FEW NEW FABRICS

No Distinct Changes in Materials for Spring Wear.

Gabardine, Tricot, Serges, Tricotine, Tweed, Honespun and Broadcloth and Variety of Silks.

As social life returns to its normal course more and more thought is given to dress. It is too early in the season for any very radical change in fashions to be established, but it is most interesting to watch the development of the individual ideas of the designers.

There will be no distinct change in materials, since as yet very few new fabrics have been made. A little of everything is seen, gabardine, tricot, serges, tricotine, tweed, homespun and broadcloth. Among the silks one notes a great variety and also fabrics of American make that are composed of silk and wool with a predominance of silk. Many new colors will make their appearance this spring, and there will be a wider variety to choose from than in recent seasons.

The new silhouette is a matter that is uppermost in the minds of the designers at the moment. It is predicted by a few of those in a position to note the trend of the times that the mode will gradually emerge from the extreme simplicity of the last few seasons and once again the more complicated silhouette will be in evidence.

The advance models, however, give no indication of this change. A majority of the tailored suits of summery aspect are built upon severely plain lines, slim and straight as those of this winter. The coat, for instance, may be built without the slightest curve at the waist line and the front left open to show a long sweater-like waistcoat which has no visible fastening. The skirt is also straight and slim, and while there is a slit at the back to give its wearer more comfort in walking the material crosses over so that the slit is not visible.

Very pretty simple one-piece frocks of silk, tricotine or wool in light weight and in light colors or all white are noted.

A smart little model was fashioned from a lovely, soft creamy white gabardine with large collar and cuffs of white silk. The frock was caught in loosely at the waistline by a white silk cord which tied at the back and extended half the skirt length, the ends being finished with tassels. The back of the skirt was made with four deep folds slightly gathered in founce effect.

There are numerous cape models of light weight woolen shown for the benefit of the southern trade. They are made in various styles and of various materials.

FADS AND FANCIES

The new tunic skirt has the tulle coming only to the knee. Gray and black form the smartest combination of the moment.

A good deal of Chinese flit is used on flesh crepe blouses.

Dressy taffeta suits are seen, some with cape coat effects.

The suit coat has made excellent use of the deep shawl collar.

Copper, tete de negre and black are the favorite colors for velvets.

The afternoon frocks have been made of material rather than of ribbon.

The Oxford shoe, topped by a ribbon stocking, has no rival for street wear.

5000 Facts About Canada

"Canada in a nutshell" is an apt description of the popular "5000 Facts About Canada," the thirteenth annual edition of which is out for 1920, as compiled by Frank Yeigh, the well-known Canadian authority. It is a most striking illustration of the trade, finances, industries and resources of the Dominion in concrete form, and will prove a revelation to even the best informed. This new issue contains a wealth of new matter, including final War facts. It contains no less than 50 chapters of facts all told, ranging alphabetically from "Agriculture" to "Yukon." Copies may be had from newdealers or by sending 25 cents to the Canadian Facts Publishing Co., 588 Huron Street, Toronto.

Died in Toronto

The death of Mrs. Mary Carter, relict of the late Chas. Carter, of Enniskillen, occurred in Toronto on Saturday, April 3. For some time deceased had been in poor health, suffering from cancer, at the end pneumonia set in and death relieved her sufferings. She was born in Glasgow, Scotland, 73 years ago, coming to Canada when 12 years of age. Mrs. Carter's maiden name was Mary Johnston. For many years her home was in Newmarket, where she was married, and came to Petrolia when the oil boom was on. The greater part of her life was spent in Enniskillen township, where she was well known. In the early days, when doctors were not always available on account of bad roads and long distances, she was always ready to go whenever a call came, and the calls were many. She was very efficient and many a life was saved by her unselfishness. Deceased was always a great worker in the Methodist church. She was the mother of eight children, but only four are left to mourn her loss, namely, Mrs. Chas. Brock, Toronto, who is seriously ill at the present time, Mrs. Chas. McKee, Petrolia, Alex. of Fort Tupton, Col., and Charles, of Northack, Sask. Her eldest son, Thomas, was killed in Saskatchewan in October last. The pallbearers were: Mayor Preston, Messrs. W. Bradley, George Bennett, Albert Brock, and her two sons-in-law, Chas. McKee and Chas. Brock. The funeral took place on Monday from the G. T. R. station, 1.10 p.m. train, to Hillsdale cemetery, where she was laid to rest beside her husband. Rev. Mr. Richardson conducted the services at the grave.—Topic.

Spring Millinery

Latest Designs in Fashionable Millinery.

MISS M. GEORGE, Watford.

SEWING MACHINES

We have a splendid range of Singer sewing machines—all priced most reasonably. You probably need a new machine this spring—come in this week and see ours.

Have you Hydro or Delco in your home?

See our Special Electric Sewing Machine. It's so pleasing and handy, attaches to any light socket and consumes very little current. Same price as other models. Come in and see it—it's worth while.

A couple of Second-hand Machines in excellent repair will be sold at a bargain to an immediate buyer.

SAFE AND EFFICIENT HOME TREATMENT

Many Weak and Ailing People Who Have Been Helped Strongly Recommend Dr. Williams' Pink Pills.

There is only one way to build up a run down system if the blood is pale and thin. Many diseases are caused by thin blood. Other diseases such as influenza and rheumatism cause the blood to become thin and the wasting effect of these disorders cannot be combated successfully until the blood is restored to its normal condition.

Pallor, nervousness, indigestion, sleeplessness, headaches, dizzy spells, shortness of breath, palpitation of the heart, these are a few of the symptoms of an anaemic bloodless condition. Some of them are not naturally associated with thin blood, but the quickest way to overcome them is to make the blood rich and red.

Dr. Williams' Pink Pills do one thing and do it well. They build up the blood increasing the number of red corpuscles. As this is done the blood becomes a richer red and is able to carry more oxygen, the great supporter of human life. As the blood improves in quality the tissues of the body are better nourished and the functions of the body are better performed. The glands of the stomach are stimulated and the first sign of improvement is usually a better appetite and better digestion.

Dr. Williams' Pink Pills have been used for years as a bloodmaking tonic and system builder with such good results that in every community there are many people who are recommending this remedy to their friends and to others who are afflicted.

Here is the statement of one person among thousands who have used Dr. Williams' Pink Pills to their own great advantage. Mrs. A. Veniot, Hemford, N. S., says:—"For about two years I was a great sufferer from indigestion, which seemed to carry with it complication of other troubles. Every meal I took brought with it misery, as it was followed by pain, and sometimes nausea and vomiting. At other times gas would form in the stomach to such an extent that my heart would palpitate at an alarming rate. These conditions brought on extreme nervousness and irritability and I found my general health so much affected, that the least exertion would tire me and I slept but poorly. I had been doctoring for several months, with no result beyond slight temporary relief, when I was advised by a friend to try Dr. Williams' Pink Pills. I decided to follow this advice and got half a dozen boxes. Good results soon began to show from this treatment, and the further continued use of the pills have made me a well woman. I can cheerfully recommend Dr. Williams' Pink Pills to similar sufferers."

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing and they do it well. They are an invaluable remedy in diseases arising from bad or deficient blood, as rheumatism, neuralgia, after effects of the grip and fevers. The pills are guaranteed to be free from opiates or any harmful drug and cannot injure the most delicate system.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Geo. Loughheed who had been a resident of Stratroy for about six months died there last week. He practiced in Petrolia for 30 years before going to California from where he returned on account of poor health.
