Superior to Carbolic Acid for Ulcers, Wounds, Sores, etc.
Removes Scurf, Roughness and Irritation of the Skin, making the coat soft, glossy, and healthy.

The following letters from the Hon. John Dryden, Minister of Agriculture, and other prominent stockmen, should be read and carefully noted by all persons interested in Live Stock:

"MAPLE SHADE" HERDS AND FLOCKS.

BROOKLIN, ONT., Sept. 4th, 1890.

DEAR SIR,—I cannot afford to be without your "Little Sheep Dip and Cattle Wash." It is not merely useful for Sheep, but it is invaluable as a wash for Cattle, etc. It has proved the surest destroyer of lice, with which so many of our stables are infested, I have ever tried; it is also an effectual remedy for foul in the feet of Cattle. I can heartily recommend it to all farmers and breeders.

JOHN DRYDEN.

17 Gold, Silver, and other Prize Medals have been awarded to "Little's Patent Fluid Dip" in all parts of the world. Sold in Large Tins at \$1.00.

Special terms to Breeders, Ranchmen, and others, requiring large quantities. Ask your nearest druggist to obtain it for you; or write for it, with pamphlets, etc., to

ROBERT WIGHTMAN, Druggist, Owen Sound.

700

Sole Agent for the Dominion.

particularly select lot of young bulls. There will be six descendants of the very valuable breeding cow, Imp. Lovely 19th, who continued breeding regularly until about twenty years old. The six-year-old red, Lovely Queen 8th, is a massive cow, level, straight, and thick, an excellent show cow, in fine condition. She was got by Conqueror. A full sister of hers, four years old, a roan, and with a handsome roan bull calf at foot, was got by British Flag. Two more of this family are attractive yearling heifers by British Flag, and there are two young bulls by the same sire. Of the Constance family there will be four representatives, three of them young bulls, and their equal for quality of flesh, for general character, style, and size, and quantity of long, silky hair, it will be very hard to find. There is one good roan bull whose dam and sire's dam have made fourteen and fifteen pounds of butter per week, together with several other right good ones, making up an exceedingly attractive offering. Full particulars can be had from our catalogue, which will be sent free on application.

MR. G. W. CLEMONS, St. George, Ont., writes: My Holstein-Friesian heifer, Mondamin's Daisy Barrington, well known as a prize-winner, dropped a beautiful heifer calf on December 3rd, sired by DeKol 2nd; Butter Boy, whose six nearest female ancestors have butter records which average nearly 33 lbs. per week, and who won first prize at the New York State Fair in 1895. I have named this calf Daisy DeKol, and I find, on examining her pedigree, that thirty-eight of her nearest female ancestors have milk records which average 85½ lbs. of milk per day. Her dam, Mondamin's Daisy Barrington, was

MICA ROOFING

USE

Mica
Roofing

On all your buildings.

It is cheaper than shingles.

Waterproof and Fireproof.

USE

Mica
Paint

To Repair Leaky Roofs.

Shingle, Iron, or Tin Roofs painted with it will last twice as long.

RAPIDLY TAKING THE PLACE OF SHINGLES.

Is put up in rolls of one square each, 40 feet long by 32 inches wide, and costs only \$2.25, including nails, thus affording light, durable, and inexpensive roofing, suitable for buildings of every description—especially flat roofs—and can be laid by any person of ordinary intelligence.
