Sem's Entrance Into Verdun

A CHOICE bit of "Un Pekin sure le Front" (and, this time, in a humorous vein)

"Monsieur should have taken his rifle!" breathes behind me a bantering voice. I do not insist and I plunge into the darkness of the long tunnel. . . . I am unutterably relieved, unspeakably tranquil under the thick layer of rocks and earth interposed between my head and the redoubtable sky which my imagination pictures to me sebraed with obuses. Ordinary Common Sense— Sensible Thrift—and Maxwell Motor Cars

Common sense says to you, "Buy a Maxwell Car and use it."
The American people are going forward—not backward.
That is the purpose of the great war in which we are now engaged.

The success of the Nation depends on healthy business activity over the country—and sensible thrift.
Healthy business depends on the utilization of every possible labor-saving, time-saving, money-saving device known.

The light-weight, economical Maxwell—in passenger service—taking you where you have to go on business, helping you relieve delivery congestion—is one of the greatest known labor-saving, time-saving, money-saving devices.

MURDER AT SEA

The Hungry Maw of the Prussian Wolf
The unwritten law of the deep from time immemorial has been that the captain of a ship must defend with his life the passengers entrusted to his safe-keeping, and be himself the last to leave the ship.
By the laws of civilized nations the lives of those travelling on unprotected ships have been considered sacred.
It has been left to modern German Culture to introduce Murder at Sea. We remember the Lusitania, Falabar, the Belgium Prince, but at this moment we

THIS IS THE AGE OF REASON

Isn't it better at the first sign of failing vision to have your eyes attended to, than to put it off until perhaps your Optician can not do for you as much and as well as he could have done on the start? Reason it out. Think about this and let us know. Our service is at your bidding.

particularly think of Capt. Fryatt, in command of a passenger ship, whose only offence was that he sought to save the ship from the hungry maw of the Prussian Wolf in endeavoring to save his ship from being submerged. He was sent through the farce of a mock trial, condemned to death and was shot. Had he been a naval officer, seaman or soldier, he would have been made prisoner; because he was a merchant seaman, his life (according to the law of German civilization) must be forfeited. He is only one of many; thousands have been torpedoed again and again, and after reaching port they sign on and are out again on the Long Lone Trail.
For the merchant seaman there is no Patriotic Allowance, Separation or Pension for his dear dependents; this is one of the objects the Navy League is seeking to provide for.

There is no time to be practicing False economy. Don't imagine because you have a fire that it is cheaper to take your own Bread and cakes. Remember, you must have extra heat, and you know the cost of food and coal these days!

AVED FROM AN TIMELY GRAVE

ldom has a more tragic tale been than that of this young woman, whose parents, brothers and sisters all died of consumption, leaving alone to make a living as best she

ever robust, hard work and worry, undermined her health, when she became a victim of this dreaded disease. Shunned by friends who had been unable to save from her earnings, she seemed doomed, the others of her family, to an early grave. Fortunately, she was removed and sent to the Muskoka Hospital, before it was too late, where she is now doing well, with a chance of ultimate recovery.

Appeals are now being made for the koka Free Hospital for Consumption to enable it to continue the great work of caring for just such cases as this. No matter how small the gift, it will be welcome.
