Summer Guests

First of the Raymond-Whitcomb Parties Is at the Driard

Mining Men for the North Await the Sailing of the Steamers.

comb excursionists to reach Victoria this spring, arrived by the Utopia from Puget Sound yesterday evening, under the conductorship of Mr. and Mrs. C. H. Wilson, of Boston. The visitors are at the Driard, and will see just so much of Victoria's attractions as may be enjoyed in one day—for they are returning South this evening. It is from New York, Boston, Philadelphia and the neighboring villages that these holiday-makers hail, and the party is unique in being made up chiefly of young ladies—and kodaks. The former are quite the reverse of the traditional Boston type, being young and charming and unspectagled, which fact and the party is unique in being made up chiefly of young ladies—and kodaks. The former are quite the reverse of the traditional Boston type, being young and charming and unspectacled, which fact charming and unspectacled, which fact intensifies the regret of Victorians that their stay is so contracted. The party includes 34 ladies and gentlemen, and is made up as follows: Misses C. E. and S. F. Seaburg, E. A. Briggs, G. L. and M. H. Garrison, A. E. Harrison, E. B. Haven, J. H. Thatcher, H. W. Greene, Susan Hole, M. C. Passmar, J. Cox, A. S. Smith, J. M. Cushman, F. E. Trull, S. C. Wood and M. C. Lyman; Mrs. W. G. Weld, Mrs. S. R. Cornell, Mrs. P. E. Thompson, Mrs. D. C. Richmond; Mr.

Winter, have been in the service of the Canadian Development Company, putting together their new Australian, quite the finest craft in Northern waters. When they left Bennett the lake was open; a telephone message before they left Skagway gave the news, however, that it had frozen over again. The future movements of the party are as

Detached family parties of tourists continue to make up a large proportion of the transient guests at the Hotel Driard. Among those registering yesterday were C. G. and Mrs. St. Hill, of

Halifax Men The Victims.

Good Common

Common sense teaches that a debilitated system cannot be built up by continued purging, which reduces the strength of a body already weakened by disease. Most so-called blood builders are purgatives.

Dr. Williams' Pink Pills

for Pale People

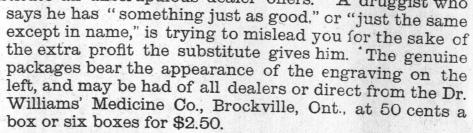

do NOT act upon the bowels. They renew and enrich the blood and make weak, tired nerves strong. They strengthen and only strengthen from the first dose to the last.

Most people find benefit from a tonic at this season, and thousands of authenticated cases prove Dr. Williams' Pink Pills to be the best tonic medicine known. That is why these pills have a larger sale than any other medicine in the world.

HEALTH BROKEN DOWN.

Mr. John Barley, Lachute Mills, Que., says :-- "Up to about seven years ago I had always been a healthy man. At that time my health began to give way, and at last I was left almost a physical wreck and for the last five years have not been able to do steady work the best part of the time, and as the many medicines I tried failed to help me, I had begun to look upon my case as hopeless. Finally a friend urged me to try Dr. Williams' Pink Pills, and now after the use of only five boxes I am feeling well and strong. It is simply marvellous what they have done for me, and I shall always recommend them

The same good sense that leads you to give Dr. Williams' Pink Pills a trial will prompt you to refuse any substitute an unscrupulous dealer offers. A druggist who

Building Trad Is Booming

Greatly Increased Activity Since This Time One Year Ago.

Handsome Homes in Construction in All Residential Sections.

There are two certain indications of good times in a city, both of which are plainly to be noted in Victoria just now. Go where you will in the city-and these new-found, bright June days are inducements to long walks-and you will find very few empty houses, and much building in progress. The business premises are, it is true, not of a pretentious character, but Victorians are a conservative folk, and in their building provide usually for actual demands. The growing residences are specially attractive architecturally, well placed and admirably calculated to increase the prestige of Vic-

toria as a city of homes. At the present time the sound of the hammer and saw is to be heard in every section of the town, the building actually in progress to-day representing an expenditure of more than 25 per cent. of the operations of the entire year of 1898, n which total the handsome new Weiler lock played a conspicuous part.

In the section that may be described as the heart of the city, there are in variously advanced stages of construc-tion the new two-story brick block on Government street for Messrs. Barnsley & Co. and M. Marks, to cost \$6,500; Messrs. Campbell & McCandless twostory stores on Johnson street, representing an investment of \$7,200; Mr. F. E. Newberger's two-story brick immediately across the way, to cost \$4,500; still another two-story brick atthefootofthe another two-story brick at the foot of the same street, for which Mr. M. Humber has the contract, and which will cost \$2,600 or \$3,000; Mr. Smeaton's alterations to his Government street stores,

alling for an outlay; the remodelled old

or \$3,000 a week, to build, and unquestionably holds the record as the most expeditiously constructed building in the province of British Columbia.

Then there is the expenditure of \$4,500 cleopatra. Then there is the expenditure of \$4,500 of corporation money in the remodelling of the Market building for Central fire station purposes; of \$3,500 more for the new two-story brick fire hall on upper Yates street; and of \$600 on the sewage disposal building on Cook street—not to mention the \$1,500 investment by G A Righerston & Co in the ment by G. A. Richardson & Co. in the conversion of the old Delnge fire hall on Yates street into modern business premises: nor yet the new Mesher block of six stores at the corner of Govern-

ment and Fisgard streets, ground for which has already been broken.

