MALLOWE'EN was very quietly observe ed in Watford. There was none of that sough play and property destroying that charactized the night last year. Several masquerade parties were given in private homes and two of the churches had social gatherings. The youngsters in most families were kept at home celebrating in the time-honored fashion of roasting chestnuts, pulling taffy, etc., and only a few paraded the streets in small groups to show themselves off in "grown-up" clothes and masks. WHOLESALE houses of Canada lose thousands of dollars annually because of the fact that customers in paying their bills forget to affix stamps as required by Dominion law. This point was discussed at the annual meeting of the Canadian Credit Men's Association held a few week ago, and it was decided to take the matter up with the Banker's Association with a view to having the stamp printed as part of the check; the check books could then be sold to customers for the cost of the stamps. With the approach of the municipal election season the civic councils of Ontario have to consider whether the rate-payers shall vote on the reducing of assessments on small dwellings. The enabling Act was passed at the last session of the Legislature, but in few cities or towns in the Province are there indications of eagerness to tackle the question. The Act provides that, on the approval of electors qualified to vote on money by-laws, the council may inaugurate exemptions on dwellings on the following scale: Not more than 50 per cent. up to \$4,000. 70 per cent. up to \$4,000. As the partial exemption applies to the dwellings only, not the land, the inclusion of houses assessed up to \$4,000 gives the scheme a very wide sweep. The object of the permissive legislation was to encourage the building of small houses. One objection is that the benefit would go into the pockets of landlords who own about half of the small houses. but THE funeral of the late Miss Waugh on Forest; Miss V. ON SUNDAY, Oct. 26th, in the Presbyterian church here, Mrs. R. A. Mitchell M. D., gave a most interesting address on the educational and evangelistic work being done in Weithwei, one of the six stations of the Canadian Presbyterian Mission in Honan Province, China. In her 25 year's experience Mrs. Mitchell has seen great changes, and she urged upon her hearers the necessity for going forward and improving the opportunity lying beyond the "opened door" which is already being entered by those who wish to exploit that great land for mere selfish interests. The British nnd American Tobacco Trust has agents travelling over China, and are importing into that country cigarettes—not by degrees or hundreds—but by carloads for free distribution, to create a taste for them among these people who so recently drove from their land the infamous opium trade. Then, too, the Brewers' and Distiller's Associations, when there saw the trade. Then, too, the Brewers' and Dis-tillers' Associations, when they saw the downfall of their trade on this continent imminent, repaired to the Eastern world, and are now distributing freely thy flasks of spirits, among a people to whom drunkenness has hitherto been unknown. Already a number of breweries and distilleries are being operated there and strong drink is being largely imported, not only into China, but also into Japan, Korea, India, Formosa and all these eastern lands. In the Committee of eastern lands. In the Committee of Missions, agreed upon at the Edinburgh Conference a few years ago, when the work of evangelizing the heathen world was divided among the churches of Christendom, 15,000,000 was the number apportioned to the Presbytertan church in Canada. Of these 8,000,000 are in China. Mrs. Mitchell urged that in view of our recent great deliverance from the trade of strong drink, the people make greater efforts than ever before to carry christian influence to this land so wonchristian influence to this land so wonderfully opening to Western ideas and improvements. The annual thankoffer-ing of the Women's Missionary Auxiliary was received at this service which amounted in all to about \$106.

Boy Accidentally Kills Companion and Ends His Own Life

Alvinston, Nov. 2—While out hunting Saturday afternoon two boys were killed. Russell Barnes was accidentally shot by his chum, John Horsepool, and instantly killed. Horsepool, in the excitement and remorse over the accident, shot and killed himself. Coroner Dr. Newell of Watford decided that no inquest was necessary. The boys were about 16 yrs. old. The town is overcome at the news of the tragedy.

