TORONTO WHOLESALE MARKETS.

TORONTO, November 7, 1883.

The continued mild weather is having an effect on the trade in heavy dry goods staples. Independent of this there are no signs pointing to a depression in the dry goods trade. Business is chiefly confined to letter orders, which are generally small, and for sorting-up parcels. Groceries are reported moving very fairly, with the volume of business quite equal to expectations. Hardware quiet. Boots and shoes also dull. Leather quiet, and prices in favor of buyers. Provisions without change, the settle-

ments with banks on the 4th were commented on more favorably, and a better feeling is prevailing. The movement of produce is not so large as was expected, but trade is steadier in consequence of the movement so far. Financing is rather easier than at recent date. The demand for money has somewhat fallen off, and rates are easier. Brokers report loans at 6½ to 7 per cent. Gold drafts on New York negotiated at ¼, and ½ premium over the counter. The Stock Exchange has been steady, with some features that almost amount to improvement. During the week ending Saturday banks were generally irregular and weak, but there has been a better feeling manifested in the days of this week. Montreal sold at 185 to 186½; Ontario from 104 to 106; Toronto at 171; Merchants at 115½; Imperial at 138; Federal at 145 to 144; Dominion at 191 to 190; Standard steady at 114; Hamilton also steady at 115; Molsons steady at 112 and 113 during the week. The total shares sold last week were 5,704 against 8,457 in the corresponding week last year. Loan companies have been quiet and steady, with sales limited. Miscellaneous shares have been somewhat irregular, between narrow limits, and very little demand existing. North-west Land Co. sold 2,125 shares at prices varying from 72 to 67½. The Stock Exchange is altogether firmer, for the moment, than it has been for several weeks.

LOUR AND MEAL.—Flour has been remarkably steady, and millers claim that the prices are scarcely what they should be with wheat at the present prices. There are no transactions beyond what are required to supply the local demand and shipments to points east. Grand Trunk Freights are slightly higher which is also against the manufacturer. Sales are made of single cars of Superior Extra at \$5.15; while choice brands or strong Bakers are quoted at \$5.25. Patent Process steady also at \$6 to \$6.80. Extras, Fall, quoted at \$5, and Spring Extra at \$4.85 to \$4.90. To-day the market continued quiet and unchanged, with sales of Extra at \$5; and ordinary Superiors at \$5.15. Stocks are still light. On Nov. 5, there were 731 barrels against 1,216. On Nov. 6, 1882, and 3,060 barrels Nov. 7, 1881. Oatmeal is inactive; car lots of ordinary have sold at \$4.20; granulated at \$4.45. Cornmeal quoted at \$3.75 for small lots. Bran in light demand, with car lots quoted at \$12.

WHEAT.—There is a dullness in both British and American markets, and prices are low. The wheat in visible supply on this continent Oct. 30, was 30,616,382 bushels, against 16,078,308 bushels at same date last year. There is no immediate prospect of an advance. The wheat in Ontario is short of the average, and, while exports are expected to be small, prices will not go so low as they are in the States. Last week the prices were ruling about steady at \$1.11 for No. 1 Spring and \$1.09 for No. 2. Fall Wheat was quoted at about the same figures; and Goose Wheat at 90c and 91c. On Monday there was no change, with no demand except for milling purposes, and prices quite unchanged. A slight advance in Liverpool had no effect on this market, which is now higher than could be maintained for exportation. At the market to-day there was a little business at \$1.10 for No. 2 Fall; \$1.07 for No. 3 Fall, and \$1.12 for No. 1 Spring. Stocks are still light; in store on Monday last 47,192 bushels, against 42,137 Oct. 29; against 122,481 bushels Nov. 6, 1882; and 198,757 bushels Nov. 7, 1881. The total stocks of grain in store on Monday last were 223,206 bushels; against 349,463 bushels Nov. 6, 1882; and 516,310 bushels Nov. 9, 1881.

COARSE GRAINS.—Barley is coming in more freely, but shipment is not large. The market continues to be merely steady, and prices have not varied to any extent during the week. Sales have been made of No. 1 at 72c; of No. 2 at 66c; No. 3 Extra at 62c; of No. 3 at 55c. These figures are probably hard to realize. Stocks are increasing. There were on Monday last 171,134 bushels, against 130,148 Oct. 29; against 225,483 on Nov. 6, 1882; and 302,402 bushels Nov. 7, 1881. The general opinion is that prices will not improve, as the United States markets are rather inactive. Oats are quiet and steady; there is only a light demand, and prices of car lots are from 36c to 37c. There are no stocks. Peas inactive, and no shipments reported; quoted at 74c to 75c for good No. 2. Stocks on Monday last 4,880 bushels, against 3,860 bushels Nov. 6, 1882; and 6,754 bushels Nov. 7, 1881. Rye is quiet; quoted nominal at 62c in cars on the track.

DRUGS AND CHEMICALS.—Business has been rather quiet lately, with very little change in prices. Quotations are: Quinine, Howards, \$2.25 per oz.; German, \$2.10 in bottles; Phosphorus, \$1 to \$1.10. Alog, Cape, 23c to 25c; Ergot, 55c to 60c; Opium, \$4.30; Morphia, \$2.70 per oz; Bichromate Potash, 14c per lb; Bicarbonate Pot., 18c; Potass. Iodide, \$2. to \$2.10 per lb; Pot. Turpentine, 62c to 65c; Linseed Oil, boiled, 65c to 70c; raw 60c. Cod Oil, Newfoundland, \$2.25; Norwegian, \$6.25 to \$6.50 per gallon.

COAL OIL.—Business is good, but prices are unchanged and steady. Canadian refined 18c for common and 19c for carbon safety, in single barrels. American refined 25c for prime; 28c for water white. Crude is quoted at Petrolia at 85c to 90c per barrel, which is a decline on quotations of two weeks ago.

GROCERIES.—General trade is still reported very satisfactory. The heavier lines of sugars are in good demand. It is looked for that the demand for new fruits will be active for some weeks to come. Prices generally are very steady; and the market promises to offer advantages to buyers: The following quotations hold:—Sugars.—Porto Rico, dark to fair, 6½c to 7c; bright to choice, 7½c to 7¾c; Canadian refined, 7¾c to 8c; granulated, 9½c to 9¾c; Paris lump, 10c; Scotch refined, 6½c to 7c. Teas are steady, and low grades are rather firmer. Coffees, steady; Java, 18c to 25c; Rio 12½c to 13c; Ceylon, 23c to 25c; Mocha, 30c to 32c. Syrup, common, 54c to 56c; amber, 60c to 63c; Molasses, 38c to 40c. Fish; herring, No. 1 Labrador, \$6 to \$6.25; No. 2, \$5 to \$5.50; Codfish, No. 1, \$6 to \$6.25; No. 2, \$4.50 to \$5; trout, lake, \$4 to \$4.25; whitefish, \$4.75 to \$5.00.

HARDWARE.—Business keeps quiet, as reported last week, but there is an increasing demand for builders' materials. There are no reasons offering to cause expectations of more than a moderate trade this winter. Quotations for leading lines are: Pig Iron, inside prices, Carabro, \$21; Summerlee, \$22.50; Nova Scotia, No. 2, \$22; Nova Scotia bar, \$25.50 to \$26.00; ordinary, \$2 to \$2.10; hoops, \$2.50 to \$2.60; band, \$2.50 to \$2.60.