Of the residential building now in progress even more could be said. An hour's drive shows the B. C. Land and Investment Co. to be engaged in the improvement of their residence property.

Victoria West; Mr. J. Leseur's addition to his dwelling on Walnut street, costing about \$500; Mr. F. W. Nolte's new two-story residence on Phoenix Place, for which the contract price is \$2,000; Mr. S. B. Netherby's \$1,300 residence on Chatham street; Mrs. McRae's \$1,200 frame cottage on Avalon road; Mr. C. Wenger's \$600 addition to his home on View street; and Mrs. A. Wille's story-and-a-half frame house on Government and Henry streets, involving an expenditure of \$2,400. In addition to these, Mr. George C. Mesher is erecting a \$2,500 story-and-a-half frame residence on Victoria Crescent; a two-story residence on Pandora and Cook streets, costing \$1,500; and a \$2,000 twostory frame house on Fort street.

The alteration of the Institute hall calls for an outlay of \$5,000, and the new kindergarten school for the Sisters of St. Anne involves an expenditure of \$2,000 more, this latter building having een erected upon plans proposed by the good sisters themselves. It stands, an eloquent testimonial to their efficiency as architects, diagonally opposite the cathedral, at the corner of View and Rlanchard streets.

Blanchard streets. A JUNE EVENING AT ST. JAMES'. Music and Merry Farce at the Church Over the Bay-A Pleasing

Entertainment.

A merry throng of young folk (and every one is young who feels young) filled St. James' hall, James Bay, last evening for the concert and entertainment annual proposed by the ladication of the l Entertainment. St. James' hall, James Bay, last evening for the concert and entertainment announced by the ladies of St. James' church—the reputation of these providers of good things being a guarantee of an entertainment above the average. Nor were expectations at all disappointed, the entertainment above the average. Nor were expectations at all disappointed, the programme being as bright and refreshing as the delightful June evening itself. In the concert half of the programme were included a piano duet by Misses Leeming and Russell; a very pretty song by Miss Franklin, who was good enough to respond to an enthusiastic operation. enough to respond to an enthusiastic en-core; a duet by Miss Lugrin and Mr. Allen, admirably sustained both drame tically and vocally; a song by Mrs. Rickaby, who was in excellent voice; and a character reading from one of 1)r Drummond's exquisite French-Canad a character sketches, by Mr. Ricka'y. Afterwards the short but clever farce, "It's English, Y' Know," was presented in capital fashion, the only criticism that could be raised being that the work was costoffice, where \$3,000 more is being expended; Dr. Hall's \$2,400 brick building positionec, where \$5,400 brick building on lower Yates street; the Savoy the atre, a three-story brick, which cost \$9,
1000 or \$2,000 a week to build and up. was as follows:

After the farce and the closing for-malities—if anything can be described as

600000000000000000

Cruise Ahead of Them. An interesting test was made at Essurvey ship Egeria, Lieut, Learmonth of the Egeria had the chronometer at the Esquimalt telegraph office where a direct wire over the C. P. R. connected with McGill College observatory. The

chronometer there was attached to the wire so that the movements of the

quimalt yesterday morning to prove the accuracy of the instruments on H. M. S. pendulum came in on the receiving in-strument as regularly and quickly as made. The beats came one every two seconds until three seconds before the woman who has been legally married 29 minute until a pause occurred and the times, says the London Leader. She comnext beat indicated the minute. At the fifth minute a pause of ten seconds occurred and the next beat indicated now 37. She expreses the determination occurred and the next beat indicated five, ten or fifteen seconds as the case might be. Careful records were taken by Lieut. Learmonth and just before sailing—probably in a week or ten days as mimilar experiment will take place and it can readily be seen that the exact variations of the Egeria's chronometer can be easily reckoned. It is necessary to have chronometers absolutely corfect for obvious reasons.

The crew of the Egeria have a long and tedious cruise ahead of them, the instructions to Capt. Smythe being to take soundings of the Pacific ocean from the Vancouver Island coast to the Fanning islands for the proposed Pacific cable. The distance from here to the Fanning islands is about 3,000 miles, but it will take the Egeria three months to make the trip, as it is necessary to assertian the depth of the ocean and take to prefer another gentleman to himself, did not rave, or swear, or repair to the divorce court. He acted like a philosopher. Calling the pair together, he calmly proposed that, as they appeared to hit it, they should marry. All he demanded was the usual commission of matrimonial middleman.

Most marriages are conducted in Japan by the aid of an intermediary, and it is usual to pay them a bonus on the transaction. This commission the complaisant husband obtained, and everything ended up amicably.

First Volunteer—Where are you hit. Bill? Second Volunteer—In the leg.

First Volunteer—Great Scot! That's together taken and the bad taste to prefer another case a husband, finding that his wife had the bad taste to prefer another case a husband, finding that his wife had the bad taste to prefer another case a husband, finding that his wife had the bad taste to prefer another case a husband, finding that his wife had the bad taste to prefer another case a husband, finding that his wife had the bad taste to prefer another case a husband, finding that his wife had the bad taste to prefer another case a husband, finding that his wife had the bad taste to prefer another case a husband, finding that his