Barnes and Horsepool, who reside a short distance from here, accompanied by several other boy chums, started out on a hunting trip. A short distance in the woods they sighted a squirrel and armed with .32 calibre rifles stood one on each side of the tree, awaiting its descent. When the squirrel came down Horsepool fired. The bullet lodged in Barnes' brain, causing almost instant death.

brain, causing almost instant death.

As Barnes fell, Horsepool ran away stating he was going for medical assistance. His last words were, "I've killed him, I'll be hung''
A minute later his companions heard another shot nearby. An investigation was held, and the body of Horsepool was

was held, and the body of Horsepool was found with a gaping hole through his head. His body was but a few yards from that of his dead companion, accidentally killed by the same gun.

Dr. Newell was at once called to the scene of the tragedy. After a thorough investigation and after hearing the stories from the companions of the dead youths, but deaths were

he decided that both deaths were accidental and that an inquest was unnecessary.

Both funerals will be held Monday It is thought that Horsepool, in the ex-citement, became suddenly obsessed with the fear that he might have to face trial for the killing of his chum, Barnes, and

that overcome by the thought of it he ended his own life. The whole district is astir over the double tragedy. The boys were well known to many in this part of the county and the shocking accident and its unusual denouement is the topic of the conversa-tion on all sides.

PREMIER DRURY MAKES FIRST SPEECH

Tells Barrie Meeting Time of Depression Coming and Recommends Purchase of Loan

Barrie, Nov. 3.—Without heroics patriotic superlatives or any appeal to sentimentality, Ontario's Premier designate, Ernest Charles Drury, delivered here tonight his maiden speech since receiving his call to form a Provincial Government.

He appealed for the support of the Victory Loan.

I want you to bear in mind first, that there is coming inevitably a time of deflation of prices. Secondly, I want you to flation of prices. Secondly, I want you to-realize that the only thing we need to fear is an economic condition where it takes-too large a share of our products to pay our foreign interest. There is nothing to fear about the amount of money we owe-ourselves at home. The thing we have to fear is our foreign borrowings, and the interest on those borrowings, that it does not become so great that it requires does not become so great that it requires too large a proporation of our labor to pay our interest on them. "Our foreign indebtedness is not so

"Our foreign indebtedness is not so great that it many way affects the stability of Canada, Work on our resources wan pull us through. We could conceivably raise a foreign loan in the United States, but what happens? We are committed to pay interest to that country, and our credit is affected, and the value of the Canadian dollar goes down. But if we raise that the home the down. But if we raise it at home the money doesn't come out of business al-ready invested. We do not expect men to take money out of their farms or their factories to invest in Victory bonds. They could not do it and it would not be

sound business. "In raising our Victory Loan at home the money comes out of the current spendings of citizens, who, instead of spending, are retrenching and saving.

'The safest investment that can be made by any Canadian at the present time's, of loaning that money to the nation. It is good business for the individual; it assists to maintain the credit of the nation, and it provides work for the national industries. It is in the nature of an insurance policy, of spreadnature of an insurance policy, of spreading losses over a large number of people until it becomes negligible. It is an investment not backed by any single industry of the nation. One per cent. of the industries may fail; ten per cent. of the industries could fail, and still the investment would be gilt-edged. The safest investment you could possibly make in Victory boyds and it is the biggest is in Victory bonds, and it is the biggest thing you could possibly do for your country at the present time. "The time will come, not very far off,

when wages will have dropped and the value of a bushel of wheat will have dropped to one half the value it is now. In that day your bonds will have twice the present value. It will be worth while in those years to own \$1000 worth of Vectory bonds.

"There is one feature about this issue

most highly to me, and that is that they are taxable. Every bond we issued should have been taxable, because it is to be feared that former issue of non-taxable bonds are drifting into the hands of men with big incomes who wish to avoid taxation. It was not needed, this non-taxibility teature, because the small consum-er, the man who invested his savings, did not need a tax remittal to get him to

"I give to you my sincere conviction that the best thing we can do at present for ourselves and for our country is to lend our money to the nation. It is urg-ently needed. The Government must
