Major Barry Ashwell, was charming in a smart dress of brown volvet with het and sheet to Bowker, of the Dominion Bank, To-ronto, until recently manager of the London branch. During the years in which they have made their home in the city, Mr. and Mrs. Bowker have been prominent in welfare work, as well as social favorites. Mrs. Bowker, who, as Kathleen Kirchoffer, frequently visited in London previous to her marriage, will be greatly missed by a host of friends.

During my absence, there have been many changes in the Corner. It does not seem to be the mar-riage bureau, seed catalog, public library, pattern counter, etc., that it almost drifted into for a while. it almost drifted into for a while. And one more thing—haven't you noticed how Miss Grey's replies lengthened out to more than a mere: "Seeds sent in last mail." Aug. 42, 1690. "No, not on your life." "Send in your name or forever hold your peace." Why, now, I quite often read the replies before I look at the other. I was quite interested in one paragraph in particular in Flourishing's letter. Her idea of the different religions sounded very pretty indeed, but do we not, especially in deed, but do we not, especially in such serious times, need to pass farther along the way than stop at beauty alone? Comparing re-

ligion to a song of praise is very nice, but is it quite enough? We all know the terrible discords a little child can make on a piano when they pound first with one fist then the other, high, low, anywhere at all.

Then let someone who is older and really understands music play some beauteous composition with poetic feeling, and thorough intellectual and artistic grasp of the contents of the masterpiece The infant, so to speak, dabbles along trying anything that makes sound, while the experienced knows where the concords and discords are, and so following what he knows is right and true, makes music of perfect unison. Then, those not necessarily young who do not fully know their own minds dabble along, like the baby

to another sand hill. If people would study the Bible for themselves, not just letting a little bit in the church service suffice for all the week until the next Sunday comes, they would find out for themselves where they should be, instead of going where the majority of the people where maybe one's own friends go, possibly just as weak-kneed as a day-old child. THE COUNTRY ROSEBUDS. Dear Miss Grey,-Kindly sit over and don't crush the little rosebud, as the frost bit them this morning. It is so long since we sat in your midst you will have forgotten us, but however, we have had a lovely summer, haven't we? We have never lost track of the dear old Mail-Box

as we read it every day. We spent six weeks in London on our holidays, and had a jolly time. We are anxiously watching the Cynthia Grey cot. Now, don't all speak at once. We have a lot of dahlia bulbs and gladioli bulbs. We also have a cactus dahlia which is snow white when it comes out and then turns to a canary yellow. The other kind is canary yellow. The other kind is a single dahlia with a beautiful pink flower with a yellow center. If anyone wants them I would give two gladioli and two dahlia bulbs for 25c and they could pay postage. Now, dear Cynthia, I can send bulbs direct to you or you could give the boxites wishing bulbs my address, and they could send the money to you for the Cynthia Grey cot. Our gladioli are the variagated kind, a lovely pink and white. Anyone wishing to exchange bulbs, I would be glad to. I saw where someone was offering quilt pat-terns. If I could get some I would pay ten cents for them. When we were in London we saw the Children's Hospital, and it
