

BILIOUSNESS.**Burdock
BLOOD
BITTERS**

Bilious symptoms invariably arise from indigestion, such as furred tongue, vomiting of bile, giddiness, sick headache, irregular bowels. The liver secretes the bile and acts like a filter or sieve, to cleanse impurities of the blood. By irregularity in its action or suspensions of its functions, the bile is liable to overflow into the blood, causing jaundice, sallow complexion, yellow eyes, bilious diarrhoea, a languid, weary feeling, and many other distressing symptoms. Biliousness may be properly termed an affection of the liver, and can be thoroughly cured by the grand regulator of the liver, and biliary organs, Burdock Blood Bitters. Act upon the stomach, bowels and liver, making healthy bile and pure blood, and opens the culverts and sluiceways for the outlet of disease. Sold everywhere and guaranteed to cure.

PETLEYS'.

"COLLEGE SONGS."

In everything that enters into the make up of acceptable College Song books, those published by Oliver Ditson & Co. are unquestionably superior to all others. "Carmina Collegensia" (\$3) an elegant volume, containing a complete collection of American and Foreign Student Songs, at once took its place as the song book par excellence years ago. After twenty or more editions, as the result of frequent and careful revisions, (as remarked by the *Springfield Republican*) it remains the standard book of its kind and will probably so continue for years to come. Not long ago, to meet the demand for a cheaper edition, this house issued "Student Life in Song" (\$1.50) with a charming introduction by Charles Dudley Warner and containing choice selections from the larger book, including all of its foreign student and miscellaneous songs.

To these favorite books has been added a third, the popularity of which is attested by the fact that every edition has been exhausted as fast as printed. This book, "College Songs," (mailed free for fifty cents) is unquestionably the best as well as the cheapest of its kind. It contains not only a selection of the best "old songs," but a splendid collection of new songs recently introduced in College circles, most of which are copyrighted and can be found in no other collection. Among them are such capital ones as "Funiculi," "Faddy Duffy's Cart," "Darling Clementine," "In the Morning by the Bright Light," "Irish Christening," "Emmet's Lullaby," "McSorley's Twins," "Spanish Cavalier," "Solomon Levi," "Caro dat Possum," "To the Bravest," (quartet) "Rosalie," "Good bye, my Lever, Good bye," "What Beams so Bright," and many more choice gems.

One of the best features of this, and the books first mentioned, is that all of the solos have piano accompaniments.

That these books should excel others of their kind in value, is not surprising in view of the fact that their editor has had at his disposal the copyright material and other facilities of the largest music publishing house in the world. Those who desire the best College song books should see to it that they have the imprint of Oliver Ditson & Co.

TRACING PHYSIOLOGY is usually attended with much discouragement on the part of both pupil and teacher. Those seeking better methods will be glad to learn that THE NORMAL BOOK CONCERN, of Ladoga, Ind., announces the publication of a little book which must necessarily prove of great service to all who teach or study Physiology. It contains under the title PHYSIOLOGY OUTLINED, by J. P. WARREN, Teacher of the Natural Sciences in The Central Indiana Normal School, Ladoga, Ind. It is a complete and scientific topical outline of the subject. It is the third in a series of similar books, following U. S. HISTORY OUTLINED and CIVIL GOVERNMENT OUTLINED, which have passed through several editions and become very popular all over the country. The History and Physiology are issued in paper at 15c; in cloth, 25c. Civil Government, 10c. For copies, address THE NORMAL BOOK CONCERN, Ladoga, Ind.
