JOHNSTON vs. PLYMPTON.
Important Drainage Case Decided in Favor of Township.
Mr. J. B. Rankin, Drainage Referee, of Chatham, opened Court at the Court House, Sarnia, on Wednesday last, for the hearing of the drainage case of Johnston vs. the Township of Plympton. The plaintiff, Mr. Timothy Johnston, who resides on lot 16, in the 6th concession, of Plympton, made application to the Referee to quash by-law No. 7, of 1907, of the township providing for the construction of the Gillyatly drain, and to restrain the township from proceeding with the work. The proposed drain was stated in the by-law to be intended to drain certain lands in the fifth and sixth concessions of Plympton, including part of the hundred acres owned by plaintiff. Plaintiff contended that his lands would not be benefited by the construction of the Gillyatly drain, they being already effectively drained by the Parker drain; also that the Gillyatly drain was really intended as a cut-off to take away water which would naturally flow into the Parker drain; and would not be of any value to the lands represented to be benefited. Plaintiff further contended that the Macdonald drain, into which the Gillyatly drain was planned to discharge, was not of sufficient capacity to carry the additional water, and floods would be caused in consequence. Plaintiff also advanced technical objections against the petition, engineer's report and by-law.
The application came before the Referee at Chatham on the 23rd of October, and it appearing to Mr. Rankin that the matter was one in which an inspection of the locality should be had, the hearing was set for Wednesday last in Sarnia, the Referee to inspect the ground in the meantime, which was done on the Tuesday preceding.
At the opening of the hearing, the testimony of a number of property owners in the neighborhood was submitted on behalf of the plaintiff, to the effect that the construction of the Gillyatly drain would not be beneficial to the district in proportion to its cost. Mr. McCubbin, land surveyor, of St. Thomas, gave evidence that he had inspected the ground and that in his opinion the Gillyatly drain was wrongly located, the natural drainage being toward the Parker drain, which was in the proper situation to carry off the water from the lands under the Gillyatly drain by-law, and that the construction of the Gillyatly drain would not be of sufficient benefit to compensate for its cost.
Mr. A. S. Code, land surveyor, of Alvinston, who laid out the Gillyatly drain, and Mr. C. A. Jones, land surveyor, of Petrolia, who laid out the township, gave evidence on behalf of the township to the effect that the Gillyatly drain, while admitted to be to some extent a cut-off, would not divert much water from the Parker drain; that it would drain the land to the southward in the 5th concession, contrary to the contention of the plaintiff; and that the construction was advisable; also that the Macdonald drain was in good condition and would furnish a sufficient outlet for all the water which the Gillyatly drain would carry. Several property-holders also gave evidence in support of the contention of the township.

The whole of Wednesday and the forenoon of Thursday were occupied in the taking of evidence and in the address of Mr. Towers, counsel for Mr. Johnston. At the close of Mr. Towers' address, the Referee gave judgment dismissing Mr. Johnston's application. Mr. Rankin said he would dismiss the application without costs, provided proceedings were allowed by the plaintiff to drop at this stage. If, however, Mr. Johnston decided to proceed further with the case, Mr. Rankin said he would in that event make an order giving the township costs of the present hearing against Mr. Johnston.
Arkona expects to have its electric light plant in operation next week. The power will be supplied from Rock Glen.

GOOD BLOOD FOR BAD.
That is What Dr. Williams' Pink Pills for Pale People Always Give They Never Fail.

Good blood is the one thing necessary for perfect health. If the blood is good disease cannot exist—if it is bad disease is bound to appear. There are dozens of maladies caused by bad blood. Among them are anaemia, rheumatism, heart palpitation and the special ailments of women and growing girls. If you suffer from any of these troubles, Dr. Williams' Pink Pills will cure you—because they make new, red, health-giving blood. They succeed where doctors sometimes fail. In proof of this, Mrs. Sarah Jane Duce, Deseronto, Ont., says: "In 1905 I became weak and sickly. I was all run down; I found housework a burden—sometimes I could not do it at all; the least effort made me tired. I consulted a doctor who told me he might help me some but could not cure me permanently on account of my age. I am over fifty. His treatment did not help me and I gradually grew worse; even my friends began to despair. Four different doctors told me my case was hopeless. My suffering was intense. Sores broke out around my mouth, and I was unable to eat. I consulted a specialist who told me my trouble was anaemia and that he had little hopes for my recovery. I was in despair and decided it was useless to spend any more money on doctors. One day my husband urged me to try Dr. Williams' Pink Pills. After a few weeks use of the Pills I was convinced that I had found the right medicine. I took twelve boxes and they completely cured me, and I am now in excellent health. I gladly recommend them to all sufferers, for they cured me when doctors had failed and my friends were expecting my death to end my suffering."
Unless the full name, "Dr. Williams' Pink Pills for Pale People," is printed on the wrapper around each box don't take them—any other so-called pink pill is a fraud intended to deceive you and may do you harm. If your medicine dealer has not got the genuine Dr. Williams' Pink Pills for Pale People they will be sent to you direct at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Mr. and Mrs. Walter Jardine of Plympton, Celebrate Fiftieth Anniversary.

Mr. and Mrs. Walter Jardine, of the ninth concession of the township of Plympton, were last week honored by the presence of their whole family, with the exception of one son in Winnipeg, it being the occasion of their fiftieth anniversary of wedded life. For a couple to live a sufficient number of years to celebrate their golden wedding is not by any means a common occurrence, and to have a grown up family of thirteen and not a single one absent by death makes the event even more interesting. Five sons and eight daughters constitute this stalwart Scotch family, and all were present with their husbands or wives as the case may have been, with the exception of one son, who, on account of the distance, could not participate in the home gathering. All lived in the County of Lambton, with the exception of a daughter, Mrs. Brown, of London, and the above mentioned son in Winnipeg.
On this occasion, the sons and daughters presented their father with a gold watch chain and the mother with a gold ring. The recipient of the chain on behalf of himself and his life companion, thanked the givers in a very few words in which the beautiful Scotch accent was much in evidence.—Petrolia Topic.

PELL OF F WINDMILL.
Mr. Daniel Dunham of Plympton Township Killed.

Forest, Nov. 22.—Mr. Daniel Dunham, a highly respected resident of Plympton township, about a mile from Forest, fell from the top of a windmill this morning and died almost instantly from injuries sustained. Deceased was about sixty years of age and is survived by two sons and two daughters—J. B. Dunham of Burlington, Frank of Silver Creek, N. Y., and Misses Ethel and Emma, at home. Deceased was a brother-in-law of Mrs. Jos. Thorne, of Watford, and a number of the relatives from here attended the funeral at Forest on Sunday.

Calculation
Very often the reason why one accountant gets through more work in less time than another, thereby earning an enviable reputation for quickness and cleverness, is simply because he takes advantage of every short method possible.
Simply amazing how few know the many arithmetical short cuts—how few can do simple arithmetic questions rapidly and accurately.
"Rapid Calculation" is not only practice, there is a 'method' as well. The method we teach, but the practice remains with you.
